Una voz que cambia vidas ,2017

None of the Above Mollie J. Cohen,2024-02-20 Around the world each year, millions of citizens turn out to vote but leave their ballots empty or spoil them. Increasingly, campaigns have emerged that promote “invalid” votes like these. Why do citizens choose to cast blank and spoiled votes? And how do campaigns mobilizing the invalid vote influence this decision? None of the Above answers these questions using evidence from presidential and gubernatorial elections in eighteen Latin American democracies. Author Mollie J. Cohen draws on a broad range of methods and sources, incorporating data from electoral management bodies, nationally representative surveys, survey experiments, focus groups, semi-structured interviews, and news sources. Contrary to received wisdom, this book shows that most citizens cast blank or spoiled votes in presidential elections on purpose. By participating in invalid vote campaigns, citizens can voice their concerns about low-quality candidates while also expressing a preference for high-quality democracy. Campaigns promoting blank and spoiled votes come about more often, and succeed at higher rates, when incumbent politicians undermine the quality of elections. Surprisingly, invalid vote campaigns can shore up the quality of democracy in the short term. None of the Above shows that swings in blank and spoiled vote rates can serve as a warning about the trajectory of a country’s democracy.

Una voz que cambia vidas Julianna Paola Ramírez Lozano,Julianna Ramírez,2017 Este libro relata la gestión de la campaña de lucha contra la desnutrición infantil realizada por el Grupo RPP y difundida de forma ininterrumpida a través de su principal emisora radial, desde el 2006 hasta el 2010. Dicha experiencia representó una apuesta empresarial donde se evidenció que las campañas sociales bien estructuradas, que reciben el compromiso de alta dirección de la institución y logran el involucramiento de los grupos de interés, pueden llegar a ser una eficiente estrategia de responsabilidad social a mediano plazo. --

Space Supporting Latin America Annette Froehlich,Diego Alonso Amante Soria,Ewerton De Marchi,2020-04-16 This book examines the background and context of Latin America's political and socioeconomic landscape with a focus on space activities. Firstly, it discusses Latin America's contribution to this sector from an international relations perspective, and explores the debates around the establishment of a Latin American Space Agency. It then highlights space-related capacity building, Latin America’s participation in UNCOPUOS, and international space activities, agreements, and initiatives in Latin America. The second part is devoted to the national space infrastructures and space activities of Latin American states. It analyzes various spacefaring countries in the context of their intra-regional space relations and initiatives as well as their bi-lateral cooperation programs. This timely book is of interest to scholars and professionals working in the space field, especially those in Latin America and other emerging countries.

Regional Integration Process in South America: Analysis of Institutions and Policies of Regional Integration Under the EU Framework Jaime Martín León Li,2011-10 This book presents a review of the South American integration process in a global context, with the main factors of success and failure, by comparing it with the European Union development. It also presents South American integration in a regional context; with its subregional pacts and the development of the South American Union of Nations (UNASUR) and how the regionalization faced its stagnation and changed its objectives, replicating and amplifying successful experiences in the integration process. The book presents comparisons between South American and EU integration structures and policies featuring the supranational executive bodies concerned, the judicial structures, the legislative functions and the monetary systems plus common foreign and security policy and common social and development policy of both entities: three supranational institutions and three common policies that define a regional bloc. To avoid diffusing the research, only one of those dimensions receives a deeper analysis: the supranational executive bodies comparison. The second part of this book introduces the Game Theory, a shared-decision model with two or more players that have different priorities for the same decision. The Game Theory analysis is used here to evaluate two typical scenarios of South American regional policy conflicts, pointing out the important role of the exertion of supranational executive power to foster the integration process. The conclusions focus on the main challenges: the existing asymmetries between South American states and the lack of a clear leadership in the region; giving a positive assessment to the new functional approach taken by South American nations. This approach could offer them good chances to foster regional development and allow progress of South American integration. The final comments propose new fields for the Game Theory technique in the integration process analysis.

South-American Integration Processes under the EU Framework Jaime Martín León Li,2014-04-11 Inhaltsangabe:Introduction: After the Second World War, the political and economical block that today we call European Union started when six countries sought to ensure the peace among them. Belgium, France, Germany, Italy, Luxemburg and the Netherlands put their heavy industries under a common management, with the Coal and Steel Treaty, so no one could build weapons or develop its war industry without the others knowing it. This experience led to the Treaty of Rome in 1957 and 50 years later the ideas of people, goods and service freedoms continue spreading around, and the European Union has become one of the best examples of economical, political and cultural integration, and a reference around the world to encourage other regions to group. Therefore, among others, the Latin America Free Trade Association (LAFTA) appeared in 1960, the Association of Southeast Asian Nations (ASEAN), in 1967; the North American Free Trade Area (NAFTA), in 1991; and the Common Market for Eastern and Southern Africa (COMESA) in 1993. In the case of South America , in spite of their good intentions, the huge asymmetries between LAFTA members caused the apparition of sub-regional blocs: the Andean Community (CAN) founded in 1969, and now grouping Bolivia, Colombia, Ecuador, and Peru; and the Southern Common Market (MERCOSUR) founded in 1991, between Argentina, Brazil, Paraguay and Uruguay. Nowadays, after more than 40 years of integration processes, there are still strong problems inside both sub-regional blocs. CAN Member States have several diplomatic discussions regarding their political models; and Peru, Ecuador and Colombia have or are negotiating independent Free Trade Agreements with external blocs, including USA and the EU. In the other side, MERCOSUR's main players -Argentina and Brazil- have commercial disputes at the World Trade Organization, surrounding their own sub-regional bodies . Nevertheless, these two sub-regional associations were the basis for the South American Community of Nations (CSN on Spanish) in 2004, and from that point, the present attempt to unify South-America: the South American Union of Nations (UNASUR, 2008), with the participation of Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Guyana, Paraguay, Peru, Surinam, Uruguay and Venezuela. The integration levels in political and economical affairs in this latter group are expected to change the way international relations will be conduit in the future of South-America. This new [...]

