Lover of Children

Kazakhstan Paul Brummell, 2008 Kazakhstan is vast – the ninth-largest country in the world – yet there is relatively little information available in English about the attractions of this remarkable country. With the Kazakh government seeking to promote the development of tourism, publication of the Bradt guide is timely. Located between Russia and China, the state of Kazakhstan possesses an incredible diversity of natural beauty; this guide includes arrangements for visiting natural parks and reserves and special features such as singing sand dunes and the Sharyn Canyon - Asia's equivalent of the Grand Canyon. Key historical and archaeological sites are also given due prominence, Kazakhstan having been inhabited since the Stone Age.

Ringtones from the Radio Vincent

Smarra, 2021-04-12 The third collection of Symphonic Literature is a car ride through a mind with the radio turned all the way up. Symphonic Literature, a writing style created by the author, fuses the metatextuality already present and celebrated in other mediums with literary fiction.

The short stories are written to be read in the same amount of time it takes to listen to the songs they are named after and are split into sections by scrapbook poems pieced together from a multitude of song lyrics. Depending on personal preference, the reader can listen to the related material before, during, or after reading. The writing works read in traditional, isolationist style, but experienced whole, Symphonic Literature creates personal, honest, and modern reading experiences. Impossible Citizens Neha Vora, 2013-02-25 Indian communities have existed in the Gulf emirate of Dubai for more than a century. Since the 1970s, workers from South Asia have flooded into the emirate, enabling Dubai's huge construction boom. They now compose its largest noncitizen

population. Though many migrant families are middle-class and second-, third-, or even fourth-generation residents, Indians cannot become legal citizens of the United Arab Emirates. Instead, they are all classified as temporary guest workers. In *Impossible Citizens*, Neha Vora draws on her ethnographic research in Dubai's Indian-dominated downtown to explore how Indians live suspended in a state of permanent temporariness. While their legal status defines them as perpetual outsiders, Indians are integral to the Emirati nation-state and its economy. At the same time, Indians—even those who have established thriving diasporic neighborhoods in the emirate—disavow any interest in formally belonging to Dubai and instead consider India their home. Vora shows how these multiple and conflicting logics of citizenship and belonging contribute to new understandings of contemporary citizenship, migration, and national identity, ones that differ from liberal democratic models and that highlight how Indians, rather than Emiratis, are the quintessential—yet impossible—citizens of Dubai.

Urban Spaces and Lifestyles in Central Asia and Beyond Philipp Schröder, 2017-06-26 This volume contributes new insights to the scientific debate on post-Socialist urbanities. Based on ethnographic research in cities of Central Asia, the Caucasus and Russia, its contributions scrutinise the social production of diverse public, parochial and private spaces in conjunction with patterns of everyday encounter, identification, consumption and narration. The analyses extend from the transnational

entanglements between a Dushanbe bazaar and hyper-modern Dubai to the micro-level hierarchies in a flat-sharing community in Astana. They explore competing notions of urban belonging and aesthetics in Yerevan, local perception of Central Asian Muslims in Kazan and Saint Petersburg, and more, providing a rich tapestry of academic study. Taken together, the case studies address cities as gateways to 'new worlds' (both local and global), discuss ambitions of states at taming urban landscapes, and illustrate current trends of economic, religious and other lifestyles in urban Central Asia and beyond. This book was originally published as a special issue of Central Asian Survey.

No Good Men Among the Living Anand

Gopal, 2014-04-29 Told through the lives of three Afghans, the stunning tale of how the United States had triumph in sight in Afghanistan—and then brought the Taliban back from the dead In a breathtaking chronicle, acclaimed journalist Anand Gopal traces in vivid detail the lives of three Afghans caught in America's war on terror. He follows a Taliban commander, who rises from scrawny teenager to leading insurgent; a US-backed warlord, who uses the American military to gain personal wealth and power; and a village housewife trapped between the two sides, who discovers the devastating cost of neutrality. Through their dramatic stories, Gopal shows that the Afghan war, so often regarded as a hopeless quagmire, could in fact have gone very differently. Top Taliban leaders actually tried to surrender within months of the US invasion, renouncing all political

activity and submitting to the new government. Effectively, the Taliban ceased to exist—yet the Americans were unwilling to accept such a turnaround. Instead, driven by false intelligence from their allies and an unyielding mandate to fight terrorism, American forces continued to press the conflict, resurrecting the insurgency that persists to this day. With its intimate accounts of life in war-torn Afghanistan, Gopal's thoroughly original reporting lays bare the workings of America's longest war and the truth behind its prolonged agony. A heartbreaking story of mistakes and misdeeds, *No Good Men Among the Living* challenges our usual perceptions of the Afghan conflict, its victims, and its supposed winners.

