Handbook of Handguns Jeffrey Strickland,2013-04-25 In light of the 2nd Amendment debates, shooting may become the national passtime. To act responsibly within the 2nd Amendment, means knowing how to properly bear arms. Knowing involves understanding firearm types, firearm operation, ammunition, internal ballistics, and shooting. These require training, especially shooting. Whether you own or plan to own a handgun for recreation, competition, or self-defense, training is of the utmost importance. When you fire a projectile (bullet) from a firearm, you are responsible for where it goes. You need to understand how fast it travels, how far it can travel, and how accurate your firearm is in delivering the projectile to your intended target. Yes, bearing arms is a right, but not one to be taken lightly. Firing a handgun is a grave responsibility and must be done correctly and with a full understanding of all the components that make up shooting.

Handgun Buyer's Guide Brad Fitzpatrick,2015-11-17 The one-stop-shop for prospective handgun buyers. The market for new handguns is expanding rapidly, and that's good news for consumers. Each year more and more new models break cover and there has never been a better time to be in the market for a new handgun, whether you're a recreational shooter, a concealed carry permit holder, a hunter or a serious competitive shooter. Today's handguns offer superb machining and utilize some of the most technologically-advanced alloys, polymers and finishes to help make the current crop of handguns lightweight, accurate, durable, and affordable. This increase in product offerings stem from new interest in handguns, primarily as a result of nationwide issuance of concealed carry permits. As laws have been enacted that protect the rights of gun owners and defend our personal liberties, more and more new shooters are showing up on the range. But first-time shooters and new concealed carry permit holders are not the only segment of the handgun market that is seeing growth and interest. Pistol competitions have become more popular and more advanced, evolving from slow-fire matches at local gun clubs to modern IPSC, IDPA and 3-gun competitions. Handgun Buyer's Guide will help both the bewildered new shooter find their feet and purchase a handgun, find the best accessories, and locate a place to practice on hone their skills. You'll find all you need for owning a handgun in the Handgun Owner's Guide! Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. Stealing People Robert Wilson, 2016-06-07 Around the world, the children of the rich are disappearing . . . A chilling thriller starring kidnapping expert Charles Boxer, “a great character” (*Kirkus Reviews*). Kidnapping expert Charles Boxer is contemplating retirement. He’s found a measure of contentment, even as a mystery from his own past gnaws at his sense of justice. Meanwhile, his ex-wife, Mercy, balances a complicated personal life with an even more precarious professional one in the woefully under-resourced metropolitan police department. But both are suddenly pulled back into action when six children of ultrawealthy families vanish—families from India, China, Russia, Australia, Germany, and the United States—taken by a ruthlessly efficient organization with a single astonishing demand. Trapped, off-balance, and with little left to lose, they plunge into a cauldron of warring intelligence agencies, morally destitute billionaires, and human traffickers, coming finally to a fateful reckoning that will forever change them—in this smart, suspenseful thriller by a Gold Dagger and Gumshoe Award-winning author. “A great character whose emotional trials are exciting to follow.” —*Kirkus Reviews*

Least of Evils J. M. Gregson, 2012-10-01 The Northumberland detective makes “a memorable hero, as distinctive as Inspector Morse” in this thrilling whodunit of murder among the moneyed (*Booklist*). DCI Percy Peach has been called to the sprawling Thorley Grange estate in Brunton to investigate the murder of Oliver Ketley. The beloved philanthropist was found in his Bentley, shot through the head. When he arrives, Peach discovers a wounded intruder lurking on the grounds, hoarding a bag of priceless gems. Case closed? Not exactly. A guy like Oliver doesn’t die in a simple robbery gone wrong. Not with his secrets. The suspects are far more high-profile: the victim’s society wife; her lover, a former member of Her Majesty’s Secret Service; and a brutal, powerful gang lord. Now it’s left to Peach to find the killer—by exposing the charitable victim as the disreputable fraud he was. “Peach is a formidable opponent whose insight and persistence earn him top honors among British procedurals.” —*Kirkus Reviews*, starred review

Mass Shootings: Six Steps to Survival John Matthews, 2014-01-10 Examining nearly 60 mass shootings that have occurred in the United States since 1982, this book focuses on the actions taken and decisions made by those who survived these horrific attacks. Armed with this new information, the old axiom “fight or flight” is dispelled or at least modified for this new breed of killer. Fight by yourself and you are almost assuredly going to join the ranks of the victims if not the overall body count; flee and present a target for the killer or draw his attention, and chances are you will not make it out alive. This book is comprised of vital information gleaned from survivors who have successfully endured some of the most tragic and violent incidents in US history over the past 40 years. Mass Shootings: Six Steps to Survival presents an easy-to-understand model for every citizen of nearly any age. Armed with this vital information, citizens will be able to learn from the actual experiences of mass shooting survivors and understand both successful and unsuccessful tactics which have been utilized by these individuals in past incidents. How would I respond to a heavily-armed gunman who is determined to kill as many people as possible? What would I do if I were caught in the wrong place at the wrong time: in a crowded movie theater, at a popular concert, out celebrating at a city festival, or simply eating lunch with my child at school? What do I do? Do I have the knowledge and skills necessary to survive an attack? How do I save myself and help others? All of these questions and more are answered in Mass Shootings: Six Steps to Survival, a book written specifically to provide the information and tools necessary to survive a mass shooting or active shooter assault.

But the Age of Heroes is long past, and no more epics are told of their deeds. Blessed – and cursed – with eternal life, they have walked the Earth for millennia, doing their best to fit in among ordinary humans, taking new names and living new lives. And one by one, the demigods are meeting terrible, bloody ends. Now it's up to Theseus, comfortably ensconced in New York and making his living as a crime fiction writer, to investigate the deaths. His search for the culprit draws him back into the lives of his dysfunctional extended family, and into a world of tragedy and long-held grudges that he thought, and hoped, he'd put behind him.