Business Despite Borders Santiago Iñiguez de Onzoño, Kazuo Ichijo, 2018-05-30 Globalization has been a key force in the development of business in recent decades. But with nationalism on the rise in Europe, the United States and elsewhere, the future of global trade and international business has been thrown into doubt. In this new and challenging context, innovative companies have the opportunity not only to find new ways to operate across borders, but also to help forge a new system of relations between people of different nationalities and cultures. This book features a collection of case studies that illustrate how companies from different corners of the globe are succeeding in reaching out to distant customers, stakeholders and partners. It features inspiring examples of leaders who are actively developing imaginative ways to connect across continents. It is a vital reference tool for companies that plan to continue operating globally or to expand their international presence. A clarion call for the renewed relevance and importance of globalized business, this book suggests a future where companies can contribute positively to achieving sustainable growth and a fairer distribution of wealth across the globe.

The Road to the Land of the Mother of God Stephen G. Perz, Jorge Luis Castillo Hurtado, 2023-05 The Interoceanic Highway is many things to many people: an emblematic project during a period focused on integration, a dream realized for an isolated region, a symbol of the profound fragility of state institutions, a key cause of political corruption, and a major driver of ecological and cultural devastation. This highway links the Andean highlands with the Amazonian lowlands in southern Peru, offering an outlet for Brazil's emergent economy. While it finally brought an end to the isolation of Madre de Dios and other parts of southern Peru and the western Amazon, it was made possible by political corruption revealed in the Lava Jato scandal, and it permitted the spread of criminal business activities. But the Interoceanic Highway's deeper history must be appreciated in order to fully understand why it was built and the impacts it has generated. The Road to the Land of the Mother of God explores more than five hundred years of the history of Peru's Interoceanic Highway, showing how the purposes, portrayals, and importance of roads change fundamentally over time, and thus how roads bring significantly more impacts and costs than their advocates and critics generally anticipate. By taking a deeper look at infrastructure history, Stephen G. Perz and Jorge Luis Castillo Hurtado portray infrastructure as an integrative optic for understanding changes in local livelihoods, regional development, and social conflicts.

Abuse in the Latin American Church Véronique Lecaros, Ana Lourdes Suárez, 2024-04-01 This book addresses the crisis of sexual abuse in the Roman Catholic Church in Latin America, the region of the world with the highest percentage of Catholics. Bringing together research from across the continent, it demonstrates that abuse within the Church is indeed a global phenomenon, though abuses have taken different forms according to varying sociocultural contexts. With attention to abuses committed against children, women and vulnerable adults – by both men and women – within the settings of parishes, new religious movements and international religious organizations, it also raises questions of justice, asking how to assess the suffering of victims, how to deal with abusers and how to prevent abuses. It will therefore be of interest to scholars of religious studies, sociology, Latin American studies, criminology, theology, and religious leaders with interests in the abuses and scandals that have been revealed in the worldwide Church.

Espacios Públicos and Medios on Line Rocío Barja, 2011-08 Día a día en nuestro país, miles y miles de personas hacen uso de Internet, y específicamente de sus espacios virtuales, no solo para cuestiones laborales o académicas, sino también para establecer relaciones sociales virtuales con otros individuos navegantes en la red. Se trata de conexiones ocasionales, unas más polémicas que otras, y en ciertos casos, más intensas que las interpersonales. Los foros de discusión no son un contacto face to face, pero crean lazos y establecen sus propias reglas.

The Lens of Ecological Law Carla Sbert, 2020-04-24 Containing an in-depth study of the emerging theory and core of ecological law, this book insightfully proposes a 'lens of ecological law' through which the disparity between current laws and ecological law can be assessed. The lens consists of three principles: ecocentrism, ecological primacy and ecological justice. These principles are used within the book to explore and analyse the challenges and opportunities related to the transition to ecological law and to examine three key mining case studies.

