The Making of Responsible Innovation Phil Macnaghten,2020-08-06 Science and technological innovation wield unfathomable power in the shaping of social life and the environment. Yet, the democratic control and shaping of technology remains at best an unfinished project, not least due to dominant paradigms of governance implicitly that have historically delegated the good to market forces. This Element explores responsible innovation as an emergent discourse in governing science and society relations. Specifically, it explores the making of responsible innovation through three lenses: first, as a way of reconfiguring the concept of responsibility in science governance with far-reaching implications for scientific culture and practice; second, as a way of injecting agency through deliberative methods aimed at anticipating and deliberating upon the kinds of possible worlds that science and technology bring into being; and third, as a framework for governing innovation sensitive to the dynamics of specific technologies and to the particular socio-political context in which innovation develops.

A Place for Science and Technology Studies Jane Calvert,2024-01-09 An exploration of science and technology studies in eight different places, and the possibilities that arise for observation, intervention, and collaboration. Where does science and technology studies (STS) belong? In A Place for Science and Technology Studies, Jane Calvert takes readers through eight different rooms—the laboratory, the conference room, the classroom, the coffee room, the art studio, the bioethics building, the policy room, and the ivory tower—investigating the possibilities and limitations of each for STS research. Drawing from over a decade of work in synthetic biology, Calvert explores three different orientations for STS—observation, intervention, and collaboration—to ask whether there is a place for STS, which, as an undisciplined field, often finds itself on the periphery of traditional institutions or dependent on more generously funded STEM disciplines. Using examples of failures and successes and tackling enduring concerns about the relations between social scientific researchers and their fields of study, Calvert argues for an approach to STS that is collaborative yet allows for autonomy.

The Holy Peshitta Bible Translated ("God Is Love" Edition) Rev. David Bauscher,2020-01-10 This is the complete Bible translated entirely from the Aramaic text of the 1st century Peshitta Bible. Aramaic was the native tongue of Jesus, the Jewish people and the Middle East in the 1st century. The Peshitta New Testament is the original inspired writing of The Spirit of Holiness in the language of The Christ, his Apostles and of Israel and the Middle East. In the volume of Love Eternal I have meditated that I would keep your commandments. Ps 119:57 (Holy Peshitta Bible Translated-God is Love edition) When we see the truth - God is Love, according to 1st John 4:8,16, we are given a new Bible and God's New Name-The Volume of LOVE Eternal, written by The SPIRIT of LOVE about The LOVER FATHER's love for his BELOVED SON and all their beloved sons and daughters made by LOVE's hand.
