Dog Days, Raven Nights John M. Marzluff, Colleen Marzluff, 2011-03-29 The coauthor of the award-winning *In the Company of Crows and Ravens* and his wife, an animal-behavior expert, offer an engaging account of their days as young field biologists in Maine Twenty years ago, fresh out of graduate school and recently married, John and Colleen Marzluff left Arizona for a small cabin in the mountains of western Maine. Their mission: to conduct the first-ever extensive study of the winter ecology of the Common Raven under the tutelage of biologist Bernd Heinrich. Drawing on field notes and personal diaries, they vividly and eloquently chronicle their three-year endeavor to research a mysterious and often misunderstood bird—assembling a gigantic aviary, climbing sentry trees, building bird blinds in the forest, capturing and sustaining 300 ravens as study subjects, and enduring harsh Maine winters in pursuit of their goal. They also shared the unique challenges and joys of raising, training, and racing the sled dogs that assisted them in their work. Accompanied by Evon Zerbetz's lovely linocut illustrations, *Dog Days, Raven Nights* is a fascinating, behind-the-scenes look at the adventures of field science and an insightful exploration of the nature of relationships, both animal and human.

Ancient Mesopotamia A. Leo Oppenheim, 2013-01-31 This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria.—Edward B. Garside, New York Times Book Review Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written.—Leonard Cottrell, Book Week Leo Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research.—Samuel Noah Kramer, Archaeology A. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the Assyrian Dictionary of the Oriental Institute and John A. Wilson Professor of Oriental Studies at the University of Chicago.

The Thorn Birds Colleen McCullough, 2010-05-11 One of the most beloved novels of all time, Colleen McCullough's magnificent saga of dreams, struggles, dark passions, and forbidden love in the Australian outback has enthralled readers the world over. The Thorn Birds is a chronicle of three generations of Clearys—an indomitable clan of ranchers carving lives from a beautiful, hard land while contending with the bitterness, frailty, and secrets that penetrate their family. It is a poignant love

story, a powerful epic of struggle and sacrifice, a celebration of individuality and spirit. Most of all, it is the story of the Clearys' only daughter, Meggie, and the haunted priest, Father Ralph de Bricassart—and the intense joining of two hearts and souls over a lifetime, a relationship that dangerously oversteps sacred boundaries of ethics and dogma.

Reading Sounds Sean Zdenek, 2015-12-23 The work of writing closed captions for television and DVD is not simply transcribing dialogue, as one might assume at first, but consists largely of making rhetorical choices. For Sean Zdenek, when captioners describe a sound they are interpreting and creating contexts, they are assigning significance, they are creating meaning that doesn't necessarily exist in the soundtrack or the script. And in nine chapters he analyzes the numerous complex rhetorical choices captioners make, from abbreviating dialogue so it will fit on the screen and keep pace with the editing, to whether and how to describe background sounds, accents, or slurred speech, to nonlinguistic forms of sound communication such as sighing, screaming, or laughing, to describing music, captioned silences (as when a continuous noise suddenly stops), and sarcasm, surprise, and other forms of meaning associated with vocal tone. Throughout, he also looks at closed captioning style manuals and draws on interviews with professional captioners and hearing-impaired viewers. Threading through all this is the novel argument that closed captions can be viewed as texts worthy of rhetorical analysis and that this analysis can lead the entertainment industry to better standards and practices for closed captioning, thereby better serve the needs of hearing-impaired viewers. The author also looks ahead to the work yet to be done in bringing better captioning practices to videos on the Internet, where captioning can take on additional functions such as enhancing searchability. While scholarly work has been done on captioning from a legal perspective, from a historical perspective, and from a technical perspective, no one has ever done what Zdenek does here, and the

original analytical models he offers are richly interdisciplinary, drawing on work from the fields of technical communication, rhetoric, media studies, and disability studies.

The Beautiful Things That Heaven Bears Dinaw Mengestu, 2007-03-01 Seventeen years ago, Sepha Stephanos fled the Ethiopian Revolution for a new start in the United States. Now he finds himself running a failing grocery store in a poor African-American section of Washington, D.C., his only companions two fellow African immigrants who share his bitter nostalgia and longing for his home continent. Years ago and worlds away Sepha could never have imagined a life of such isolation. As his environment begins to change, hope comes in the form of a friendship with new neighbors Judith and Naomi, a white woman and her biracial daughter. But when a series of racial incidents disturbs the community, Sepha may lose everything all over again. Watch a QuickTime interview with Dinaw Mengestu about this book.

A Terrible Beauty Is Born W. B. Yeats, 2016-03-03 'But I, being poor, have only my dreams; / I have spread my dreams under your feet...' By turns joyful and despairing, some of the twentieth century's greatest verse on fleeting youth, fervent hopes and futile sacrifice.

