The Oxford Handbook of Pre-Roman Italy (1000--49 BCE) Marco Maiuro, Jane Botsford Johnson, 2024 The Oxford Handbook of Pre-Roman Italy provides a comprehensive account of the many peoples who lived on the Italian peninsula during the last millennium BCE. Written by more than fifty authors, the book describes the diversity of these indigenous cultures, their languages, interactions, and reciprocal influences. It gives emphasis to Greek colonization, the rise of aristocracies, technological innovations, and the spread of literacy, which provided the urban texture that shaped the history of the Italian peninsula.

Before Religion Brent Nongbri, 2013-01-22 Examining a wide array of ancient writings, Brent Nongbri dispels the commonly held idea that there is such a thing as ancient religion. Nongbri shows how misleading it is to speak as though religion was a concept native to pre-modern cultures.

What Would Buffy Do? Jana Riess, 2004-04-30 What Would Buffy Do? explores the fascinating spiritual, religious, and mythological ideas of television's hit series Buffy the Vampire Slayer--from apocalypse and sacrifice to self-reliance, redemption, and the need for humor when fighting our spiritual battles.

Torture Garden Octave Mirbeau, 2020-09-28 One evening some friends were gathered at the home of one of our most celebrated writers. Having dined sumptuously, they were discussing murder--apropos of what, I no longer remember probably apropos of nothing. Only men were present: moralists, poets, philosophers and doctors--thus everyone could speak freely, according to his whim, his hobby or his idiosyncrasies, without fear of suddenly seeing that expression of horror and fear which the least startling idea traces upon the horrified face of a notary. I--say notary, much as I might have said lawyer or porter, not disdainfully, of course, but in order to define the average French mind. With a calmness of spirit as perfect as though he were expressing an opinion upon the merits of the cigar he was smoking, a member of the Academy of Moral and Political Sciences said: "Really--I honestly believe that murder is the greatest human preoccupation, and that all our acts stem from it..." We awaited the pronouncement of an involved theory, but he remained silent. "Absolutely!" said a Darwinian scientist, "and, my friend, you are voicing one of those eternal truths such as the legendary Monsieur de La Palisse discovered every day: since murder is the very bedrock of our social institutions, and consequently the most imperious necessity of civilized life. If it no longer existed, there would be no governments of any kind, by virtue of the admirable fact that crime in general and murder in particular are not only their excuse, but their only reason for being. We should then live in complete anarchy, which is inconceivable. So, instead of seeking to eliminate murder, it is imperative that it be cultivated with intelligence and perseverance. I know no better culture medium than law." Someone protested. "Here, here!" asked the savant, "aren't we alone, and speaking frankly?" "Please!" said the host, "let us profit thoroughly by the only occasion when we are free to express our personal ideas, for both I, in my books, and you in your turn, may present only lies to the public." The scientist settled himself once more among the cushions of his armchair, stretched his legs, which were numb from being crossed too long and, his head thrown back, his arms hanging and his stomach soothed by good digestion, puffed smoke--rings at the ceiling: "Besides," he continued, "murder is largely self-propagating. Actually, it is not the result of this or that passion, nor is it a pathological form of degeneracy. It is a vital instinct which is in us all--which is in all organized beings and dominates them, just as the genetic instinct. And most of the time it is especially true that these two instincts fuse so well, and are so totally interchangeable, that in some way or other they form a single and identical instinct, so that we no longer may tell which of the two urges us to give life, and which to take it--which is murder, and which love. I have been the confidant of an honorable assassin who killed women, not to rob them, but to ravish them. His trick was to manage things so that his sexual climax coincided exactly with the death-spasm of the woman: 'At those moments,' he told me, 'I imagined I was a God, creating a world!'"

Culturally Responsive Cognitive Behavior Therapy Gayle Iwamasa, Pamela A. Hays, 2018-10-23 Gayle Y. Iwamasa and Pamela A. Hays show mental health providers how to integrate cultural factors into cognitive behavior therapy (CBT). They describe the application of CBT with clients of diverse cultures and discuss how therapists can refine CBT to increase its effectiveness with clients from a variety of cultural backgrounds. Contributors examine the unique characteristics of CBT and its use with various racial, ethnic, and religious minority groups in the United States. Strategies for using CBT with older adults; individuals with disabilities; and lesbian, gay, bisexual, transgender, queer, and questioning clients are also examined. A chapter on culturally responsive CBT clinical supervision closes the volume. This new edition includes updated demographic information, a greater emphasis on culture-specific assessments, and a new chapter on using CBT with clients of South Asian descent. -- Résumé de l'éditeur.

