OR IT MAY BE THE LAST SOUND YOU EVER MAKE . . . Cassidy came home to Prosperity to put the past behind her, but it seems the past isn’t finished with Cassidy. The Scream Laurent Graff,2018-12-06 The story of a solitary soul living at the end of the world, continuing his daily routine of going to work in a toll booth on the highway. A terrible, mysterious sound that seems to come from nowhere is wiping out the population, and every day fewer and fewer people come by in their cars. But not everyone can hear the sound, and very soon the only survivors will be those few ‘silent ones’ left unharmed. What

peculiar power does a stolen painting of Munch's *The Scream* exert? Why does reality become stranger and indeed crueller than fiction? *The Scream* begins in the twilight zone of science fiction, taking the reader on a hallucinatory road trip like no other. Reviews ... one of his most successful books. It must be approached like the other books of Graff: do not ask too many question at first reading, be content with being carried away by the style and adventures of the protagonist. In the end, you will discover that the depth of the book is inversely proportional to its number of pages. As usual. ***** Goodreads "There is no doubt about it, the writer of *The Scream* is an extravagant and profound story teller." -- Le Monde des Livres Laurent Graff's books are crazy, weird, outlandish, which makes them totally indispensable. --www.event.fr ...blends together reality with fiction... what the narrator is really looking for is himself. -- Le Progres ABOUT THE AUTHOR Laurent Graff is highly-acclaimed French author who 'cultivates discretion and self-effacement' and hopes to live as long as he can. His novel *Happy Days* has been translated into 15 languages and Johnny Depp has been trying (and failing) to make it into a film for many years.

While Sabrina's friends and her sister, Faith, talk nonstop about the creepy viral videos, Sabrina just hopes that covering this trend will get her the internship she's wishing for. But as she digs into the truth behind the website, she begins to suspect that these aren't only aspiring actors and videographers at work. Some clips seem a little too real. And when Faith goes missing, Sabrina must race against time to save her sister from becoming the next video star.

Screams & Nightmares Brian J. Robb,2022-06-16 Writer, producer, and director Wes Craven has successfully tapped into the horror vein for over forty years, serving up scary, funny, cutting-edge thrillers that have become classics in the genre. His films have been both critical and commercial successes, most notably *Nightmare on Elm Street*, which spawned a series of sequels and made Craven (and his creation, Freddy Kruger) an international sensation. He then created a second indelible series in the horror movie trope with *Scream*. In *Screams & Nightmares*, Brian J. Robb examines Craven's entire career, from his low-budget beginnings to his most recent box office hits, from the banned thriller *The Last House on the Left* and the cult classic *The Hills Have Eyes* to the outrageous *Shocker* and *The People Under the Stairs*. Through exclusive interviews with Craven, Robb provides in-depth accounts of the making of each of the films – including the final installments of the *Scream* series – Craven's foray into writing novels, and his numerous television projects.

Scream Margee Kerr,2015-09-29 Shiver-inducing science not for the faint of heart. No one studies fear quite like Margee Kerr. A sociologist who moonlights at one of America's scariest and most popular haunted houses, she has seen grown men laugh, cry, and push their loved ones aside as they run away in terror. And she's kept careful notes on what triggers these responses and why. Fear is a universal human experience, but do we really understand it? If we're so terrified of monsters and serial killers, why do we flock to the theaters to see them? Why do people avoid thinking about death, but jump out of planes and swim with sharks? For Kerr, there was only one way to find out. In this eye-opening, adventurous book, she takes us on a tour of the world's scariest experiences: into an abandoned prison long after dark, hanging by a cord from the highest tower in the Western hemisphere, and deep into Japan's mysterious "suicide forest." She even goes on a ghost hunt with a group of paranormal adventurers. Along the way, Kerr shows us the surprising science from the newest studies of fear--what it means, how it works, and what it can do for us. Full of entertaining science and the thrills of a good ghost story, this book will make you think, laugh--and scream.
