Revolution 2.0 Wael Ghonim,2012-01-17 The former Google executive and political activist tells the story of the Egyptian revolution he helped ignite through the power of social media. In the summer of 2010, thirty-year-old Google executive Wael Ghonim anonymously launched a Facebook page to protest the death of an Egyptian man at the hands of security forces. The page's following expanded quickly and moved from online protests to a nonconfrontational movement. On January 25, 2011, Tahrir Square resounded with calls for change. Yet just as the revolution began in earnest, Ghonim was captured and held for twelve days of brutal interrogation. After he was released, he gave a tearful speech on national television, and the protests grew more intense. Four days later, the president of Egypt was gone. In this riveting story, Ghonim takes us inside the movement and shares the keys to unleashing the power of crowds in the age of social networking. "A gripping chronicle of how a fear-frozen society finally topples its oppressors with the help of social media." —San Francisco Chronicle "Revolution 2.0 excels in chronicling the roiling tension in the months before the uprising, the careful organization required and the momentum it unleashed." —NPR.org

Cedar Point David W. Francis,Diane DeMali Francis,2004 In 1870, Louis Zistel began ferrying passengers from Sandusky to the Cedar Point Peninsula's beer garden and sandy beaches. In 1888, the Grand Pavilion was built, housing a massive theatre, bowling alley, photographic studio, and kitchen, and shortly thereafter, the resort's first roller coaster was installed. George Boeckling transformed the resort into a self-sufficient city and amusement park, but the park suffered badly in the 1930s economic depression. However, after Cedar Point changed hands several times in the 1950s, it became one of America's leading amusement parks. Today, the park is best known as the world's

largest amusement park and the Roller Coaster Capital of the World.

Pitching Around Fidel S.L. Price, S L Price, 2002-02-05 In an artful pastiche of observation, personal narrative, interviews, and investigative reporting, S.L. Price, a senior writer for Sports Illustrated, describes sports and athletes in today's Cuba. On his journeys to the island, Price finds a country that celebrates sports like no other and a regime that uses games as both symbol and weapon in its dying revolution. He finds Olympic and world champion boxers, track stars, volleyball and baseball players, but he also finds that with Castro's revolution staggering beneath the weight of a great depression, Cuba's famed sports system is imploding. Athletes are defecting by plane and raft. Superstars bike to games and legends like boxer Teofilo Stevenson are forced to lost themselves in a bottle of rum. Beyond an examination of sports in the hothouse of revolution, *Pitching Around Fidel* presents a vibrant and realistic portrait of Cuba today, complete with sex-happy tourists, blackouts, Fidel's famous former lover, and a black-power fugitive wanted in the U.S. for murder and hijacking. At once a biting travelogue and a meditation on sports in both America and Cuba, *Pitching Around Fidel* is a valuable document about a time and place that is close to fading away.

Comets in the 21st Century Daniel C Boice, Thomas Hockey, 2019-04-25 Have you ever seen a comet? It is a marvelous experience, one that all humans can share, that spawns a deep yearning to understand the spectacle. Have you ever wondered what comets are and why astronomers spend so much time studying them? Now, a comet expert and an astronomical historian have come together to produce the unique book that you now hold in your hands. Using their several decades of teaching experience, the authors have concisely presented the information you need to comprehend these majestic apparitions that grace our night skies. No mathematical proficiency is needed, in fact, this book doesn't contain a single equation! Comets are cosmic

Rosetta stones, bridging our current knowledge by digging back to the earliest days of our Solar Systems. How did life arise on Earth? Did comets play a significant role in bringing water and the necessary organic matter to our early Earth? How about the dinosaurs? Were they driven to extinction by a cometary impact 66 million years ago? Comets may be both the enablers and destroyers of life on Earth as we know it. These are some of the tantalizing questions discussed here. If you so desire, steps are given to join the ranks of amateur comet hunters. Astronomy is one of the last sciences where amateurs play a significant role. Your reward for discovery? A comet officially bearing your name in the history books! The next Great Comet is on its way, we just do not know when it will arrive. Armed with this book, you will be ready to enjoy this unforgettable event.

Era of Ignition Amber Tamblyn, 2020-01-14 A passionate and deeply personal exploration of feminism during divisive times from one of the founders of Time's Up: actor, filmmaker, and activist Amber Tamblyn. With a new afterword • "A work of personal upheaval and political reckoning."—Rebecca Traister, New York Times bestselling author of *Good and Mad* Amber Tamblyn has emerged as an outspoken advocate for women's rights. But she wasn't always so bold and self-possessed. In her late twenties, after a particularly low period fueled by rejection and disillusionment, she grabbed hold of her own destiny and entered into what she calls an Era of Ignition—a time of self-reflection that follows in the wake of personal upheaval and leads us to challenge the status quo. In the process of undergoing this metaphysical metamorphosis, she realized that our country is going through an Era of Ignition of its own, and she set about agitating for change

by initiating a dialogue about gender inequality. In this deeply personal exploration of modern feminism, she addresses misogyny and discrimination, reproductive rights and sexual assault, white feminism and pay parity—all through the lens of her own experiences as well as those of her Sisters in Solidarity. At once an intimate meditation and a public reckoning, *Era of Ignition* is a galvanizing feminist manifesto that is required reading for anyone who wants to help change the world for the better.

A Bite-Sized History of France Stéphane Henaut, Jeni Mitchell, 2018-07-10 A delicious (Dorie Greenspan), genial (Kirkus Reviews), very cool book about the intersections of food and history (Michael Pollan)—as featured in the New York Times The complex political, historical, religious and social factors that shaped some of [France's] . . . most iconic dishes and culinary products are explored in a way that will make you rethink every sprinkling of fleur de sel. —The New York Times Book Review Acclaimed upon its hardcover publication as a culinary treat for Francophiles (Publishers Weekly), *A Bite-Sized History of France* is a thoroughly original book that explores the facts and legends of the most popular French foods and wines. Traversing the cuisines of France's most famous cities as well as its underexplored regions, the book is enriched by the authors' friendly accessibility that makes these stories so memorable (The New York Times Book Review). This innovative social history also explores the impact of war and imperialism, the age-old tension between tradition and innovation, and the enduring use of food to prop up social and political identities. The origins of the most legendary French foods and wines—from Roquefort and cognac to croissants and Calvados, from absinthe and oysters to Camembert and

champagne—also reveal the social and political trends that propelled France's rise upon the world stage. As told by a Franco-American couple (Stéphane is a cheesemonger, Jeni is an academic) this is an impressive book that intertwines stories of gastronomy, culture, war, and revolution. . . . It's a roller coaster ride, and when you're done you'll wish you could come back for more (The Christian Science Monitor).
