GUI Design assembles the best of recent graphic user interface for a collection that provides practical encouragement for those new to the world as well as inspiration for experienced designers. The book gathers Twitters Vine video creation app for Windows phones, the vulgar-yetamusing Authentic Weather app, an application designed to help tourists follow the physical and ideological path of the Iron Curtain, and more to showcase programs that balance information flow with user experiences and highlight the creativity, inspiration, and expressive techniques used in their design. The projects within demonstrate the increasingly significant role of user interfaces in both design and our everyday lives in the modern world.

Fast Times in Palestine Pamela j. Olson,2013-03-12 For much of her life—like many Westerners—most of what Pamela Olson knew of the Middle East was informed by headlines and stereotypes. But when she traveled to Palestine in 2003, she found herself thrown with dizzying speed into the realities of Palestinian life. *Fast Times in Palestine* is Olson's powerful, deeply moving account of life in Palestine—both the daily events that are universal to us all (house parties, concerts, barbecues, and weddings) as well as the violence, trauma, and political tensions that are particular to the country. From idyllic olive groves to Palestinian beer gardens, from Passover in Tel Aviv to Ramadan in a Hamas village, readers will find Olson's narrative both suspenseful and discerning. Her irresistible story offers a multi-faceted understanding of the Palestinian perspective on the Israel-Palestine conflict, filling a gap in the West's understanding of the difficult relationship between the two nations. At turns funny, shocking, and galvanizing, *Fast Times in Palestine* is a gripping narrative that challenges our ways of thinking—not only about the Middle East, but about human nature, cultural identity, and our place in the world.
