The Writer's Rhyming Dictionary is arranged to help beginning and advanced poets. It contains more than 25,000 rhymes for the most common sounds in the English language, thus adding immeasurably to the poets' own rhyming vocabulary. The Writer's Rhyming Dictionary is divided into two easy-to-use sections. The first section contains rhyme sounds of one syllable, arranged alphabetically, including one syllable words that rhyme, and words in which the final, accented syllables rhyme. The second section of the book contains the more difficult two-syllable rhymes for which the poet is so often searching. The Writer's Rhyming Dictionary will be of great value to the poet in the demanding task of writing verse with correct rhyme sounds and rhyme patterns.
