**Giant in the Shadows** Jason Emerson, 2012-03-27 WINNER, Russell P. Strange Memorial Book of the Year Award from the Illinois State Historical Society, 2013! University Press Books for Public and Secondary Schools, 2013 edition  
Although he was Abraham and Mary Lincoln's oldest and last surviving son, the details of Robert T. Lincoln's life are misunderstood by some and unknown to many others. Nearly half a century after the last biography about Abraham Lincoln's son was published, historian and author Jason Emerson illuminates the life of this remarkable man and his achievements in **Giant in the Shadows: The Life of Robert T. Lincoln**. Emerson, after nearly ten years of research, draws upon previously unavailable materials to offer the first truly definitive biography of the famous lawyer, businessman, and statesman who, much more than merely the son of America's most famous president, made his own indelible mark on one of the most progressive and dynamic eras in United States history. Born in a boardinghouse but passing his last days at ease on

a lavish country estate, Robert Lincoln played many roles during his lifetime. As a president's son, a Union soldier, an ambassador to Great Britain, and a U.S. secretary of war, Lincoln was indisputably a titan of his age. Much like his father, he became one of the nation's most respected and influential men, building a successful law practice in the city of Chicago, serving shrewdly as president of the Pullman Car Company, and at one time even being considered as a candidate for the U.S. presidency. Along the way he bore witness to some of the most dramatic moments in America's history, including Robert E. Lee's surrender at Appomattox Courthouse; the advent of the railroad, telephone, electrical, and automobile industries; the circumstances surrounding the assassinations of three presidents of the United States; and the momentous presidential election of 1912. *Giant in the Shadows* also reveals Robert T. Lincoln's complex relationships with his famous parents and includes previously unpublished insights into their personalities. Emerson reveals new details about Robert's role as his father's confidant during the brutal years of the Civil War and his reaction to his father's murder; his prosecution of the thieves who attempted to steal his father's body in 1876 and the extraordinary measures he took to ensure it would never happen again; as well as details about the painful decision to have his mother committed to a mental facility. In addition Emerson explores the relationship between Robert and his children, and exposes the actual story of his stewardship of the Lincoln legacy—including what he and his wife really destroyed and what was preserved. Emerson also delves into the true reason Robert is not buried in the Lincoln tomb in Springfield but instead was interred at Arlington National Cemetery. Meticulously researched, full of never-before-seen photographs and new insight into historical events, *Giant*

in the Shadows is the missing chapter of the Lincoln family story. Emerson's riveting work is more than simply a biography; it is a tale of American achievement in the Gilded Age and the endurance of the Lincoln legacy.

**Radio Audiences and Participation in the Age of Network Society** Tiziano Bonini, Belén Monclús, 2014-12-05 This book maps, describes and further explores all contemporary forms of interaction between radio and its public, with a specific focus on those forms of content co-creation that link producers and listeners. Each essay will analyze one or more case studies, piecing together a map of emerging co-creation practices in contemporary radio. Contributors describe the rise of a new class of radio listeners: the networked ones. Networked audiences are made up of listeners that are not only able to produce written and audio content for radio and co-create along with the radio producers (even definitively bypassing the central hub of the radio station, by making podcasts), but that also produce social data, calling for an alternative rating system, which is less focused on attention and more on other sources, such as engagement, sentiment, affection, reputation, and influence. What are the economic and political consequences of this paradigm shift? How are radio audiences perceived by radio producers in this new radioscope? What's the true value of radio audiences in this new frame? How do radio audiences take part in the radio flow in this age? Are audiences' interactions and co-creations overrated or underrated by radio producers? To what extent listeners' generated content can be considered a form of participation or free labour exploitation? What's the role of

community radio in this new context? These are some of the many issues that this book aims to explore. Visit <https://www.facebook.com/pages/Radio-Audience-and-Participation-in-the-Age-of-Network-Society/869169869799842> for the book's Facebook page.

**The Formation of the German Chemical Community, 1720–1795** Karl Hufbauer, 1982-01-01 Well before Germany emerged as a single nation or chemistry as a clearly defined profession, German chemists had formed a national scientific community that presaged the increasing specialization so characteristic of modern science. It found a forum in the chemical journal established by Lorenz Crell in 1778. It proved its cohesiveness first by rejecting Lavoisier's theory on nationalistic grounds and then, after a fierce struggle, by rallying behind the French system. This pioneering study of the early German chemical community is rich in implications for the social history of science. Charts, tables, graphs and illustrations.

**Inside** Michel van Egmond, 2018-06-07 INSIDE is het onthullende, verbazingwekkende en bij vlagen onthutsende vervolg op de bestseller TOPSHOW uit 2014. Dit keer doen Michel van Egmond en Jan Hillenius van binnenuit verslag van de gang van zaken bij Voetbal Inside, uitmondend in de opmerkelijke transfer van RTL naar Talpa's John de Mol. Language Planning in Europe Robert B. Kaplan, Richard B. Baldauf Jr., Nkonko Kamwangamalu, 2016-04-22 This volume focuses on language planning in Cyprus, Iceland and Luxembourg, explaining the linguistic diversity, historical and political contexts and current language situation (including language-in-

education planning), the role of the media, the role of religion and the roles of non-indigenous languages. The authors are indigenous to the situations described, and draw on their experience and extensive fieldwork there. The three extended case studies contained in this volume draw together the literature on each of the polities to present an overview of the existing research available, while also providing new research-based information. The purpose of this volume is to provide an up-to-date overview of the language situation in each polity based on a series of key questions, in the hope that this might facilitate the development of a richer theory to guide language policy and planning in other polities where similar issues may arise. This book comprises case studies originally published in the journal *Current Issues in Language Planning*.

**Media revolution in Europe: ahead of the curve** Karol Jakubowicz, . Council of Europe, 2011-04-13 The rags to riches story of Karol Jakubowicz's involvement in the work of the Council of Europe took him from the role of an awestruck newcomer from Poland in 1990 to that of the Chairman of the Steering Committee on the Media and New Communication Services (2005-06). Along the way, he was elected, delegated by the Steering Committee, and invited by the Council of Europe Secretariat to serve in a number of other capacities. In all of them, he contributed a wide variety of papers, reports and studies to assist the steering committee and other bodies in collecting information and formulating ideas in the general field of freedom of expression, creation of free and democratic media systems (including the issue of public service media), regulation of transfrontier television, the adjustment of Council of Europe human rights standards to the conditions of the information society, and the development of broadcasting legislation in

Council of Europe member states. The present collection of these papers and reports is published in the conviction that they retain their value and relevance. It provides the additional benefit of offering a glimpse of the work preceding the formulation of Committee of Ministers recommendations and declarations, as well as resolutions of the Council of Europe Parliamentary Assembly.

**Civil Liberties in China** Xiaobing Li, 2010-10-21 This book examines civil liberties in China today, covering the topics of constitutional rights of citizens, rights of the criminally accused, the court and legal systems, and judicial conflicts between government regulation and personal freedoms. The Constitution of the People's Republic of China was amended in 2004 to expressly include the protection of human rights, and the last revision of the Constitution in 1982 ostensibly guaranteed civil liberties such as freedom of speech, of the press, and of assembly. In actuality, China still resorts to suppressive actions such as strictly controlling accessible content on the Internet and censorship of the media, as well as silencing criticism of government or calls for political reform. *Civil Liberties in China* explores both theory and practice by identifying key issues in Chinese ideology, government, and human rights. The book assesses historical evidence and empirical data, putting major legal cases in the context of Chinese traditions and culture. Abortion, the one-child policy, and privacy issues are given special attention.