La radio en Iberoamérica Arturo Merayo Pérez, 2007 Este libro se erige como la primera obra de referencia, tanto en español como en inglés, que aborda el estudio de la radio en los diferentes países iberoamericanos. La obra, coordinada por el Doctor Arturo Merayo, reúne las aportaciones de más de veinte estudiosos y profesionales del medio de toda Iberoamérica con el objetivo de dotar a las instituciones académicas españolas, iberoamericanas y anglosajonas, de un texto de referencia básico para conocer cómo son y qué se hace en la radio de estos países. El espíritu de esta obra queda bien reflejado en las propias palabras del profesor Merayo: «[...] estuve varias semanas realizando búsquedas acerca de la radio en Iberoamérica. Encontré varios títulos en los que se analizaba, en ocasiones pormenorizadamente, la radio de un determinado país. En esos casos, casi siempre el estudio se limitaba a aspectos históricos sin entrar casi nunca en los análisis de audiencia ni en los aspectos empresariales. Pero no encontré un solo título, ya fuera en español o en inglés, que abordara la radio iberoamericana en su conjunto, analizándola de manera homogénea, país por país, y repasando no sólo su historia sino su evolución jurídica, su estructura empresarial, sus audiencias y las tendencias de futuro. Esto es precisamente lo que por vez primera intenta esta obra. Un análisis global de la radio en Iberoamérica.» Con este libro el lector conocerá en poco tiempo los datos fundamentales de la radio de cualquier país iberoamericano,

informaciones que no encontrará recopiladas en ningún otro lugar. Encontraremos aquí un análisis de la realidad radiofónica singular de cada país, presentado a modo de informe en el que, respetando la libertad de cada uno de los autores, se describen en cada caso al menos cinco aspectos esenciales: 1. Evolución histórica: Comienzos, desarrollo, consolidación, experiencias singulares destacadas. Principales figuras históricas de la radiodifusión. Principales programas. Hitos históricos en los que la radio ha desempeñado un papel decisivo. 2. Radio y libertad: Breve evolución histórica de la legislación radiofónica y situación actual. La lucha por la libertad: el problema de la censura. La radio comunitaria. Las radios alternativas. Las radios indigenistas. 3. Estructura del sector radiofónico: Principales cadenas y estaciones. Propiedad. Vinculación con otros sectores comunicativos o empresariales. Índices de audiencia: penetración social, FM y AM, radio generalista y especializada... 4. La programación: Descripción de las principales programaciones y de sus contenidos. La radio educativa. Experiencias novedosas con éxito. Tendencias de futuro. 5. La radio del siglo XXI: Prospectiva. Radio en internet. La radio en la era digital. La radio en el entorno multimedia. Arturo Merayo, Doctor en Ciencias de la Información, es Decano de la Facultad de Ciencias Sociales y de la Comunicación de la Universidad Católica de Murcia (España). PolítiKa vs. Prensa Andrés Calderón,2022-03-21 Un libro fundamental para estudiar las fronteras del periodismo y las obligaciones legales en estos tiempos convulsos de la políticaperuana La verdadera prensa es la que incomoda. PolítiKa vs. Prensa analiza cinco años de vida política y mediática del Perú (2016 al 2021), de una campaña electoral a otra. El abogado y periodista Andrés Calderón presenta las claves para entender la crisis que atraviesa la prensa peruana, salpicada por intereses políticos, o político-empresariales, que encontraron en el Congreso de la República lavíaperfecta para decretar leyes que los protejan y pongan en peligro latente el libre ejercicio del periodismo. Andrés Calderón, gracias a la exhaustiva revisión de iniciativas legislativas, diarios, revistas y programas de radiocomunicación, estudia los memorables episodios de aquellas campañas electorales marcadas por calificativos de «mermelada», trolls , filtraciones de chats, ataque ala reserva de las fuentes, «criptoanálisis», y acusaciones a la prensa de falta de objetividad, transparencia y verificación de fuentes. PolítiKa vs. Prensa es un libro fundamental para estudiar las fronteras del periodismo y las obligaciones legales, y paracomprender que la búsqueda honesta de la verdad debe seguir siendo la principal arma de batalla del periodismo. «Estos convulsos últimos cinco años -y los otros tantos que seguramente vendrán- hacen muy necesario el reporte y análisis de Andrés Calderón sobre los medios, el periodismo y su turbulenta relación con la política».Diego Salazar «Andrés Calderón logra una narración y análisis convincente que todo ciudadano interesado en la libertad deexpresión debería leer». Alberto Vergara «Este es un libro indispensablepara la memoria de las grandezas y miserias de nuestra política y, de igual manera, de nuestra prensa».Rosa María Palacios

Peruvian Cinema of the Twenty-First Century Cynthia Vich,Sarah Barrow,2020-12-17 This is the first English-language book to provide a critical panorama of the last twenty years of Peruvian cinema. Through analysis of the nation's diverse modes of filmmaking, it offers an insight into how global debates around cinema are played out on and off screen in a distinctive national context. The insertion of post-conflict Peru within neoliberalism resulted in widespread commodification of all areas of life, significantly impacting cinema culture. Consequently, the principal structural concept of this collection is the interplay between film production and market forces, an interaction which makes dynamism and instability the defining features of 21st-century Peruvian cinema.
