Sidney Lumet Maura Spiegel,2019-12-10 The first-ever biography of the seminal American director whose remarkable life traces a line through American entertainment history Acclaimed as the ultimate New York movie director, Sidney Lumet began his astonishing five-decades-long directing career with the now classic 12 Angry Men, followed by such landmark films as Serpico, Dog Day Afternoon, and Network. His remarkably varied output included award-winning adaptations of plays by Anton Chekhov, Arthur Miller, Tennessee Williams, and Eugene O'Neill, whose Long Day's Journey into Night featured Katharine Hepburn and Ralph Richardson in their most devastating performances. Renowned as an "actor's director," Lumet attracted an unmatched roster of stars, among them: Henry Fonda, Sophia Loren, Marlon Brando, Anna Magnani, Sean Connery, Ingrid Bergman, Paul Newman, Al Pacino, Ethan Hawke, and Philip-Seymour Hoffman, accruing eighteen Oscar nods for his actors along the way. With the help of exclusive interviews with family, colleagues, and friends, author Maura Spiegel provides a vibrant portrait of the life and work of this extraordinary director whose influence is felt through generations, and takes us inside the Federal Theater, the Group Theatre, the Actors Studio, and the early "golden age" of television. From his surprising personal life, with four marriages to remarkable women—all of whom opened their living rooms to Lumet's world of artists and performers like Marilyn Monroe and Michael Jackson—to the world of Yiddish theater and Broadway spectacles, Sidney Lumet: A Life is a book that anyone interested in American film of the twentieth century will not want to miss.

Fight Back Legal Abuse Rose Colombo, 2010-07-30 Rose Colombo hit the news when she asked the question, How much justice can you afford? Colombo said she walked into the courtroom of no justice wealthy and walked out of the courtroom poor after she was thrust into the dark side of justice and felt as if she had been stripped of her freedom and thrown into a concentration camp with no rights. Most people know nothing about the legal system. We must not go down to their level but must force them to come up to our level.

RX Rachel Lindsay, 2018-09-04 A graphic memoir about the treatment of mental illness, treating mental illness as a commodity, and the often unavoidable choice between sanity and happiness. In her early twenties in New York City, diagnosed with bipolar disorder, Rachel Lindsay takes a job in advertising in order to secure healthcare coverage for her treatment. But work takes a strange turn when she is promoted onto the Pfizer account and suddenly finds herself on the other side of the curtain, developing ads for an antidepressant drug. She is the audience of the work she's been pouring over and it highlights just how unhappy and trapped she feels, stuck in an endless cycle of treatment, insurance and medication. Overwhelmed by the stress of her professional life and the self-scrutiny it inspires, she begins to destabilize and while in the midst of a crushing job search, her mania takes hold. Her altered mindset yields a simple solution: to quit her job and pursue life as an artist, an identity she had abandoned in exchange for medical treatment. When her parents intervene, she finds herself hospitalized against her will, and stripped of the control she felt she had finally reclaimed. Over the course of her two weeks in the ward, she struggles in the midst of doctors, nurses, patients and endless rules to find a path out of the hospital and this cycle of treatment. One where she can live the life she wants, finding freedom and autonomy, without sacrificing her dreams in order

to stay well.

Generation Rx Erin Marie Daly, 2015-06-09 What had happened to my baby brother? How did a tiny little pill shatter our family? When did we first begin losing Pat? These are the harrowing questions that plagued Erin Marie Daly after her youngest brother Pat, an OxyContin addict, was found dead of a heroin overdose at the age of twenty. In just a few short years, the powerful prescription painkiller had transformed him from a fun-loving ball of energy to a heroin addict hell-bent on getting his next fix. Yet even as Pat's addiction destroyed his external life, his internal struggle with opiates was far more heart-wrenching. Erin set out on a painful personal journey, turning a journalistic eye on her brother's addiction; in the process, she was startled to discover a new twist to the ongoing prescription drug epidemic. That kids are hooked on prescription drugs is nothing new what is new is the rising number of young heroin addicts whose addiction began with pills in suburban bedrooms, and how a generation of young people playing around with today's increasingly powerful opioids are finding themselves in the frightening grip of heroin. While many books have tackled the topic of Big Pharma, drug addiction, and our increasingly over-medicated society, *Generation Rx* offers an entirely new look at what the prescription pill epidemic means for today's youth and the world around them.

Corpus-based Studies of Lesser-described Languages Amina Mettouchi, Martine Vanhove, Dominique Caubet, 2015-05-15 This volume presents new findings based on the analysis of spoken corpora in thirteen different Afro-Asiatic languages – a unique endeavor in the domain of lesser-described languages. It will be of interest to corpus linguists, general linguists, typologists, and linguists specializing in Afro-Asiatic languages. In addition to the rarity of corpus studies based on endangered and lesser-described languages, the volume is remarkable due to its focus on the role of prosody in interaction with several other phenomena, including code-switching and borrowing. Phonology, syntax, and information structure are explored, and the issue of the elaboration of strategies for the typological comparison of corpora is addressed in several papers. The volume also contains a presentation of software development conducted within the scope of the CorpAfroAs project and based upon the widely used ELAN. The sound-indexed, and morphosyntactically-annotated corpora, with their OLAC metadata and several other deliverables can be accessed and searched at <http://dx.doi.org/10.1075/scl.68.website>.
