Michael Allen's 2012 e-Learning Annual Michael W. Allen, 2011-07-26 The field of e-learning continues to experience dramatic and turbulent growth. Over time, as technology has improved and the method's real capabilities have emerged, e-learning has gained widespread acceptance and is now the fastest growing sector of corporate learning. As in years past, Michael Allen's Annual offers a diverse and important collection that contains some of the most current insights and best practices that will help both educators and workplace learning leaders address issues of design and implementation, as well as strategy and culture. In addition, this new volume offers a diverse mix of content that spans the full spectrum of technology-based learning. Year after year, the Annual discusses emerging trends in social media; showcases e-learning innovation; presents contemporary- and best-practices; tackles big-picture, strategic issues; and provides a host of useful tips and techniques. Additional content is also available online. Praise for Michael Allen's 2012 e-Learning Annual Michael Allen's Annual really is annual. I found new examples and provocative ideas—just what I was looking for. —Allison Rossett, professor of educational technology, San Diego State University Just another academic anthology? Hardly! Michael Allen has convinced e-learning's super-heroes to join forces to crush complacency, demolish dogma, rewrite rules, streamline strategies, and light a brighter future for e-learning. Warning: The accumulated wisdom and original thinking of this elite team of designers, practitioners, consultants, and researchers will leave you dissatisfied with your current e-learning efforts and aching to put their ideas into play. —William Horton, author, *e-Learning by Design* and consultant, William Horton Consulting The real learning at conferences takes place in the hallways. This wonderful book is like eavesdropping on those conversations, except that Michael has put the top thinkers in our field in the hall for you. —Jay Cross, chairman, Internet Time Alliance Nabeel Ahmad Clark Aldrich Bobbe Baggio Tony Bingham Julia Bulkowski Bryan Chapman Phil Cowcill Allan Henderson Peter Isackson Cheryl Johnson Cathy King Leslie Kirshaw Tina Kunshier David Metcalf Corinne Miller Craig Montgomerie Frank Nguyen Maria Plakhotnik Tonette Rocco Anita Rosen Patti Shank Clive Shepherd Martyn Sloman Belinda Smith Susan Smith Nash Ken Spero Carla Torgerson Thomas Toth Reuben Tozman Marc Weinstein

Just Wanna Trademark for Makers Sidne K. Gard, Elizabeth Townsend Gard, 2023-09-25 Creatives, it's time to secure those trademarks! Securing a trademark can be complicated, time-consuming, costly, and all too often unsuccessful. The resources currently on the market are not aimed at creative professionals, leaving them guessing at critical information or wrangling with examples without relatable context. *Just Wanna Trademark for Makers* offers easy-to-understand legal information created specifically for creative entrepreneurs and professionals. Going beyond the quilt-focused first edition, this newly revised book has updated information, new examples, and cases that show all creative entrepreneurs how to navigate the process of securing a trademark. Made for makers! All the legal information is broken down with clear examples so you can proceed confidently. Get expert insight

to protect your work and avoid legal pitfalls from experts that understand the art and craft world. Learn from real-world examples represented by a wide range of arts and crafts, including quilting, candlemaking, cosplay, writing, woodworking, music, museums, and much more.

Investigating Internet Crimes Todd G. Shipley, Art Bowker, 2013-11-12 Written by experts on the frontlines, *Investigating Internet Crimes* provides seasoned and new investigators with the background and tools they need to investigate crime occurring in the online world. This invaluable guide provides step-by-step instructions for investigating Internet crimes, including locating, interpreting, understanding, collecting, and documenting online electronic evidence to benefit investigations. Cybercrime is the fastest growing area of crime as more criminals seek to exploit the speed, convenience and anonymity that the Internet provides to commit a diverse range of criminal activities. Today's online crime includes attacks against computer data and systems, identity theft, distribution of child pornography, penetration of online financial services, using social networks to commit crimes, and the deployment of viruses, botnets, and email scams such as phishing. Symantec's 2012 Norton Cybercrime Report stated that the world spent an estimated \$110 billion to combat cybercrime, an average of nearly \$200 per victim. Law enforcement agencies and corporate security officers around the world with the responsibility for enforcing, investigating and prosecuting cybercrime are overwhelmed, not only by the sheer number of crimes being committed but by a lack of adequate training material. This book provides that fundamental knowledge, including how to properly collect and document online evidence, trace IP addresses, and work undercover. Provides step-by-step instructions on how to investigate crimes online Covers how new software tools can assist in online investigations Discusses how to track down, interpret, and understand online electronic evidence to benefit investigations Details guidelines for collecting and documenting online evidence that can be presented in court

