Dynamic Curriculum Development and Design Strategies for Effective Online Learning in Higher Education Walters, Kelley, 2023-09-28 Online learning has gained popularity as a preferred option for higher education institutions globally, particularly due to the COVID-19 pandemic. This has created a need for educators and practitioners to understand the strategies and techniques required for designing and delivering effective online courses that can engage students and provide them with the necessary skills and knowledge for success. The book *Dynamic Curriculum Development and Design Strategies for Effective Online Learning in Higher Education* offers a practical guide and insights into the latest trends and best practices for curriculum development and design in the context of online learning. Organized into three main sections, the book begins with an overview of the current landscape of online learning and the challenges and opportunities it presents for curriculum development. It then delves into the design and development of online courses, followed by the implementation and delivery of those courses. The book is relevant to both novice and experienced educators and practitioners who are involved in designing, developing, and delivering online courses in higher education. It provides a comprehensive understanding of the strategies and techniques required to design and deliver effective online courses, while examining the challenges and opportunities presented by online learning in higher education. As such, this book is an essential resource for anyone involved in online learning in higher education who seeks to develop and deliver dynamic and engaging courses that cater to the needs of online learners.

Echos Mara Marcu, Edward Mitchell, 2021-07-21 The publication captures the work done at the University of Cincinnati School of Architecture and Interior Design while showcasing student work, faculty research, co-op stories, study abroad programs, and snapshots from the many events happening at our school. ECHOS is a platform for simultaneous conversations with shared ethos at UC SAID. Various constellations begin to surface and map our diverse milieu of academic and social interactions that revolve around the following five main themes: anxiety, praxis, trope, chreod, and utopia. Introduced by a series of analytical diagrams which are paired up with essays by lead figures in the discipline, the themes expand on the issues of theoretical anxiety, architectural discourse, practice, typology, self-made analogies, ad hoc morphologies inherent to research, flux and reflux - that return each disruption to a steady trajectory - similar to the natural cycle of compression and release generated by our co-op program, and the fictitious, the ideal. Anxiety collects and synthesizes among multiple contradicting theories entertaining with equanimity various solutions to design problems. Praxis looks at outcomes - may those be physical, prototypical, digital or analog, multi-dimensional and multi-media, spoken, written or unwritten - as well as working methodologies that shape design thinking. Trope begins to map out trends, emergent ideologies, and previously non-denominational design expressions. Chreod documents and interprets field conditions, rule based processes, issues of transgressions, non-

smooth and nomadic entities which cut across arbolic like divisions. Utopia, while suspending various otherwise necessary constraints, allows for a euphoric and optimistic view of the world, with the goal of envisioning daring possibilities otherwise unimaginable. Utopia, therefore, foreshadows all other themes.

Discover Architecture Melody Harclerode,Jereme Smith,2014-11-12 Discover ARCHITECTURE helps educators, parents and design professionals to engage elementary and early middle school students about architecture, engineering, green building and allied design fields. This ground-breaking book reflects the name of the award-winning after school program co-founded by a licensed architect and an art educator in 2010 for the Atlanta chapter of the American Institute of Architects (AIA Atlanta). The after school program has been the recipient of numerous local, state, and national awards, including the 2014 national AIA-Hanley Wood Opportunity Fund and the 2012 AIA Georgia Bronze Medal for its creative outreach to the public.Inspired by the Reggio Emilia and STEAM (or Science, Technology, Engineering, Art and Mathematics) learning approaches, architect Melody Harclerode AIA creates the proven and successful curriculum for the program and this book. As an instructional supplement, the lessons in the Discover ARCHITECTURE book can be implemented as a part of an educational program after school or an enrichment activity during the school day for fourth thru sixth graders. The book begins with testimonials from distinguished national and international architects, who offer thoughtful perspectives about the value of architecture and design education for K-12 students. Interesting, yet easy-to-understand design exercises incorporate art, history, mathematics, science, and language arts to reflect the multi-discipline core subjects in the profession of architecture. Architectural history is enhanced with beautiful photos and hand sketches. Step-by-step images of students at work in four design chapters guide readers through the process of producing diagrams, simple project budgets, floor plans, building elevations, and building and site models to complete architectural and site design projects. Students become the designers of their dream projects! Discover ARCHITECTURE captures the dedication of design and educational team to share their love of architecture and design with the next generation. This educational resource promotes tactile learning; builds dimensional, spatial and presentation skills; sharpens analytical thinking and celebrates creativity. The design exercises encourage self-reliance and teamwork with various activities to mirror real-world professional experiences. For use in the classroom or at home, Discover ARCHITECTURE offers a joyful introduction to architecture, engineering and design for young people.

Pro Android Python with SL4A Paul Ferrill,2011-08-21 Pro Android Python with SL4A is for programmers and hobbyists who want to write apps for Android devices without having to learn Java first. Paul Ferrill leads you from installing the Scripting Layer for Android (SL4A) to writing small scripts, to more complicated and interesting projects, and finally to uploading and packaging your programs to an Android device. Android runs scripts in many scripting languages, but Python, Lua, and Beanshell are particularly popular. Most programmers know more than one programming language, so that they have the best tool for whatever task they want to accomplish. Pro Android Python with SL4A explores the world of Android scripting by introducing you to the most important open-source programming languages that are available on Android-based hardware. Pro Android Python with SL4A starts by exploring the Android software development kit and then shows you how to set up an Eclipse-based Android development environment. You then approach the world of Android programming by using Beanshell, which runs on the Dalvik, and learning how to write small programs to administer an Android device. Next, discover how Lua, a lightweight language perfectly suited for scripting on smaller devices, can work with Android. Lua can be used for small but important tasks, like SMS encryption and synchronizing photos with flickr. Last, but certainly not least, you will discover the world of Python scripting for SL4A, and the power contained within the full range of Python modules that can combine with the Android SDK. You'll learn to write small location-aware apps to get you started, but by the end of this book, you'll find yourself writing fully GUI-fied applications running on the Android desktop! Pro Android Python with SL4A is rounded out with a chapter on distributing and packaging scripts, a skill that you'll find very useful as you reach out to a wider audience with your programs.

The Rule Maker Jennifer Blackwood,2017-01-16 Things I'd love to say to Ryder Covington... I hate you more than a hole in my favorite pair of

leggings. Your smirk makes me want to yell in all shouty caps. You're really gorgeous...until you open your mouth. Stop looking at me like that. You're not ripping my panties off. Saying those things to him would be the whipped cream on top of my rocky road ice cream, but I can't, because he's my client. And I'm up for a promotion. Oh, and the little fact that my boss told me to give Mr. Covington everything he wants. But the only thing he wants is me. And he can't have that. Each book in the Rule Breakers series is STANDALONE: * The Rule Book * The Rule Maker
