📖 [The Longevity Betting Strategy for Winning at Roulette](#) Mark Roberts, 2012-06

📖 [Roulette Strategy - Dozens and Columns Using CONTROL](#) Johnny Depot, 2012-10-31 Roulette Strategy - Dozens & Columns using C.O.N.T.R.O.L. teaches the gambler an effective and winning system when playing American roulette. Many casino players are lured to the roulette wheel, but have no idea on how to attack casino roulette. Most players over-bet and make bad decisions like betting on favorite numbers, birthdays and many other foolish things. If you want to play with the roulette odds in your favor, then you need to have a plan. My book provides a complete plan and the best part is it works for casino roulette and internet roulette. It doesn't matter if you like to take a trip to the local casino, go to Vegas or play roulette online since our roulette strategy works everywhere. The fact of the matter is that most roulette players lose money. I know, since I used to be one of them. I realized that if I wanted to have a chance at beating the roulette wheel, I needed to change my thinking. I needed to quit dreaming about the wheel barrow full of money I was going to win and start concentrating on how little I would lose. My roulette strategy needed to be simple, but my approach needed to change. That's when I invented C.O.N.T.R.O.L. I knew how to play American roulette, but I had no concept of how to bet. C.O.N.T.R.O.L. gave me the answers I needed by answering the important questions like how much money do I bring to play roulette, which plays do I make (no matter if I was playing casino roulette or internet roulette) and how much do I bet. In today's era you can log into your computer and play roulette online twenty four hours a day, seven days a week. You need to have some kind of control (no pun intended) to keep yourself from going broke too fast. C.O.N.T.R.O.L. completes my roulette strategy and teaches me how to make the most money when things are going good and more importantly when to stop and cut my losses down when things are going bad.

📖 [Sweet Spot One-Third Roulette Strategy \(OTRS\)](#) Stephen Tabone, 2019-09-07 Sweet Spot One-Third Roulette Strategy (OTRS) An extensive exploration into roulette column or dozen betting very stable win/loss ratio: Pro roulette players are using this mega powerful strategy. The average roulette gambler plays in one of two main ways. The first way involves betting on a random selection of 18 numbers (just under half the wheel if playing on a single zero wheel, and one off an even split if playing on a double zero wheel since there are x38 numbered pockets). Most bettors who take this approach tend to change some of their numbers on subsequent games. Sometimes players will bet less or more than 18 numbers generally more when they are not hitting numbers and less when they are hitting numbers. This means their risk of losing more chips increases when they are not doing too well versus winning more when they are hitting numbers and losing less by covering fewer numbers. The second way roulette gamblers approach the game is to choose x12 numbers (just under one-third of the wheel), and they tend to stick to the same numbers. When you really understand how roulette operates and apply a strategy that gels well with the concept of winning, a big psychological burden is removed from the decision-making process that being the what numbers factor. Thus, what remains is the when to bet factor. The focus of the strategy found in this book concentrates on knowing when to bet and by how much to bet. This book explores these two important elements without which a strategy falls short. In this book, the author shows you how you can apply order to roulette games using the second way i.e. betting on x12 numbers, and explains how his strategy works so you can stand a very good chance yielding a profit during a session of playing roulette games. List of books titles by this author can be found here: <https://www.amazon.com/Stephen-R-Tabone/e/B01COOOED8> Contents: Introduction. Numbers in Flux. Static Chips. Why x12 Numbers. 📖 [Spin It To Win It Roulette Strategy](#) Carl Salas, 2013-10-11 Win every spin! Turn \$256 dollars into thousands! The book will show you step by step how to increase your chance of winning while managing your risk. According to public information, there are over 35 million people who visit Las Vegas. About 13% say they visit to gamble. But in actuality, about 87% end up gambling on a slot and/or a table game. For those who tried roulette the first time, I'm sure they never heard of the 2.70% and 5.26% house edge. Enjoy the game and make money doing it. Understand the notorious house edge to mitigate or limit your loss. The good news is that there is hope. Although you have no control of the house edge, you have absolute dominion over your play time, how much you want to win, and managing risk. Combine that with a good understanding of the risk of playing roulette and having a betting strategy and you've got yourself a practical plan that when applied with a little personal discipline may improve your chances to come home with a few hundred dollars to a few thousands of dollars.
