Salvador Dal’, Or the Art of Spitting on Your Mother’s Portrait Carlos Rojas,2010-11-01 Among the many books written on or by Salvador Dalí, this is the first to give a complete, well-documented picture of his life and art. Carlos Rojas's approach to Dalí is somewhere between biography, Freudian analysis, and art and literary interpretation. Dalí is haunted from earliest childhood by the specter of his elder brother who died as a toddler shortly before Dalí was conceived (both brothers and the father bore the same name), as he is haunted by the devouring phantom of his mother, that praying mantis on whose portrait he would like to spit. Dalí is seen as endlessly struggling to affirm his identity and existence. A combination of genius, madman, neurotic, and spoiled brat, Dalí is illuminated by his work, while the known facts of his life, his own writings, those of his sister, and of others, are used to analyze the paintings, which are described in considerable detail. Rojas also provides sustained analyses of Dalí’s relationships, including his influential amorous and intellectual affair with Federico García Lorca.

Salvador Dali Eric Shanes (Auteur),2003

The Life and Masterworks of Salvador Dalí Eric Shanes,2012-05-08 Painter, designer, creator of bizarre objects, author and film maker, Dalí became the most famous of the Surrealists. Buñuel, Lorca, Picasso and Breton all had a great influence on his career. Dalí’s film, An Andalusian Dog, produced with Buñuel, marked his official entry into the tightly-knit group of Parisian Surrealists, where he met Gala, the woman who became his lifelong companion and his source of inspiration. But his relationship soon deteriorated until his final rift with André Breton in 1939. Nevertheless Dalí’s art remained surrealist in its philosophy and expression and a prime example of his freshness, humour and exploration of the subconscious mind. Throughout his life, Dalí was a genius at self-promotion, creating and maintaining his reputation as a mythical figure.

The Dalí Renaissance Michael R. Taylor,2008 Perhaps the best-known artist of the international Surrealist movement, Salvador Dalí (1904-1989) transformed his dreams and personal obsessions into some of the most original and arresting images of the 20th century. While the Surrealist works from his early years are widely known and admired, Dalí's controversial late works--often inspired by science and religion--have been given a different reception. In this important book, experts provide a revisionist account of the last five decades of the artist's career. The Dalí Renaissance explores a wide range of topics from this period, including the artist's fascination with religion and popular culture, his Nuclear Mysticism lecture tour of the midwestern United States, and his influence on film, photography, design, and fashion. Based on an international symposium held at the Philadelphia Museum of Art, the volume also features an enlightening discussion between two of Dalí's former companions, Ultra Violet and Amanda Lear, that provides a glimpse into his personal life and working methods. Distributed for the Philadelphia Museum of Art