Savage Tales Linda Goddard, 2019-09-03 An original study of Gauguin's writings, unfolding their central role in his artistic practice and negotiation of colonial identity. As a French artist who lived in Polynesia, Paul Gauguin (1848-1903) occupies a crucial position in histories of European primitivism. This is the first book devoted to his wide-ranging literary output, which included journalism, travel writing, art criticism, and essays on aesthetics, religion, and politics. It analyzes his original manuscripts, some of which are richly illustrated,

reinstating them as an integral component of his art. The seemingly haphazard, collage-like structure of Gauguin's manuscripts enabled him to evoke the primitive culture that he celebrated, while rejecting the style of establishment critics. Gauguin's writing was also a strategy for articulating a position on the margins of both the colonial and the indigenous communities in Polynesia; he sought to protect Polynesian society from civilization but remained implicated in the imperialist culture that he denounced. This critical analysis of his writings significantly enriches our understanding of the complexities of artistic encounters in the French colonial context.--Publisher's description.

The Socio-Economics of Roman Storage Astrid Van Oyen,2020-05-14 In a pre-industrial world, storage could make or break farmers and empires alike. How did it shape the Roman empire? The Socio-Economics of Roman Storage cuts across the scales of farmer and state to trace the practical and moral reverberations of storage from villas in Italy to silos in Gaul, and from houses in Pompeii to warehouses in Ostia. Following on from the material turn, an abstract notion of 'surplus' makes way for an emphasis on storage's material transformations (e.g. wine fermenting; grain degrading; assemblages forming), which actively shuffle social relations and economic possibilities, and are a sensitive indicator of changing mentalities. This archaeological study tackles key topics, including the moral resonance of agricultural storage; storage as both a shared and a contested concern during and after conquest; the geography of knowledge in domestic settings; the supply of the metropolis of Rome; and the question of how empires scale up. It will be of interest to scholars and students of Roman archaeology and history, as well as anthropologists who study the links between the scales of farmer and state.

The Literary Market Geoffrey Turnovsky,2011-07-07 A central theme in the history of Old Regime authorship highlights the opportunities offered by a growing book trade to writers seeking to free themselves from patrons and live by the pen. Accounts of this passage from patronage to market have explored in far greater detail the opportunities themselves—the rising sums paid by publishers and the progression of laws protecting literary property—than how and why writers would have seized on them, no doubt because the choice to do so has seemed an obvious or natural one for writers assumed to prefer economic self-sufficiency over elite protection. In *The Literary Market*, Geoffrey Turnovsky claims that there was nothing obvious or natural about the choice. Writers had been involved in commercial book publication since the earliest days of the printing press, yet had not necessarily linked these activities with their freedom to think and write. The association of autonomy and professionalism was forged, not given. Analyzing the literary market as a key articulation of the association, Turnovsky explores how in eighteenth-century polemics a rhetoric of commercial authorship came to signify independence for intellectuals. He finds the roots of the connection not in the claims of entrepreneurial writers to rights and income but in a world to which that of the modern author has been contrasted: the aristocratic culture of the seventeenth century. Aristocratic culture, he argues, generated a disparaging view of the professional author as one defined by activities tainting him or her as greedy and arrogant and therefore unworthy of protection and socially isolated. *The Literary Market* examines the story of the birth of the author in terms of the revalorization of this negative trope in Enlightenment-era debates about the radically changing role of writers in society.

The Routledge Companion to Death and Literature W. Michelle Wang,Daniel K. Jernigan,Neil Murphy,2020-12-07 The Routledge Companion to Death and Literature seeks to understand the ways in which literature has engaged deeply with the ever-evolving relationship humanity has with its ultimate demise. It is the most comprehensive collection in this growing field of study and includes essays by Brian McHale, Catherine Belling, Ronald Schleifer, Helen Swift, and Ira Nadel, as well as the work of a generation of younger scholars from around the globe, who bring valuable transnational insights. Encompassing a diverse range of mediums and genres – including biography and autobiography, documentary, drama, elegy, film, the novel and graphic novel, opera, picturebooks, poetry, television, and more – the contributors offer a dynamic mix of approaches that range from expansive perspectives on particular periods and genres to extended analyses of select case studies. Essays are included from every major Western period, including Classical, Middle Ages, Renaissance, and so on, right up to the contemporary. This collection provides a telling demonstration of the myriad ways that humanity has learned to live with the inevitability of death, where “live with” itself might mean any number of things: from consoling, to memorializing, to rationalizing, to fending off, to evading, and, perhaps most compellingly of all, to escaping. Engagingly written and drawing on examples from around the world, this volume is indispensable to both students and scholars working in the fields of medical humanities, thanatology (death studies), life writing, Victorian studies, modernist studies, narrative, contemporary fiction, popular culture, and more.
