Confessions of an Event Planner Judy Allen, 2009-08-26 For anyone planning events—student, novice, or experienced professional—*Confessions of an Event Planner* is an “apprenticeship in a book.” This insider’s guide takes you on a narrative journey, following a fictional event planning company that stages various types of events around the world for many different clients. While other books, college courses, and training programs give you the theory and how-to of the profession, *Confessions of an Event Planner* reveals the real world of event planning and what can happen—usually the unexpected—on an event program when actual participants are added to the event planning design and execution mix. In a climate of media scrutiny and corporate scandals, event planners must be masters of discretion, knowing how to avoid and deal with everything from sexual romps to financial shenanigans, to chainsaw wielding salesmen dead set on “re-landscaping” the grounds of the resort they’re staying at. From an event planner who’s seen it all and knows how to deal with it all, comes practical first-hand advice delivered in an entertaining and accessible format. Each chapter is set in a unique location, with a cast of characters, and a host of challenges and problems to overcome—from the boardroom to the resort guest bedrooms. Readers learn what they can come up against, how to problem solve creatively on the fly, get ideas for staging spectacular events, and see the principles of event planning in action. The scenario in each chapter is introduced by an outline of what will be covered in the chapter, and each chapter concludes with a series of review questions to explore key issues and stimulate reflection or discussion for individuals or groups. Ideal as a companion to Judy Allen’s six other event planning books, as a textbook in event planning courses, or as a professional training tool *Confessions of an Event Planner* prepares planners for what they can expect once they start working in the world of corporate and social event planning, and will help decision-makers set company policies, procedures and protocol and promote discussion about codes of conduct in the office and offsite.

The Long Road to Paris Ed and Janet Howle, 2011-01-06 It was our intent to write a travelogue of an around-the-world car race, the first of its kind in more than one hundred years. We began by interviewing JC Wilkerson, CEO of World Rallies Inc., and Kyle Vanderhorn, the official race reporter. Then Thurman Alston, one of the racers, approached us with an outrageous list of accusations, presenting a very different story from the sanitized official version. Thurman wanted to make these allegations public. The accusations were primarily aimed at Ed Talbot, the driver of car 23, a controversial alternative energy automobile which, it appears, has now been destroyed. The allegations were as follows: First, that Ed leaked information to the CIA about the radical nature of the car’s technology, leading to the intervention of the U.S. and Russian governments, and indirectly to the murders in Siberia. Second, that Ed’s irresponsible actions during the race were the reasons that the environmentally friendly technology in his entry has not been made available to the world and that he is to blame for some of the climatic change that will take place in the future. Third, that Ed was lying about the innovation in the car. It was actually nothing new, and was, in fact, fully developed in Nazi Germany during World War II, and then held off the market by oil interests. Finally, that his secret liaison with his navigator showed a reckless disregard for his wife and young daughter and affected his judgment. While these accusations appeared to be absurd, we knew we had to sort out Thurman’s wild claims before we could write an objective report of the around-the-world race. We discovered that there was some truth among these charges; a story hidden within a story. We became intrigued with our findings. It turned out that the race was a minor part of the challenges Ed faced. Our research had turned up a convoluted love story that alone would have made it difficult for Ed to have followed a different course of action. You can decide for yourself whether a less disastrous outcome would have been possible if he had made different decisions. Ed
