Office of Science and Innovation Great Britain: Parliament: House of Commons: Science and Technology Committee,2007-04-03 The scrutiny of the Office of Science and Technology (OSI) is one of the core tasks of the Committee. During the period covered by this report the OSI and DTI Innovation Group have successfully merged and there has been a new performance management system. There has been a welcomed increase in the science budget but the breach of the principle of ring fencing the budget is deprecated. An important part of OSI's work is reviewing the use of science in Government departments. Although these are valuable the pace of review and information available on them needs to be improved.