Designing Effective Library Tutorials Lori Mestre, 2012-10-23 Learning styles are highly relevant for students in the online environment. *Designing Effective Library Tutorials* provides examples of, and steps for, how to create tutorials that match learning styles, based on usability studies of students from various cultural groups and styles of learning. The book presents studies, practical suggestions, and examples to assist librarians and faculty as they develop online programs for students from diverse learning styles. Research on learning style preferences in the online environment emphasizes the need to provide a variety of methods that include text, aural, visual, and kinesthetic examples. Geared for the practitioner working in online learning, the book summarizes current literature, and presents best practices for designing effective online tools for diverse learners, including suggestions for assessment of learning objects. This title is structured into twelve chapters, covering: The learning style debate: do we need to match up learning styles with presentation styles? Overview of learning style theories and learning style results from various studies; The intersection of culture and learning styles; The need for learning object development; Current practice: categories and features of library tutorials; Effective design of learning objects; Pedagogical considerations for tutorials; Interactivity options for tutorials; Assessment of learning objects; The value and process of usability studies; Marketing

learning objects for broad visibility; and a section on resources. Provides results from usability studies conducted with students that assess learning style and the resulting effectiveness of tutorials based on their preferred style Compares approaches and software used by librarians and educators to create tutorials, along with examples of pitfalls and benefits of each for various learning styles Incorporates examples of ways to use software while including learning objects to match learning style

Creative Technologies for Multidisciplinary Applications Connor, Andy M.,2016-03-29 Given that institutions of higher education have a predisposition to compartmentalize and delineate areas of study, creative technology may seem oxymoronic. On the contrary, the very basis of western thought is found in the idea of transcendent knowledge. The marriage of opposing disciplines therefore acts as a more holistic approach to education. Creative Technologies for Multidisciplinary Applications acts as an inspiration to educators and researchers who wish to participate in the future of such multidisciplinary disciplines. Because creative technology encompasses many applications with the realm of art, gaming, the humanities, and digitization, this book features a diverse collection of relevant research for the modern world. It is a pivotal reference publication for educators, students, and researchers in fields related to sociology, technology, and the humanities.

There are also thumbnails below more detailed maps - in these cases, you can opt to zoom left/top or zoom right/bottom or view the full map. The screen-lock function on your device is recommended when viewing enlarged maps. Make sure you have the latest software updates, too. Throughout the guide, we've flagged up our favourite places - a perfectly sited hotel, an atmospheric café, a special restaurant. You can select your own favourites and create a personalized itinerary by bookmarking the sights, venues and activities that are of interest, giving you the quickest possible access to everything you'll need for your time away.

Multiple Criteria Decision Making for Sustainable Energy and Transportation Systems Matthias Ehr Gott, Boris Naujoks, Theodor Stewart, Jyrki Wallenius, 2010-03-10 In the twenty-first century the sustainability of energy and transportation systems is on the top of the political agenda in many countries around the world. Environmental impacts of human economic activity necessitate the consideration of conflicting goals in decision making

processes to develop sustainable systems. Any sustainable development has to reconcile conflicting economic and environmental objectives and criteria. The science of multiple criteria decision making has a lot to offer in addressing this need. Decision making with multiple (conflicting) criteria is the topic of research that is at the heart of the International Society of Multiple Criteria Decision Making. This book is based on selected papers presented at the societies 19th International Conference, held at The University of Auckland, New Zealand, from 7th to 12th January 2008 under the theme MCDM for Sustainable Energy and Transportation Systems''.