Understanding and Overcoming Misophonia Thomas H. Dozier, 2017-03-16 Is Misophonia Ruining Your Life? The 2nd edition includes recent research of brain imaging studies and physical response studies of individuals when triggered. It includes over 50% new information compared to the first edition, including more management techniques, personal stories of individuals with misophonia and their families, treatment techniques for young children, and data on a treatment that reduces misophonia severity by 50%. Does the sound of other people chewing fill you with rage? Do certain sights and sounds make you crazy when they don't bother anyone else? If so, you are not alone. Although not well known, misophonia is quite common, and there is hope. Are you tired of misophonia ruining your life? Are you ready to tackle your misophonia (or help a loved one)? If so, this book is for you. Recent brain imaging research indicates misophonia is a soft-wired neurological condition where a person has a strong emotional response of anger or disgust to specific sounds. The brain of a misophonic person being triggered does respond differently than someone without misophonia. The fMRI images are included. Triggers for some might be hearing someone chewing. For others, it is the sound of sniffing or breathing. Many people also have visual triggers such as seeing someone chew gum. There are a lot of common triggers, but there are also some that are very unusual and unique. Almost any sound or sight can be a misophonia trigger for someone. Misophonia can be upsetting and

annoying, or it can be a debilitating condition. The book includes one story of getting Social Security disability for misophonia. Misophonia severity does vary, but it generally gets worse with time. There are important management techniques that are helpful to almost everyone. Recent brain imaging research indicates misophonia is a soft-wired neurological condition where a person has a strong emotional response of anger or disgust to specific sounds. The brain of a misophonic person being triggered does respond differently than someone without misophonia. The fMRI images are included. The good news is that soft-wired brain connections can change. Treatment for misophonia is still being developed and data collected. There are no published treatment studies on misophonia. Although there are no proven treatments that work for everyone, there are treatments that work for many. With proper management and treatment there is hope for reducing the horrible effects of this condition. This book will help you understand what this mysterious condition is doing to you (or help you understand what someone close to you is experiencing). It explains how misophonia develops and expands with time, and why those little sounds cause a person SO much distress. The book gives you many techniques that will help you manage this condition. Existing treatment options are described. There is hope. With proper management and treatment, most people can greatly reduce the effects of misophonia in their life. Developing misophonia has been a journey. Overcoming misophonia is also a journey, and it is a journey that can provide much relief for this horrible condition. It is journey that you should start today.

The Wife Between Us: The First Four Chapters Greer Hendricks, Sarah Pekkanen, 2017-10-03
“A clever thriller with masterful twists.” – Karin Slaughter, New York Times bestselling author of The Kept Woman A fiendishly clever romantic thriller in the vein of Gone Girl and The Girl on the Train. This one will keep you guessing. –Anita Shreve, New York Times bestselling author of The Stars are

Fire The Wife Between Us delivers a whip smart, twisty plot in a taut, pacy narrative. It's terrific and troubling. This is one scary love triangle where you won't know who to trust. I loved it. –Gilly Macmillan, New York Times bestselling author of What She Knew A twisty, mind-bending novel about marriage and betrayal. A gripping plot and fascinating characters; this book will keep you turning the pages and guessing until the very end. A must-read! –Lauren Weisberger, New York Times bestselling author of The Devil Wears Prada A novel of suspense from authors Greer Hendricks and Sarah Pekkanen that explores the complexities of marriage and the dangerous truths we ignore in the name of love. When you read this book, you will make many assumptions. You will assume you are reading about a jealous wife and her obsession with her replacement. You will assume you are reading about a woman about to enter a new marriage with the man she loves. You will assume the first wife was a disaster and that the husband was well rid of her. You will assume you know the motives, the history, the anatomy of the relationships. Assume nothing. Discover the next blockbuster novel of suspense, and get ready for the read of your life.

Pirate Nation Darren Todd, 2011 'Pirate Nation' is the remarkable story of modern-day digital piracy, and how it affects business, society, creativity and culture, now and in the future. Curating As Anti-Racist Practice Natalie Bayer,Belinda Kazeem-Kaminski,Nora Sternfeld,2019-04

The anthology *Curating as Anti-Racist Practice* reflects upon museums and exhibitions from the perspective of postcolonial museology and critical migration and regime research. Beyond critical analysis, this collection of texts is about collecting strategies and forms of action that make it possible to think of curating as anti-racist practice. Using as springboards the intersections between social battlefields and curatorial practices, as well as a focus on agency, this book examines the relationality of struggles for and against representation. Therefore, the focus is on discursive strategies of resistance, contact zones and approaches to re-appropriation. [publisher].

Innovation, Economic Development, and Intellectual Property in India and China Kung-Chung

Liu,Uday S. Racherla,2019-09-06 This open access book analyses intellectual property codification and innovation governance in the development of six key industries in India and China. These industries are reflective of the innovation and economic development of the two economies, or of vital importance to them: the IT Industry; the film industry; the pharmaceutical industry; plant varieties and food security; the automobile industry; and peer production and the sharing economy. The analysis extends beyond the domain of IP law, and includes economics and policy analysis. The overarching concern that cuts through all chapters is an inquiry into why certain industries have developed in one country and not in the other, including: the role that state innovation policy and/or IP policy played in such development; the nature of the state innovation policy/IP policy; and whether such policy has been causal, facilitating, crippling, co-relational, or simply irrelevant. The book asks what India and China can learn from each other, and whether there is any possibility of synergy. The book provides a real-life understanding of how IP laws interact with innovation and economic development in the six selected economic sectors in China and India. The reader can also draw

lessons from the success or failure of these sectors.
