Goethe's Theory of Colours Johann Wolfgang von Goethe,1840 This work by Johann Wolfgang von Goethe (1749-1832) was translated into English in 1840 by Sir Charles Eastlake (1793-1865), painter and later keeper of the National Gallery. Goethe's 1810 work was rejected by many contemporary scientists because it appeared to contradict the physical laws laid down by Newton. However, its focus on the human perception of the colour spectrum, as opposed to the observable optical phenomenon, was attractive to, and influential upon, artists and philosophers. As Eastlake says in his preface, the work's dismissal on scientific grounds had caused 'a well-arranged mass of observations and experiments, many of which are important and interesting', to be overlooked. Eastlake also puts Goethe's work into its aesthetic and scientific context and describes its original reception. His clear translation of Goethe's observations and experiments on colour and light will appeal to anyone interested in our responses to art.

Contemporary Georgian Fiction Elizabeth Heighway, 2012 Spanning fifty years, this collection brings together stories from nineteen authors from the Republic of Georgia, offering a window onto a vibrant literary scene that has been largely inaccessible to English-language readers until now.

Cold Steel Tim Bouquet, Byron Ousey, 2009 Cold Steel is the gripping story of one of the world's biggest and most hard-fought industry takeovers, and epic corporate battle. In 2006, the two largest steel-producers went head to head in a bitter battle for total market domination. It's a story of considerable interest to Canadians because of the implications for Canadian steel. At the heart of the story is Lakshmi Mittal, a rags-to-riches billionaire, and Guy Dolle of Arcelor, an elitist Frenchman who was renowned for getting his own way at the top of a rough industry. Locally, for thousands of residents of steel-dependent Hamilton, Ontario, the takeover played out like terrifying soap opera when Dofasco Steel Works found itself in a "not one, but two global steel battles. Dofasco had already been the object of a hostile takeover battle between giants Arcelor and ThyssenKrupp. Suddenly Mittal entered the picture. The epic battle was on. Fast-paced and electrifying, Cold Steel brings to life the cut and thrust of big business at war. Praise for Cold Steel : "A rare, insider's account of lots of people making millions... The book reads like a thriller, with each side trying to rope in other steel companies on both sides of the Atlantic as allies... As this book shows, money and business logic prevailed in the end over politics and protection." -- The Economist "A compelling tale... too few page-turning books are written on the high drama and low cunning of business and finance. Cold Steel is a welcome addition." -- Financial Times "Tim Bouquet was the first British journalist to write a major profile of Mittal, while Byron Ousey was a PR adviser to the Luxembourg government, one of Arcelor's biggest shareholders. Together they are admirably qualified to guide us through the myriad twists and turns of this compelling business saga and have produced an enormously entertaining read." -- Daily Express "Tim Bouquet and Byron Ousey have written an account of the takeover in the style of a thriller. Cold Steel describes the often brutal and chaotic five-month battle between Mittal and Arcelor. The combatants are described as though starring in a fictional work of industrial espionage." -- Management Today "The authors recount these events in the form of a thriller with fanatic changes of scene from one boardroom or luxury hotel to another, as each side seeks to drum up support from investors. The result is a tumultuous narrative." -- Sunday Telegraph

Smartphone Cultures Jane Vincent, Leslie Haddon, 2017-12-01 Smartphone Cultures explores emerging questions about the ways in which this mobile technology and its apps have been produced, represented, regulated and incorporated into everyday social practices. The various authors in this volume each locate their contributions within the circuit of culture model. More specifically, this book engages with issues of production and regulation in the case of the electrical infrastructure supporting smartphones and the development of mobile social gambling apps. It examines issues of consumption through looking at parental practices relating to children's smartphone use, children's experience of the regulation of this technology, both in the home and in school, how they cope with the mass of communications via the smartphone and the nature of their attachment to the device. Other chapters cover the engagement of older people with smartphones, as well as how different cultural norms of sociability have a bearing on how the technology is consumed. The smartphone's implications for other theoretical frameworks is illustrated through examining ramifications for domestication, and the sometimes-limited place of smartphones in certain aspects of life is examined through its role in the practices of reading and writing. Smartphone Cultures presents the latest international research from scholars located in the UK, Europe, the US and Australia and will appeal to scholars and

students of media and cultural studies, communication studies and sociologists with interests in technology and social practices.

Neo-Tribes Anne Hardy,Andy Bennett,Brady Robards,2018-03-28 This collection brings together perspectives drawn from a range of international scholars who have conducted research into the applications of neo-tribal theory. The concept of the neo-tribe was first introduced by the French sociologist Michel Mafessoli (1996) to describe new forms of social bonds in the context of late modernity. This book critically explores the concepts that underpin neo-tribal theory, using perspectives from different disciplines, through a series of theoretically informed and empirically rich chapters. This innovative approach draws together a recently emergent body of work in cultural consumption, tourism and recreation studies. In doing so, the book critically progresses the concept of neo-tribe and highlights the strengths, weaknesses and the opportunities for the application of neo-tribal theory in an interdisciplinary way.
