Muay Thai Fighter Paul Garrigan, Paul Garrigan is not a typical fighter. As a child he dreamt of imitating his hero Bruce Lee, he even practiced Kung Fu for a number of years, but he never got past his fear of being hit in the face. By the time he reached his twenties the only fighting he was doing involved a battle with alcoholism. Garrigan turned from a ten stone weakling in his teens to an overweight alcoholic in his thirties, but the desire to practice a martial art never left him. He ended up living in Thailand where the fiercest of all martial arts is practiced - Muay Thai. Eventually he managed to find his way out of addiction and even though he was now in his forties he decided to pursue his martial art dreams. In Muay Thai Fighter we get to see what happens when a middle-aged ex-drunk decides to learn the toughest fighting art in the world. Garrigan wasn't expecting it to be easy, but could never have anticipated how demanding the training was going to be. It brought him to levels of physical and mental pain that he never guessed existed. A famous saying in martial arts is that the only person you are really fighting is the person you were yesterday. This is the inspiring tale of how we can all still achieve our dreams no matter how much we have messed up in life.

Race of Aces John R Bruning, 2020-01-14 The astonishing untold story of the WWII airmen who risked it all in the deadly race to become the greatest American fighter pilot. In 1942, America's deadliest fighter pilot, or ace of aces -- the legendary Eddie Rickenbacker -- offered a bottle of bourbon to the first U.S. fighter pilot to break his record of twenty-six enemy planes shot down. Seizing on the challenge to motivate his men, General George Kenney promoted what they would come to call the race of aces as a way of

boosting the spirits of his war-weary command. What developed was a wild three-year sprint for fame and glory, and the chance to be called America's greatest fighter pilot. The story has never been told until now. Based on new research and full of revelations, John Bruning's brilliant, original book tells the story of how five American pilots contended for personal glory in the Pacific while leading Kenney's resurgent air force against the most formidable enemy America ever faced. The pilots -- Richard Bong, Tommy McGuire, Neel Kearby, Charles MacDonald and Gerald Johnson -- riveted the nation as they contended for Rickenbacker's crown. As their scores mounted, they transformed themselves from farm boys and aspiring dentists into artists of the modern dogfight. But as the race reached its climax, some of the pilots began to see how the spotlight warped their sense of duty. They emerged as leaders, beloved by their men as they chose selfless devotion over national accolades. Teeming with action all across the vast Pacific theater, *Race of Aces* is a fascinating exploration of the boundary between honorable duty, personal glory, and the complex landscape of the human heart. Brings you into the cockpit of the lethal, fast-paced world of fighter pilots . . . Fascinating. -- Sara Vladic
Extraordinary . . . a must-read. -- US Navy Captain Dan Pedersen
A heart-pounding narrative of the courage, sacrifice, and tragedy of America's elite fighter pilots. -- James M. Scott
Vivid and gripping . . . Confirms Bruning's status as the premier war historian of the air. -- Saul David

4th Fighter Group Chris Bucholtz, 2012-12-20 Formed around a nucleus of pilots already seasoned by their experience as volunteers in the RAF's Eagle Squadrons, the 4th Fighter Group was established in England in October 1942. Initially flying Spitfires, the Debden Eagles went on to fly the P-47 and P-51, becoming, in July 1943, the first Eighth Air Force fighter group to penetrate German air space. The group's record of 583 air and 469 ground victories was unmatched in the Eighth Air Force, and the group produced a cast of characters that included legendary aces Don Blakeslee, Pierce McKennon, "Kid" Hofer, Duane Beeson, Steve Pisanos and Howard Hively. Involved in the D-Day landings, Operation Market Garden, the Battle of the Bulge and the crossing of the Rhine, the group's achievements came at a high price, with a 42 percent casualty rate. Packed with first-hand accounts, detailed aircraft profiles and full combat histories, this book is an intriguing insight into the best-known American fighter unit in World War II

The Fighter's Mind Sam Sheridan, 2010-02-02 From the acclaimed author of A Fighter's Heart comes an "entertaining and enlightening" look inside the mental game of mixed martial arts fighting (Dave Doyle, Yahoo! Sports). In his acclaimed national bestseller, A Fighter's Heart, Sam Sheridan took readers with him into the dangerous world of professional fighting. From a

muay Thai bout in Bangkok to Iowa, where he fought the toughest mixed martial arts stars, Sheridan threw himself into a quest to understand how and why we fight. In *The Fighter's Mind*, Sheridan explores the mental discipline required of an elite fighter. In his training, Sheridan heard time and again (in Yogi Berra fashion) that "fighting is ninety percent mental, half the time." But what does this mean, exactly? To uncover the secrets of mental strength and success, Sheridan interviewed dozens of the world's most fascinating and dangerous men. He spoke with celebrated trainers Freddie Roach and Greg Jackson; champion fighters Randy Couture, Frank Shamrock, and Marcelo Garcia; ultrarunner David Horton; chess prodigy (and the inspiration for *Searching for Bobby Fischer*) turned tai chi expert Josh Waitzkin; and the legendary wrestler Dan Gable, among others. "Fantastic . . . One of the best MMA books I've ever read, and I've certainly read my fair share." —Eric O'Brien, "Way of the Warrior," ESPN radio "You don't have to care about fighting, or even know that MMA stands for mixed martial arts, to find insights into human behavior in Sam Sheridan's *The Fighter's Mind*." —David M. Shribman, Bloomberg

Luftwaffe Fighter Aces Mike Spick, 2011-07-19 In this exciting book Mike Spick shows how the Luftwaffe's leading fighter pilots were able to outscore their allied counterparts so effectively and completely during the Second World War. When the records of the Jagdflieger pilots became available after the war, they were initially greeted with incredulity — the highest claim was for 352 kills, and more than 100 pilots had recorded more than 100 victories. However postwar research proved that these claims had in fact been made in good faith and confirmation had only been given after rigorous checking. To discover the secret of this success, aviation history expert Mike Spick

examines the exploits of these aces and sets out the context in which it took place. Every major theater is covered in detail including the conditions peculiar to each: climate, relative numerical and qualitative strengths, the presence or absence of radar and other measures, and the relative merits of the planes being flown. He focuses on the methods and tactics used by individual aces and uses firsthand sources wherever possible to put the reader right alongside the pilot in the cockpit.
