Maurice Friedberg

Hymns of the Russian Church ,1920

Seferis and Elytis as Translators Irene Loulakaki-Moore,2010 George Seferis and Odysseus Elytis gave the Modern Greek language a substantial corpus of translations from poets working in French, Italian, Spanish, Russian, English and Ancient Greek. However, the translation practices of these two Nobel Prize-winning poets have long been inadequately observed. The present volume provides a close examination of Seferis' and Elytis' inter- and intra-lingual verse translations with the aim of discovering their translating techniques and their personal and public goals in pursuing the act of translation. Similarities and differences between the two poets are highlighted comparatively. The methodological approach, informed by recent findings in the field of descriptive translation studies and polysystem theories, investigates the function of translation in the target culture and the relation of translation to original poetic production. Throughout the book the study of translation is shown to be a powerful tool for the study of Modern Greek literature and its relation to other literatures and movements of the time, while the task of the translator and the task of the writer unfold as two components of the same endeavour.

Russian Writers on Translation Brian James Baer, Natalia Olshanskaya, 2014-07-16 Since the early eighteenth century, following Peter the Great's policy of forced westernization, translation in Russia has been a very visible and much-discussed practice. Generally perceived as an important service to the state and the nation, translation was also viewed as a high art, leading many Russian poets and writers to engage in literary translation in a serious and sustained manner. As a result, translations were generally regarded as an integral part of an author's oeuvre and of Russian literature as a whole. This volume brings together Russian writings on translation from the mid-18th century until today and presents them in chronological order, providing valuable insights into the theory and practice of translation in Russia. Authored by some of Russia's leading writers, such as Aleksandr Pushkin, Fedor Dostoevskii, Lev Tolstoi, Maksim Gorkii, and Anna Akhmatova, many of these texts are translated into English for the first time. They are accompanied by extensive annotation and biographical sketches of the authors, and reveal Russian translation discourse to be a sophisticated and often politicized exploration of Russian national identity, as well as the nature of the modern subject. *Russian Writers on Translation* fills a persistent gap in the literature on alternative translation traditions, highlighting the

vibrant and intense culture of translation on Europe's 'periphery'. Viewed in a broad cultural context, the selected texts reflect a nuanced understanding of the Russian response to world literature and highlight the attempts of Russian writers to promote Russia as an all-inclusive cultural model.

Translation in Russian Contexts Brian James Baer, Susanna Witt, 2017-07-28
This volume represents the first large-scale effort to address topics of translation in Russian contexts across the disciplinary boundaries of Slavic Studies and Translation Studies, thus opening up new perspectives for both fields. Leading scholars from Eastern and Western Europe offer a comprehensive overview of Russian translation history examining a variety of domains, including literature, philosophy and religion. Divided into three parts, this book highlights Russian contributions to translation theory and demonstrates how theoretical perspectives developed within the field help conceptualize relevant problems in cultural context in pre-Soviet, Soviet, and post-Soviet Russia. This transdisciplinary volume is a valuable addition to an under-researched area of translation studies and will appeal to a broad audience of scholars and students across the fields of Translation Studies, Slavic Studies, and Russian and Soviet history. Chapter 1 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license available at <http://www.taylorfrancis.com/books/e/9781315305356>.

English-Greek translation Kypros Tofallis, 1969

Contexts, Subtexts and Pretexts Brian James Baer, 2011-04-13 This volume presents Eastern Europe and Russia as a distinctive translation zone, despite significant internal differences in language, religion and history. The persistence of large multilingual empires, which produced bilingual and even

polyglot readers, the shared experience of “belated modernity” and the longstanding practice of repressive censorship produced an incredibly vibrant, profoundly politicized, and highly visible culture of translation throughout the region as a whole. The individual contributors to this volume examine diverse manifestations of this shared translation culture from the Romantic Age to the present day, revealing literary translation to be at times an embarrassing reminder of the region’s cultural marginalization and reliance on the West and at other times a mode of resistance and a metaphor for cultural supercession. This volume demonstrates the relevance of this region to the current scholarship on alternative translation traditions and exposes some of the Western assumptions that have left the region underrepresented in the field of Translation Studies.

Multilingual Routes in Translation Maria Sidiropoulou, Tatiana Borisova, 2022-04-07 This book tackles the interface between translation and pragmatics. It comprises case studies in English, Greek, Russian and Chinese translation practice, which highlight the potential of translation to interact with pragmatics and reshape meaning making in a target language in various pragmatically relevant ways. Fiction and non-fiction genres merge to suggest a rich inventory of interlingual transfer instances which can broaden our perception of what may be shifting in translation transfer. Authors use an emic approach (in addition to an etic one) to confirm results which they often present graphically. The book has a didactic perspective in that it

shows how pragmatic awareness can regulate translator behaviour and is also useful in foreign language teaching, because it shows how important implicit knowledge can be, in shaping the message in a foreign language.

