Becoming a Teaching Assistant Pat Drake, Angela Jacklin, Carol Robinson, Jo Thorp, 2003-10-18 The authors introduce students to the requirements that their degree programmes will make and explore issues such as behaviour management and national curriculum strategies, helping readers to engage with the material in a way that is appropriate to Higher Education study. The book draws on the experiences of teaching assistants and is grounded in the day-to-day practices of professionals working with young people in schools. Theoretical concepts are explored as being crucial to developing learning support and teaching skills. The authors' aim is to help students understand essential theory, and to provide a practical support throughout their studies. This book is for teaching assistants working toward High Level Teaching Assistant status in teaching and learning (HLTA), and/or Qualified Teacher Status (QTS). It is a teaching resource for Higher Education tutors and school line managers of teaching assistants. The book is also suitable for tutors and mentors as it gives guidance on content and presentation of professional development materials for teaching assistants. This book is a course text for teaching assistants. It helps students make the transition into undergraduate level study, and is also a teaching and learning resource for students and tutors on undergraduate programmes.

Teaching Assistant's Handbook Louise Burnham, 2003

Maximising the Impact of Teaching Assistants in Primary Schools Rob Webster, Paula Bosanquet, Sally Franklin, Matthew Parker, 2021-05-16 Drawing on the lessons from one of the world's leading research and development efforts involving teaching assistants (TAs), this book is the authors' most authoritative text yet on how to design a whole school plan to improve TAs' deployment, practice and preparedness, and put it into action. The authors use robust theories and original research to explore an innovative and integrated approach to making the most of TAs, and recognising the valuable contributions they make to the classroom and the school. Structured around a unique and empirically sound conceptual framework, this book provides essential principles, practical tools and workable strategies, developed through collaboration with hundreds of UK schools. It focuses on ensuring TAs can thrive in their role, and presents the tools and techniques needed to do so accessibly, and is illustrated with case studies on school and classroom practices. Essential reading for all primary school leaders and SENCOs responsible for training and managing TAs, this book is also a useful resource for teachers and teaching assistants looking to optimise the TAs' contributions. Used in combination with *The Teaching Assistant's Guide to Effective Interaction*, *Maximising the Impact of Teaching Assistants in Primary Schools* is a comprehensive and unrivalled guide to supporting school workforce improvement.

The Effective Teaching Assistant Abigail Gray, Melanie Wright, 2021 Aimed at teaching assistants who work closely with children with special educational needs, *The Effective Teaching Assistant: A Practical Guide to Supporting Achievement for Pupils with SEND* is a practical and accessible resource tailored precisely for teaching assistants' specific needs, which explores both the opportunities and limitations presented by their role. Each

chapter provides both training activities and teaching resources designed to assist TAs/HLTAs in reflecting on their own experience while enhancing current practice. The chapters address key topics including SEND and inclusive teaching Multi-sensory teaching Supporting differentiation or adaptive teaching. Supplemented with checklists and useful diagrams, this text is essential reading for teaching assistants, students and practitioners. It is particularly relevant for students working in undergraduate, post graduate and professional development programmes. The support materials for this book are in the process of being uploaded. Maximising the Impact of Teaching Assistants Rob Webster,Anthony Russell,Peter Blatchford,2015-10-05 Teaching assistants are an integral part of classroom life, yet pioneering research by the authors has shown schools are not making the most of this valued resource. Evidence shows the more support pupils receive from TAs, the less academic progress they made. Yet the reason for this has little to do with TAs. It is decisions made about them by school leaders and teachers that best explain this provocative finding. The fully updated second edition of this book draws on the experiences of schools that have put this guidance into action via the Maximising the Impact of Teaching Assistants programme. Revised to reflect the latest research evidence and changes within education, including the 2014 SEND Code of Practice, this book will help school leaders and teachers in primary and secondary settings to rethink the role, purpose and contribution of TAs, and add real value to what can be achieved in classrooms. Setting out a field-tested process, structured around a coherent and empirically sound conceptual framework, this book: helps school leaders review, reform and reenergise their TA workforce provides practical strategies to implement in the classroom illustrates key points with new case studies provides photocopiable templates and resources to support decision-making and action. Maximising the Impact of Teaching Assistants provides much-needed and evidence-informed guidance on how to unleash the huge potential of TAs, and is essential reading for all school leaders.
