Ken Siu-Chong

Harlem Street Fighter Gregory Dupree,

Street Fighter Bill Kent, 2005-05-01 Community tension rides high in this third mystery from Bill Kent, an author who is well acquainted with the vibrant characters who live, and die, in gritty South Philly. Neville Shepherd Ladderback, the Philadelphia Press's old, dusty obituary writer, is researching accountant Paul Small, a city legend in all things dealing with money, who was beaten to death with his own cane. Finding it hard to get a straight story, Ladderback is surprised when Andrea Andy Cosicki, the voice behind the Mr. Action question-and-answer column, provides him with a key lead. But as each reporter searches for the nut, or defining element, in their stories, they find that this exchange is just the beginning in a series of startling discoveries. News of Paul Small's death brings back Andy's best friend, Lucia; her mother had been involved with the dead man. The young women's reunion is interrupted by a violent confrontation with members of an Asian gang at a restaurant owned by Angelo Delise, the father of Lucia's friend Cece, who was raped and murdered years ago in the Asian immigrant sector of the city. The gang members were trying to get Delise's safe but failed, overpowered by Lucia's skill in the martial arts. Andy can see how Cece's death still haunts Lucia and she vows to find out the true story. Ladderback's and Andy's investigations keep leading them back to the Pickle Factory, which used to be a warehouse crowded with illegal Asian immigrants but was later developed into luxury lofts by Small's nonprofit veterans organization. Did Small make promises he couldn't keep?

The Road Warrior a Dying Breed Jeff Heath, 2005-05-23 This book is about ups and downs of a motorcycle enthusiast and how motorcycling has changed, also some of the experiences in life and motorcycling. This book starts from when I turned 13 until the present. The book covers many of the things I have done in life which are many, but since I never thought to keep any type of records there are a lot of things that I have forgotten in the last 40 plus years. The reason I wrote this book is because every time I would tell a story somebody would say why don't I write a book and so here it is. Also I had done so many different jobs and trades I listed them in the back of the book for you non-believers.

Legend of the Street Fighter Andre Joseph, 2005-06 Across the United States the county courthouse located on the town square has been an historic landmark both revered and reviled. These structures have been one of the most identifiable features of rural America. Many of them have disappeared destroyed for being outdated and not easily converted into our modern day world. Some of them, with their unique architecture, have been renovated and preserved. Citizens often have been vehement in their disagreement as to whether or not to preserve or replace these courthouses.

I, the author, grew up in a rural Nebraska town where such a structure once graced the town square and worked summers in that particular courthouse. This book is a fictionalized version of what happened to one of these courthouses. The locale for the story line is such a rural Nebraska town. In no way do the characters and events relate to any real persons or true incidents. The story has intrigue, bribery and humor. Meet some of the characters. There is Ned, the blustery retired farmer whose life has become the courthouse; add Coonie and his coonhound Tracker. There is Harvey Morgan, the banker, as well as County Commissioner Ben Poole. Let's not forget Maudie Phillips who has a problem with her Pontiac.

The NES Encyclopedia Chris Scullion,2019-03-30 A comprehensive, colorful guide to every game ever released on the classic Nintendo Entertainment System. One of the most iconic video game systems, the NES is credited with saving the American video games industry in the early 1980s. The NES continues to enjoy a strong cult following among Nintendo fans and gamers in general with wide varieties of officially licensed merchandise proving ever popular. Hard Road Peter Edwards,2017-05-02 The spiritual godfather of Canadian bikers tells the story of his fascinating life. You could call Bernie Guindon the Sonny Barger of Canadian bikers (but not to his face). The founder of Satan's Choice, Guindon led what was in the 1960s the second-largest biker club in the world (after the Hells Angels, which Bernie would join briefly in the early 2000s) to national prominence and international infamy. His life wasn't all bikes and crime. He was also a medalist in boxing for Canada at the Pan Am Games. That tension between the very rough life he was born into and the possibility for success in the straight world (and how aspirations in each fed his success in the other) layer Guindon's story, one of the great untold stories in biker history. Friends from the biker world and Guindon's family have given extensive interviews for Hard Road, including his son, Harley, a convict and outlaw biker himself.

From Yeomanettes to Fighter Jets Randy Carol Goguen,2024-03-06 From Yeomanettes to Fighter Jets addresses a major element of twenty-first century sea power—the integration of women into all military units of the U.S. Navy. Randy Goguen delineates the cultural, economic, and political conditions as well as the technological changes that shaped this movement over the course of a century. Starting with the establishment of the Yeomen (F) in World War I and continuing through today to address the current arguments over the registration of women for Selective Service and the reform of the military justice system, Goguen describes how changes in civilian society affected the U. S. Navy and the role of Navy women. She highlights the contributions of key women and men in the military and civilian spheres who were willing to challenge convention and prejudice to advance the integration of women and make the U.S. Navy a stronger institution. Today women in the U.S. Navy have proven themselves essential to the mission success of the service. They are forward deployed around the world, sharing the same risks as their male counterparts. Some have commanded logistics and combatant ships, including aircraft carriers. They fly and maintain combat and patrol aircraft and serve as crew members on ships and submarines. Some hold major commands ashore and have risen to the highest echelons of navy leadership. Integrating women into the U.S. Navy has been a long and often contentious process, as women strived to overcome resistance imposed by prevailing cultural and institutional norms and patriarchal prejudices. Goguen, a retired naval reserve officer who holds a PhD in military history from Temple University, has written a comprehensive and up-to-date history of women’s integration into the Navy. She argues that throughout the process, the decisive force driving progress was exigency. That exigency took various forms: two world wars, communist expansionism in the Cold War, the ending of the draft and the establishment of the All-Volunteer Force, as well as the political pressures posed by social change, especially the mid twentieth-century feminist and contemporary “Me Too” movements. Despite a deeply ingrained institutional resistance cultivated within an insular, often misogynist, sea-going subculture, today’s U.S. Navy could not meet its mission requirements without women. Goguen asserts, “Exigency is the mother of integration.”
