📖 **The Old Car Nut Book #3** David Dickinson,2015-04-17 Everyone has a road trip story and book #3 in The Old Car Nut Book series provides a sampling of accounts on the road from all over the country. Readers will enjoy tales of trips up the Alcan Highway or traveling across country with Harold Lemay in search of cars and memorabilia for his amazing collection. Of course, road trips are seldom without a bit of trouble here and there and so we find ourselves sharing the travails of those that ran out of gas or had problems and how they were solved. These stories tell of how the road brought friends and family closer together and how new friends can have a major impact on us. In the end, readers will be surprised and delighted at how giving and caring, resourceful, and inspiring people can be when the chips are down and the road begs us to keep going to our journeys end. This third book begins with what might be one of the earliest documented road trips as a family moves from South Dakota to Oregon in a Model T Touring car in 1915 . Keep reading and you discover stories that will make you laugh or just plain inspire you to get in your special ride and go Excerpts from The Old Car Nut Book #3 When we arrived I pulled out a little bottle of spray-on detailer and we proceeded to clean the day’s bugs off the nose and windshield. Then I saw it. There was a paint chip on the front of the car Blake could see the frown on my brow and asked what was wrong. Our first rock chip. Darn it Then something really amazing happened. Blake put his hand on my shoulder and said, Don’t worry dad. That’s not a rock chip. That’s a memory mark. Every time you look at that you’ll be reminded what a special day today was. I about started crying right then and there. This was an eight year old teaching his old man the meaning of life. It’s the adventures, not the things that count. I’ll never forget that moment. Excerpt from The Greene Mille by Mark Greene We pressed on for Colorado. Just another six hundred miles said Mom, taking a long drag on her cigarette. Dad leaned into the steering wheel, glaring hard at the road ahead. We passed signs directing this way to the Grand Canyon but Dad would not be detoured to look at some culvert lined with souvenir shacks. Excerpt from The Great Road Trip by Steve Walker The car I would be taking was my well-traveled 1927 Model T roadster that I have owned for the past 10 years. I built the car in style of a late 1920’s era early hot rod or Gow job as they were called in the period. These cars are widely regarded as the grandfathers of the hot rod and are something that is only now finally coming back to the main stream again. Excerpt from The Road Was A Blur by Clayton Paddison Grab the book and take a seat, you’re about to experience America from the eyes of the young and the old. Enjoy your ride as you traverse new freeways and old roads in book #3 of The Old Car Nut Book series... A century of travel across America.

📖 **ROUTE 66** Barn Find Road Trip Tom Cotter,2016-10-15 Abandoned cars on America’s most iconic abandoned road. Sounds like a great idea for a road trip. For a nation that loves the idea of the road, there is no more legendary ribbon of highway than the 2,451 miles comprising historic Route 66. Along the Mother Road lies the detritus of the automotive age: motels, roadside attractions, diners, service stations, drive-ins, and dives. Hidden in, around, and behind its buildings or abandoned along its roadside hide collector cars, lost trucks, and moldering motorcycles. How could there be a better destination for automotive archaeologist Tom Cotter? In Route 66 Barn Find Road Trip Cotter and his BBF (Best Barn Finder) pal Brian Barr jump on Route 66, just outside Chicago, seeking rusted gold in every state Route 66 passes through. Along the way, ace lensman Michael Alan Ross documents their finds, mishaps, and various adventures. Starting in the Midwest and barreling through Oklahoma, Texas, and New Mexico, the barn-find bunch continues on to Arizona before completing their quest in Santa Monica, California. You’ll never guess what automotive treasure they see peeking out from corroded garages and behind weary buildings along the way. You can bet every awesome barn find was investigated and recorded in Route 66 Barn Find Road Trip. Whether you’ve only dreamed of retracing US 66 or are familiar with its path but never considered car hunting there, Route 66 Barn Find Road Trip will take you on the trip of a lifetime. Hop in; you can ride shotgun.

📖 **FORD MODEL T COAST TO COAST** Tom Cotter,2018-05-15 A photo-filled account of traveling the Lincoln Highway in a century-old automobile, and contemplating a future of self-driving cars: [An] epic road trip. —USA Today Driverless cars are on the horizon, but before the world falls asleep at the wheel, let’s look back down the road from whence we have come. Ford Model T Coast to Coast documents the cross-country adventure of two brave drivers as they pilot a hundred-year-old Model T on a 3,000-mile journey from the Atlantic Ocean to the Pacific Coast. This book is as much a contemplation of early-twentieth-century American life as it is a fond farewell to the automotive age. Can the car still be the vehicle of freedom and discovery when we’re no longer in command? Or will we finally be able to fully appreciate the scenery rushing past? Accompanied by Michael Alan Ross’ evocative photography, Tom Cotter stops in small towns, meets local people, and hears their stories about cars, travel, and life. The two also explore back roads adjacent to his main route, the Lincoln Highway—the first transcontinental road. Significant cross-country runs, such as those by speed-record setter Cannonball Baker and literary adventurers Jack Kerouac, John Steinbeck, and Bill Bryson, are considered in light of the driverless future. Cotter also drives some of the same roads that a young Edsel Ford traveled in his father’s Model T upon high school graduation in 1917. In addition to the central road trip, Cotter visits interesting automotive and transport museums as well as keepers of the flame such as Model T clubs, mechanics, junkyards, and collectors across the country. He also records the numerous trials and tribulations in keeping a very old car operating on a very long journey—something the driverless car of the future is unlikely to encounter.

📖 The Distance to the Moon James Morgan, 2000-06 The Distance to the Moon is about America’s love affair with the car and the open road--what James Morgan calls the epic entanglement that’s defined this century and reshaped the face of America. Morgan takes us on an unforgettable road trip from Florida to Oregon, interviewing everyone from automobile collectors and designers, historians, psychologists, road builders, city planners, and barflies in an attempt to reveal why we’re so obsessed with our automobiles. These car stories, he found, serve as our common mythology, and tell of our collective coming of age, our youthful aspirations, our loves and losses. Morgan also discovered that the simplicity of life on the road can give us the clearest picture of who we are as Americans. I was immediately caught up in The Distance to the Moon. It’s a fine reflection on America’s complex relationship with cars and the road. --Larry McMurtry An entertaining traveling companion...The book’s title...comes courtesy of John Updike Awho? calculated that the average American male drives the equivalent of the distance to the moon every 17 years. Morgan’s book takes us a long way toward understanding why. --Bruce McCall, The New York Times Book Review
