Inside Job Stephen Pizzo,Mary Fricker,Paul Muolo,2015-09-29 New York Times Bestseller: A history of the S&L scandal that caused a financial disaster for American taxpayers: “Hard to put down” (Library Journal). For most of the 20th century, savings and loans were an invaluable thread of the American economy. But in the 1970s, Congress passed sweeping financial deregulation at the insistence of industry insiders that allowed these once quaint and useful institutions to spread their taxpayer-insured assets into new and risky investments. The looser regulations and reduced federal oversight also opened the industry to an army of shady characters, white-collar criminals, and organized crime groups. Less than 10 years later, half the nation’s savings and loans were insolvent, leaving the American taxpayer on the hook for a large hunk of the nearly half a trillion dollars that had gone missing. The authors of Inside Job saw signs of danger long before the scandal hit nationwide. Decades after the savings and loan collapse, Inside Job remains a thrilling read and a sobering reminder that our financial institutions are more fragile than they appear.

**Animas-La Plata Project: Cultural affiliation study** James M. Potter,Elizabeth M. Perry,2006 This report compiles evidence concerning cultural affiliation with NAGPRA items recovered from the Animas-La Plata (ALP) project area near Durango, Colorado, for 25 modern tribal groups residing in Arizona, Utah, Colorado, and New Mexico. Though a small percentage of the cultural resources in the ALP project area represent earlier and later cultures, most identified archaeological remains, including NAGPRA items, date to the Pueblo I period (ca. A.D. 700-900). A preponderance of geographic, biological, oral tradition, linguistic, and archaeological evidence reasonably leads to the conclusion that the modern Keresan Pueblos of Acoma, Laguna, and Zia are the closest cultural affiliates to the Pueblo I period sites in the ALP project area.