Literary Translation in Russia Maurice Friedberg, 2010-11-01 In this rich historical study, Maurice Friedberg recounts the impact of translation on the Russian literary process. In tracing the explosion of literary translation in nineteenth-century Russia, Friedberg determines that it introduced new issues of cultural, aesthetic, and political values. Beginning with Pushkin in the early nineteenth century, Friedberg traces the history of translation throughout the lives of Dostoevsky, Tolstoy, and, more recently, Pasternak. His analysis includes two translators who became Russia's leading literary figures: Zhukovsky, whose renditions of German poetry became famous, and Vvedensky, who introduced Charles Dickens to Russia. In the twentieth century, Friedberg points to Pasternak's *Faust* to show how apolitical authors welcomed free translation, which offered them an alternative to the original writing from which they had been banned by Soviet authorities. By introducing Western literary works, Russian translators provided new models for Russian literature. Friedberg discusses the usual battles fought between partisans of literalism and of free translation, the influence of Stalinist Soviet government on literary translation, and the political implications of aesthetic clashes. He also considers the impetus of translated Western fiction, poetry, and drama as remaining links to Western civilization during

the decades of Russia's isolation from the West. Friedberg argues that literary translation had a profound effect on Russia by helping to erode the Soviet Union's isolation, which ultimately came to an end with the dissolution of the Soviet Union in 1991.

Witchcraft in Russia and Ukraine, 1000–1900 Valerie A. Kivelson, Christine D. Worobec, 2020-11-15 This sourcebook provides the first systematic overview of witchcraft laws and trials in Russia and Ukraine from medieval times to the late nineteenth century. *Witchcraft in Russia and Ukraine, 1000–1900* weaves scholarly commentary with never-before-published primary source materials translated from Polish, Russian, and Ukrainian. These sources include the earliest references to witchcraft and sorcery, secular and religious laws regarding witchcraft and possession, full trial transcripts, and a wealth of magical spells. The documents present a rich panorama of daily life and reveal the extraordinary power of magical words. Editors Valerie A. Kivelson and Christine D. Worobec present new analyses of the workings and evolution of legal systems, the interplay and tensions between church and state, and the prosaic concerns of the women and men involved in witchcraft proceedings. The extended documentary commentaries also explore the shifting boundaries and fraught political relations between Russia and Ukraine.

Routledge Encyclopedia of Translation Studies Mona Baker, Kirsten

Malmkjær, 1998-01 The Routledge Encyclopedia of Translation Studies has been the standard reference in the field since it first appeared in 1998. The second, extensively revised and extended edition brings this unique resource up to date and offers a thorough, critical and authoritative account of one of the fastest growing disciplines in the humanities. The Encyclopedia is divided into two parts and alphabetically ordered for ease of reference: Part I (General) covers the conceptual framework and core concerns of the discipline. Categories of entries include: * central issues in translation theory (e.g. equivalence, translatability, unit of translation) * key concepts (e.g. culture, norms, ethics, ideology, shifts, quality) * approaches to translation and interpreting (e.g. sociological, linguistic, functionalist) * types of translation (e.g. literary, audiovisual, scientific and technical) * types of interpreting (e.g. signed language, dialogue, court) New additions in this section include entries on globalisation, mobility, localization, gender and sexuality, censorship, comics, advertising and retranslation, among many others. Part II (History and Traditions) covers the history of translation in major linguistic and cultural communities. It is arranged alphabetically by linguistic region. There are entries on a wide range of languages which include Russian, French, Arabic, Japanese, Chinese and Finnish, and regions including Brazil, Canada and India. Many of the entries in this section are based on hitherto unpublished research. This section includes one new entry: Southeast Asian tradition. Drawing on the

expertise of over ninety contributors from thirty countries and an international panel of consultant editors, this volume offers a comprehensive overview of translation studies as an academic discipline and anticipates new directions in the field.

Brodsky Translating Brodsky: Poetry in Self-Translation Alexandra Berlina, 2014-04-24 Is poetry lost in translation, or is it perhaps the other way around? Is it found? Gained? Won? What happens when a poet decides to give his favorite Russian poems a new life in English? Are the new texts shadows, twins or doppelgangers of their originals-or are they something completely different? Does the poet resurrect himself from the death of the author by reinterpreting his own work in another language, or does he turn into a monster: a bilingual, bicultural centaur? Alexandra Berlina, herself a poetry translator and a 2012 Barnstone Translation Prize laureate, addresses these questions in this new study of Joseph Brodsky, whose Nobel-prize-winning work has never yet been discussed from this perspective.

Russia and the Making of Modern Greek Identity, 1821-1844 Lucien J. Frary, 2015 Lucien J. Frary explores how Russian politics and religion were instrumental in the shaping of modern Greece, providing a broad understanding of 19th-century Russian foreign policy and religious enterprise, as well as the relationship between religion, nationalism, and state-building.
