The Case Against Satan Ray Russell, 2015-10-13 Teenager Susan Garth was a clean-talking sweet little girl of high school age before she started having fits-a sudden aversion to churches and a newfound fondness for vulgarity. Then one night,

she strips in front of the parish priest and sinks her nails into his throat. If not madness, then the answer must be demonic possession. To vanquish the Devil, Bishop Crimmings recruits Father Gregory Sargent, a younger priest with a taste for modern ideas and brandy. As the two men fight not just the darkness tormenting Susan but also one another, a soul-chilling revelation lurks in the shadows-one that knows that the darkest evil goes by many names.

*Shock Value* Jason Zinoman, 2011-07-07 An enormously entertaining account of the gifted and eccentric directors who gave us the golden age of modern horror in the 1970s, bringing a new brand of politics and gritty realism to the genre. Much has been written about the storied New Hollywood of the 1970s, but at the same time as Martin Scorsese, Steven Spielberg, and Francis Ford Coppola were making their first classic movies, a parallel universe of directors gave birth to the modern horror film-aggressive, raw, and utterly original. Based on unprecedented access to the

genre's major players, The New York Times's critic Jason Zinoman's Shock Value delivers the first definitive account of horror's golden age. By the late 1960s, horror was stuck in the past, confined mostly to drive-in theaters and exploitation houses, and shunned by critics. Shock Value tells the unlikely story of how the much-disparaged horror film became an ambitious art form while also conquering the multiplex. Directors such as Wes Craven, Roman Polanski, John Carpenter, and Brian De Palma- counterculture types operating largely outside the confines of Hollywood- revolutionized the genre, exploding taboos and bringing a gritty aesthetic, confrontational style, and political edge to horror. Zinoman recounts how these directors produced such classics as Rosemary's Baby, Carrie, The Texas Chainsaw Massacre, and Halloween, creating a template for horror that has been imitated relentlessly but whose originality has rarely been matched. This new kind of film dispensed with the old vampires and werewolves and instead assaulted audiences with portraits of serial killers, the dark side of suburbia, and a brand of nihilistic violence that had never been seen before. Shock Value tells the improbable stories behind the making of these movies, which were often directed by obsessive and insecure young men working on shoestring budgets, were funded by sketchy investors, and starred porn stars. But once The Exorcist became the highest grossing film in America, Hollywood took notice. The classic horror films of the 1970s have now spawned a billion-dollar industry, but they have also penetrated

deep into the American consciousness. Quite literally, Zinoman reveals, these movies have taught us what to be afraid of. Drawing on interviews with hundreds of the most important artists in horror, Shock Value is an enthralling and personality-driven account of an overlooked but hugely influential golden age in American film.

*Haunted Houses* Robert D. San Souci, 2010-07-20  
Scare-master Robert San Souci serves up ten chilling tales about untraditional haunted houses: a mansion full of pirate treasure, a ghost trapped in a mysterious dollhouse, a boy whose vacation house comes complete with people-eating spiders, and many more. But beware because not all of the protagonists in these stories get out alive.

The Damned Thing Ambrose Bierce, 2012-05-01  
Best known as a master of searing satire, American author Ambrose Bierce was also an accomplished short story writer. The engrossing tale *The Damned Thing* presents as its central theme the ultimately unknowable -- and untameable -- essence of nature and the natural world. Told from several different perspectives, the story focuses on a freak fatal accident that is written off as a wild animal attack. But does that description get at the truth of the matter? At least one witness is convinced otherwise. Read *The Damned Thing* to try your own hand at solving the case.

Scary Stories to Tell in the Dark Alvin Schwartz, 2010-07-27  
Are you brave enough for Scary Stories? Some boys and girls were at a party one night. There was a graveyard down the street, and they were talking about how scary it was. Don't

ever stand on a grave after dark, one of the boys said. The person inside will grab you. A grave doesn't scare me, said one of the girls. I'll do it right now. . . . Welcome to the macabre world of Scary Stories. Inside, you'll find alarming tales of horror, dark revenge, and the supernatural, with spine-tingling illustrations by renowned artist Brett Helquist.

*Wear and Scare* M. T. Coffin, 1997 Sam and his friends plan a school Halloween event that includes wearing some very real looking costumes from a local store. But there's something very terrifying about the costumes, and the store owner isn't telling anyone the secret.

*The Deep* Nick Cutter, 2015-07-28 A strange plague called the 'Gets is decimating humanity on a global scale. It causes people to forget--small things at first, like where they left their keys, then the not-so-small things like how to drive or the letters of the alphabet. Then their bodies forget how to function involuntarily. There is no cure. But far below the surface of the Pacific Ocean, a universal healer hailed as 'ambrosia' has been discovered. In order to study this phenomenon, a special research lab has been built eight miles under the sea's surface. When the station goes incommunicado, a brave few descend through the lightless fathoms in hopes of unraveling the mysteries lurking at those crushing depths...and perhaps to encounter an evil blacker than anything one could possibly imagine--Page [4] of cover.
