The Daily Stoic offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

The Oxford Handbook of Political Leadership R. A. W. Rhodes, Paul 't Hart, 2014-05-29 Political leadership has made a comeback. It was studied intensively not only by political scientists but also by political sociologists and psychologists, Sovietologists, political anthropologists, and by scholars in comparative and development studies from the 1940s to the 1970s. Thereafter, the field lost its way with the rise of structuralism, neo-institutionalism, and rational choice approaches to the study of politics, government, and governance. Recently, however, students of politics have returned to studying the role of individual leaders and the exercise of leadership to explain political outcomes. The list of topics is high endless: elections, conflict management, public policy, government popularity, development, governance networks, and regional integration. In the media age, leaders are presented and stage-managed—spun—DDL as the solution to almost every social problem. Through the mass media and the Internet, citizens and professional observers follow the rise, impact, and fall of senior political officeholders at closer quarters than ever before. This Handbook encapsulates the resurgence by asking, where are we today? It orders the multidisciplinary field by identifying the distinct and distinctive contributions of the disciplines. It meets the urgent need to take stock. It brings together scholars from around the world, encouraging a comparative perspective, to provide a comprehensive coverage of all the major disciplines, methods, and regions. It showcases both the normative and empirical traditions in political leadership studies, and juxtaposes behavioural, institutional, and interpretive approaches. It covers formal, office-based as well as informal, emergent political leadership, and in both democratic and undemocratic polities.
