The Mirror Book Peter Aitken,Tim Davison,2018-09-11 The Mirror dinghy was a significant factor in the boom of dinghy sailing in the 1960s, introducing thousands to the delights of sailing. While sailing has come a long way since then and there have been a lot of far more exotic craft launched, the Mirror remains a fantastic boat in which to learn to sail and to compete at the highest levels. With this second edition, The Mirror Book has been brought into the Start to Finish series format alongside such revered books as The Laser Book, The Topper Book, The Catamaran Book and The Foiling Dinghy Book. Like these titles, this book tells you everything you need to know about sailing the boat (whether it be the original gaff-rigged boat or has the newer Bermuda rig). Written for those starting out through to those striving to win a championship, the book is packed with practical advice and illustrated with step-by-step photographs. It covers: setting up the Mirror and early sailing experiences; developing skills on all points of sailing and with the spinnaker; racing & masterclasses to become a championship winner. Over 180 photographs show you exactly how it's done, and 72 diagrams illustrate key boat parts, the different points of sailing and complex on-the-water scenarios with clarity. It is written by Peter Aitken, formerly the UK National Mirror Coach, who has coached teams to win world championships in the Mirror, Cadet and 420 classes, and Tim Davison, a successful racer and author of countless books on sailing. The UK Mirror Class Association have contributed to this update and it is endorsed by Dave Wade,

double Mirror National Champion, who says: Armed with this book, your understanding of Mirror sailing techniques will grow, and your results will improve. I thoroughly recommend it.

Robotic Sailing 2015 Anna Friebe, Florian Haug, 2015-08-20 This book presents the cutting edge developments within a broad field related to robotic sailing. The contributions were presented during the 8th International Robotic Sailing Conference, which has taken place as a part of the 2015 World Robotic Sailing Championships in Mariehamn, Åland (Finland), August 31st – September 4th 2015. Since more than a decade, a series of competitions such as the World Robotic Sailing Championship have stimulated a variety of groups to work on research and development around autonomous sailing robots, which involves boat designers, naval architects, electrical engineers and computer scientists. While many of the challenges in building a truly autonomous sailboat are still unsolved, the books presents the state of the art of research and development within platform optimization, route and stability planning, collision avoidance, power management and boat control.

Along the way you will find advice from Olympic sailors and exercises to turn you into a winner, with contributions from Paul Goodison, Simon Hiscocks and Joe Glanfield.

Topper Book Dave Cockerill, John Caig, 2023-02-27 The Topper is a brilliant boat – over 50,000 have been sold and thousands of people learn the basic sailing skills in Toppers every year. This is the only book which shows you how to rig, sail and race the Topper – right up to World Champion standard. It is packed full of advice, go-fast tips, photo sequences and diagrams. This new third edition covers all three Topper rigs (4.2, 5.3 and 6.4) and is fully up to date with details of the new rota-moulded (grey) boats as well as the traditional injection-moulded (red) boats. It starts by describing how to rig and sail the boat before moving on to racing and providing masterclasses for success in competitions. Written by GBR's longest-serving National Topper Coach and a former Topper National and European Champion, the book features recent Topper World and National Champions and is the bible for Topper sailing. UK Topper National Champion Jess Powell demonstrates the techniques required, as well as what not to do, in over 300 photos and has contributed to the text, making sure it is completely relevant to today's Topper sailors.

High Performance Sailing Frank Bethwaite, 1993 Based on 25 years of research and Olympic coaching, High Performance Sailing reinvents the strategies of sailboat racing. It presents revolutionary explanations of wind prediction and boat design, a fundamental rethinking of how to sail a boat fast--literally faster than the wind. Bethwaite's theories boosted the average speed of the highest-performance sailboats from two-thirds the windspeed to windspeed or faster. Bethwaite is Australia's most successful Olympic coach, and his family includes three Olympic sailing champions and three world champions. This book will have a revolutionary impact on racing sailboats and the way they are sailed. Essential for any serious racing sailor.--Gary Jobson It represents a breakthrough in the way that it relates the theoretical aspects of wind, seastate and rig shape to the way a crew would sail and handle a boat during a race. It has the potential to be a standard reference work on the subject and will not quickly date. It is a book that my Olympic squad will benefit from.--Rod Carr, British Olympic Sailing Team Manager Frank's book is a treasure chest, full of brilliant insights into the ways of air and water as they flow around our sailing boats. Best of all, he tells us what to do when we go sailing.--Alan Payne, Designer of America's Cup challengers Greta I and II Allowed only one 'if only' in yacht racing . . . it would have been to have read Frank Bethwaite's High Performance Sailing years ago and to have it available for constant reference. Taking all the advice which he offers from his wide experience would have made championship winning a great deal easier.--Bob Fisher, Journalist, broadcaster and winner of many national and international sailing championships The most significant scientific thinking about sailboat racing to come along in three decades. A brilliant and important book for serious racing sailors.--Ed Adams, US Sailing Team Coach; national, North American, and world champion sailor Bethwaite's grasp of the entire spectrum of sailing speed is unique and formidable.--Gerry Hoyt, Yacht designer, sailing speed innovator

Tactics to Win Nick Craig, 2018-03-06 Unless you have unbeatable boatspeed, tactics are vital to winning sailboat races. Multi-champion, Nick Craig, shows you how to develop a strategy and what tactics to adopt on every leg and at every mark of the course. His first book, *Helming to Win*, was described as original, thought provoking... like no other that has gone before it. He now turns his highly analytical mind to the subject of tactics. He discusses the inputs into strategy, starting and the race plan (going through each leg in turn). Nick then tackles mark tactics, covering every different type of mark, and fleet tactics on every leg of the course. He finally focusses on boat-to-boat tactics, again on every leg of the course. In each situation he covers attacking and defensive tactics, either to get ahead or make sure you stay ahead. Non-spinnaker, symmetrical spinnaker and asymmetric dinghies are all covered because Nick has won world or national championships in each of these types of boats. Having read Nick's first book many said that it had transformed the way they sailed. This book will have the same effect on your tactics and should see you moving up the leaderboard.

Coach Yourself to Win Jon Emmett, 2015-02-24 This book will help you to succeed on the water whether your aim is Club, National, International (or even Olympic) level. With detailed analysis, challenging exercises and useful top tips throughout, everything is covered: from targets, goal setting and a winning mental attitude

to boat handling, strategy and tactics (plus lots more). Handy diagrams on almost every page help to clarify complex concepts and scenarios, and brilliant action photographs bring the text to life. Each chapter is closed with not-to-be missed advice from Olympic medallists – making this a must-have book for all sailors who aspire to great success. This is a re-written and more focused version of the author's popular title Be Your Own Sailing Coach, and its publication marks the re-launch of the iconic Sail to Win series, loved by sailors for over 30 years.

Tuning to Win Ian Pinnell,Tim Davison,2016-09-13 For most sailors, boat tuning may seem a mystery understood only by sailmakers and the like. In this book, sailor, chandler and championship winner, Ian Pinnell, unravels this daunting subject and will help improve your boatspeed as a result.