The Cambridge Companion to Modern Indian Culture

Vasudha Dalmia, Rashmi Sadana, 2012-04-05 India is changing at a rapid pace as it continues to move from its colonial past to its globalised future. This Companion offers a framework for understanding that change, and how modern cultural forms have emerged out of very different histories and traditions. The book provides accounts of literature, theatre, film, modern and popular art, music, television and food; it also explores in detail social divisions, customs, communications and daily life. In a series of engaging, erudite and occasionally moving essays the contributors, drawn from a variety of disciplines, examine not merely what constitutes modern Indian culture, but just how wide-ranging are the cultures that persist in the regions of India. This volume will

help the reader understand the continuities and fissures within Indian culture and some of the conflicts arising from them. Throughout, what comes to the fore is the extraordinary richness and diversity of modern Indian culture.

Media Piracy in Emerging Economies Joe Karaganis, 2011

Religion, Devotion and Medicine in North India Fabrizio M. Ferrari, 2014-11-20 This volume examines notions of health and illness in North Indian devotional culture, with particular attention paid to the worship of the goddess Sitala, the Cold Lady. Consistently portrayed in colonial and postcolonial literature as the ambiguous 'smallpox goddess', Sitala is here discussed as a protector of children and women, a portrayal that emerges from textual sources as well as material culture. The eradication of smallpox did not pose a threat to Sitala and her worship. She continues to be an extremely popular goddess. Religion, Devotion and Medicine in North India critically examines the rise and affirmation of the 'smallpox myth' in India and beyond, and explains how Indian narratives, ritual texts and devotional songs have celebrated Sitala as a loving mother who protects her children from the

effects, and the fear, of poxes, fevers and infantile disorders but also all sorts of new threats (such as global pandemics, addictions and environmental catastrophes). The book explores a wide range of ritual and devotional practices, including scheduled festivals, songs, vows, pageants, austerities, possession, animal sacrifices and various forms of offering. Built on extensive fieldwork and a close textual analysis of sources in Sanskrit and vernacular languages (Hindi, Bhojpuri and Bengali) as well as on a rich bibliography on the struggle against smallpox in colonial and post-colonial India, the book reflects on the ambiguous nature of Sitala as a phenomenon largely dependent on the enduring fascination with the exotic, and the horrific, that has pervaded public renditions of Indian culture in indigenous fiction, colonial reports, medical literature and now global culture. To aid study, the volume includes images, web links, appendixes and a filmography.

Twenty-minute Fandangos and Forever Changes

Jonathan Eisen, 1971 Original writings, satire and criticism of rock culture in the seventies.

Scholar's Invitation To Computer Science 7 Ashok Arora,

Elvis Is Titanic Ian Klaus, 2008-09-09 In the spring of 2005, twenty-five-year-old Rhodes Scholar Ian Klaus took a semester-long appointment at Salahaddin University in Arbil, the largest city in the Kurdistan region of Iraq. Officially he was there to lecture on American history and to teach English. Unofficially he was there because he felt obliged, as a young American, to help make

Iraq a stable and successful country. With assignments from Elvis to Ellington, baseball to Tocqueville, Klaus strives to illuminate the American way for students far more attuned to our pop culture than to our national ideals. Klaus's account of his unusual opportunity offers an astonishingly frank glimpse of life in the other Iraq after Saddam.

Bits of Flower E. M. Foner, 2023-02-01 Read Double Living first! After spending their lives in a closed society of gamers and hackers, the anarchists from Bits seize the opportunity to explore new options on an alien colony ship contracted by EarthCent to visit a circuit of sovereign human communities. The members of Mouser's gaming group rebuild their lives on Flower, but not everybody is happy abiding by the rules. Can a group of independent people adapt to being manipulated by alien artificial intelligence for the greater good, or will they split up and go their own ways. Bits of Flower and Double Living both take place on the sentient colony ship, Flower, with overlapping timelines and characters. But Bits of Flower ends second, so it contains spoilers for Double Living.
