The Ecology of Power Michael J. Heckenberger, 2004-03-01 In 1884 a community of Brazilians was discovered by the Western world. The Ecology of Power examines these indigenous people from the Upper Xingu region, a group who even today are one of the strongest examples of long-term cultural continuity. Drawing upon written and oral history, ethnography, and archaeology, Heckenberger addresses the difficult issues facing anthropologists today as they uncover the muted voices of indigenous peoples and provides a fascinating portrait of a unique community of people who have in a way become living cultural artifacts.

Tropical Visions in an Age of Empire Felix Driver, Luciana Martins, 2010-11-15 The contrast between the temperate and the tropical is one of the most enduring themes in the history of the Western geographical imagination. Caught between the demands of experience and representation, documentation and fantasy, travelers in the tropics have often treated tropical nature as a foil to the temperate, to all that is civilized, modest, and enlightened. *Tropical Visions in an Age of Empire* explores images of the tropical world—maps, paintings, botanical drawings, photographs, diagrams, and texts—produced by European and American travelers over the past three centuries. Bringing together a group of distinguished contributors from disciplines across the arts and humanities, this volume contains eleven beautifully illustrated essays—arranged in three sections devoted to voyages, mappings, and sites—that consider the ways that tropical places were encountered, experienced, and represented in visual form. Covering a wide range of tropical sites in the Pacific, South Asia, West Africa, the Caribbean, and Latin America, the book will appeal to a broad readership: scholars of postcolonial studies, art history, literature, imperial history, history of science, geography, and anthropology.

The Yellow Wallpaper & Herland Charlotte Perkins Gilman, 2021-06-24 Charlotte Perkins Gilman's progressive views on feminism and mental health are powerfully showcased in her two most famous stories. *The Yellow Wallpaper* skillfully charts one woman's struggle with depression whilst *Herland* is an entertaining imagining of an all female utopia. Part of the Macmillan Collector's Library; a series of stunning, clothbound, pocket-sized classics with gold foiled edges and ribbon markers. These beautiful books make perfect gifts or a treat for any book lover. This edition is introduced by journalist and author Lucy Mangan. Confined to her attic bedroom and isolated from her newborn baby, the nameless narrator of *The Yellow Wallpaper* keeps a secret diary in which she records the sprawling and shifting patterns of the room's lurid yellow wallpaper as she slowly sinks into madness. This chilling story is based on the author's own experience of depression. In *Herland*, a trio of men set out to discover an all-female community rumoured to be hidden deep in the jungle. What they find surprises them all; they're captured by women who,

for two thousand years, have lived in a peaceful and prosperous utopia without men.

A Year with Swollen Appendices Brian Eno, 2020-11-17 The diary and essays of Brian Eno republished twenty-five years on with a new introduction by the artist in a beautiful hardback edition. 'One of the seminal books about music . . . an invaluable insight into the mind and working practices of one of the industry's undeniable geniuses.' GUARDIAN At the end of 1994, Brian Eno resolved to keep a diary. His plans to go to the cinema, theatre and galleries fell quickly to the wayside. What he did do - and write - however, was astonishing: ruminations on his collaborative work with David Bowie, U2, James and Jah Wobble, interspersed with correspondence and essays dating back to 1978. These 'appendices' covered topics from the generative and ambient music Eno pioneered to what he believed the role of an artist and their art to be, alongside adroit commentary on quotidian tribulations and happenings

around the world. This beautiful 25th-anniversary hardcover edition has been redesigned in the same size as the diary that eventually became this book. It features two ribbons, pink paper delineating the appendices (matching the original edition) and a two-tone paper-over-board cover, which pays homage to the original design. An intimate insight into one of the most influential creative artists of our time, *A Year with Swollen Appendices* is an essential classic.

An Eye for the Tropics Krista A. Thompson, 2007-03-15 Images of Jamaica and the Bahamas as tropical paradises full of palm trees, white sandy beaches, and inviting warm water seem timeless. Surprisingly, the origins of those images can be traced back to the roots of the islands' tourism industry in the 1880s. As Krista A. Thompson explains, in the late nineteenth century, tourism promoters, backed by British colonial administrators, began to market Jamaica and the Bahamas as picturesque "tropical" paradises. They hired photographers and artists to create carefully crafted representations, which then circulated internationally via postcards and illustrated guides and lectures. Illustrated with more than one hundred images, including many in color, *An Eye for the Tropics* is a nuanced evaluation of the aesthetics of the "tropicalizing images" and their effects on Jamaica and the Bahamas. Thompson describes how representations created to project an image to the outside world altered everyday life on the islands. Hoteliers imported tropical plants to make the islands look more like the images. Many prominent tourist-oriented spaces, including hotels and famous beaches, became off-limits to the islands' black populations, who were encouraged to act like the disciplined, loyal colonial subjects depicted in the pictures. Analyzing the work of specific photographers and artists who created tropical representations of Jamaica and the Bahamas between the 1880s and the 1930s, Thompson shows how their images differ from the English picturesque landscape tradition. Turning to the present, she examines how tropicalizing images are deconstructed in works by contemporary artists—including Christopher Cozier, David Bailey, and Irénée Shaw—at the same time that they remain a staple of postcolonial governments' vigorous efforts to attract tourists.
