Getting Around Town: M. Sherril Moon,Emily M. Luedtke,Elizabeth Halloran-Tornquist,2010-01-01 Transition experts agree that learning to get around the community is one of the essential components of all school programs for students with disabilities regardless of the type or degree of disability. By teaching mobility skills across several areas and its impact for students to learn in the domestic, work, social, self-determination, and recreation domains, educators, families, and older students have a starting point for including these goals in individualized education programs (IEP). This guide provides examples of possible IEP goals and field-tested lesson plans for individual students or entire classes across all age and grade levels.

Parents Book of Child Safety David Laskin,1991 Safety is the first concern in the minds of new parents, and it's a concern that deepens as a child moves out into a wider world. This informative, easy-to-use book takes you step-by-step through all the essentials of child safety, from furnishing the nursery to preparing your first-grader for safe travel to and from school. Most important, it offers detailed advice on how to teach children at each stage of development the habits and attitudes they will need to keep themselves safe. Based on the latest research, as well as extensive interviews with parents, the Parents TM Book of Child Safety will show you how to: -- Childproof every room in your house anti every part of your yard -- Instruct children about safety without scaring them. -- Buy the safest cribs, strollers, high chairs, and toys on the market. -- Choose a safe day-care center or preschool -- Give first-aid for the most common emergencies -- Travel safely in cities, foreign countries, and on camping trips. -- Know when your child is ready to cross the street, ride a bus, ride a bike unattended -- And much more.

Safety First for Little Folks Lillian M. Waldo,2017-12-15 Excerpt from Safety First for Little Folks: First Steps in Civics This little book is, the author believes, fully in accord with the times in its aim and spirit, which is to further good citizenship; civic betterment; cleanliness; economy; the conservation of human life, happiness, and efficiency, both of one's self and of others; and to assist in reducing to some degree the terrible waste of life, limb, and effort resulting from thoughtlessness and carelessness. Child hood is the appropriate time for teaching the virtue of carefulness, thoughtfulness, helpfulness, and consideration for others. A reasonable care for one's own safety and well-being is an essential element for proper helpfulness to others. Any teaching of selfish disregard for the safety of others has been avoided. Thanks are due to the various municipal departments of New York City, to the Brooklyn Rapid Transit Co., to Walter H. Bennett, State Fire Marshal of Illinois, and to Dr. B. B. Mosher, of Brooklyn, for photographs used in the book. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Playing the Identity Card Colin J Bennett,David Lyon,2013-01-11 National identity cards are in the news. While paper ID documents have been used in some countries for a long time, today's rapid growth features high-tech IDs with built-in biometrics and RFID chips. Both long-term trends towards e-Government and the more recent responses to 9/11 have prompted the quest for more stable identity systems. Commercial pressures mix with security rationales to catalyze ID development, aimed at accuracy, efficiency and speed. New ID systems also depend on computerized national registries. Many questions are raised about new IDs but they are often limited by focusing on the cards themselves or on privacy. Playing the Identity Card shows not only the benefits of how the state can see citizens better using these instruments but also the challenges this raises for civil liberties and human rights. ID cards are part of a broader trend towards intensified surveillance and as such are understood very differently according to the history and cultures of the countries concerned.

My Fall from Grace James J. Laski,2008 Paul A. Lavallee is a romantic when writing or talking about small town New England. He is an occasional contributor to a weekly newspaper publication, writing on local issues as well as timely articles of interest. He was born and still lives in the heart of the Blackstone River Valley, where America's industrial revolution began. A Marine veteran of the Korean War, Mr. Lavallee's recollection of growing up in a small mill town during the war years of the 1940's, along with his later experiences at Parris Island, and then in war-ravaged Korea in the 1950's, all tended to inspire him to write his first novel, Rattle of the Looms. That novel was and still is so well received that a sequel seemed imperative. Thus comes the revisiting of the old mill town, Northcross, along with the eeriness of Emery Sibley's mansion, the few vaguely familiar faces over at Felix Morrell's bar, as well as the folks who happen to be still around town in 1982, twenty-eight years after the close of the original novel that ended in 1954.
