Live from Medicine Park Constance

Squires, 2017-10-05 Documentary filmmaker Ray Wheeler is down on his luck. Embroiled in a lawsuit, he is reeling from the consequences of a near-fatal shooting on his last film, and has just lost his teaching gig. Broke and beleaguered, he can't afford to be particular about his next project. So when a former student invites him to film the comeback of Lena Wells, an iconic rock-and-roll singer who hit it big in the seventies, more than two decades earlier, he reluctantly agrees—even though he doesn't like her music. When Ray arrives at Lena's hometown of Medicine Park, Oklahoma, a defunct resort community, he is determined to approach his topic with the professional detachment that has guided his career. His work ethic is modeled on the prime directive of Star Trek: never interfere with an alien civilization. But with only five days left

before Lena's comeback concert, Ray quickly runs afoul of his subject, who places him on a one-week probation. The terms: impress her or else. It doesn't take long before Ray violates his own ethical standards. Drawn romantically toward Lena, he also fails to prevent himself from interfering with the lives of the people closest to her, including her only son, Gram, whose paternity is a mystery even to himself; her daughter-in-law, Jettie; and the enigmatic guitar player Cyril Dodge. When disaster strikes Ray's set again, this time in Medicine Park, he must face truths he has avoided for too long—about love, relationships, and responsibility. An ode to both southwestern Oklahoma and rock music, *Live from Medicine Park* is a bittersweet reflection on the search for identity and purpose amid tragedy. As the novel reaches its climax, Ray sets out on one last adventure to set things right. Redemption may be possible—but only on its own terms.

The Yellow Wallpaper and Other Writings Charlotte Perkins Gilman, 2019-08-06 Part of the Gibbs Smith Women's Voices series: A collection of literary voices written by, and for, extraordinary

women—to encourage, challenge, and inspire. Charlotte Perkins Gilman (1860–1935) championed women's rights in her prolific fiction, nonfiction, and poetry. Discover three influential works by one of America's first feminists in their unabridged form: the short story *The Yellow Wallpaper*, a haunting interpretation of postpartum depression; the feminist utopian novel *Herland*; and *Women and Economics*, which when published in 1898 established Gilman as a sociologist, philosopher, ethicist, and social critic, and is considered by many to be her greatest work. Continue your journey in the *Women's Voices* series with *Jane Eyre*, by Charlotte Bronte (ISBN: 978-1-4236-5099-7), *The Feminist Papers*, by Mary Wollstonecraft (ISBN: 978-1-4236-5097-3), *Hope Is the Thing with Feathers*, the complete poems of Emily Dickinson (ISBN: 978-1-4236-5098-0), and *Little Women*, by Louisa May Alcott (ISBN: 978-1-4236-5211-3).

Strange Sea Creatures Erich Hoyt, 2024-03 A young wunderpus octopus, staring you right in the eye, is the perfect choice for the opening spread of Eric Hoyt's latest book celebrating the oceans' wonders... Page after page, we see the surprising shapes, colors and intricate details of secretive

animals -- many in their juvenile forms -- that dash to the surface on nocturnal forays. Hoyt's curated collection of images from various underwater photographers continues into the deep twilight zone and onto the seabed, showcasing the mesmerizing range of life far beneath the waves. -

-BBC Wildlife Magazine Marine researchers are discovering new ocean creatures every day, from the warm surface water to the deepest seabed. From the author of *Creatures of the Deep* and other books about the ocean and the creatures that live there, comes this updated softcover edition about some of the most unusual marine life forms. The book organizes the creatures into three parts based on where they live in the ocean. Informative captions accompany the 90 gorgeous photographs of otherworldly creatures.

Part 1. Surface Waters of the Ocean at Night: The Blackwater Vertical Migrators In images taken by dedicated blackwater photographers Linda Ianniello and Susan Mears, these mostly larval creatures haunt the near-surface waters making vertical migrations every night to feed.

Part 2. Middle to Deep Dark Waters: Masters of the Language of Light In this perpetual night, survival is a matter of being able to understand and process light signals, some in different colors, some flashing, some faint -- the most sophisticated use of bioluminescence on Earth. The sea creatures here are small with big eyes and even larger mouths with extraordinarily sharp teeth.

Part 3. The Continental Shelf to the Abyssal Plain: The Bottom Dwellers This bottom of the sea has fewer fish, and is populated by such alien-like creatures as no-eyed or tripod fish,

sea cucumbers, as well as basket stars, crabs, and worms with species varying by depth and location. The photographs were taken in the ocean by expert divers and submariners, most of whom are both scientists and underwater photographers. The images display the creatures vividly against a background as black as the ocean depths.

Monomania Marina Van Zuylen, 2018-05-31 This book is about the obsessive strategies people use to keep the arbitrary out of their lives; it is about the fanaticism and intolerance linked to their ideas of perfection and permanence.... Those

readers who have brushed against the dangers of the *idée fixe*, who have come close to surrendering to something or someone diabolically seductive or coercive, will recognize in these characters their own encounter with a dangerously systematized world.—From the introduction. *Monomania* explores the cultural prominence of the *idée fixe* in Western Europe during the nineteenth and twentieth centuries. Marina van Zuylen revives the term monomania to explore the therapeutic attributes of obsession. She introduces us to artists and collectors, voyeurs and scholars, hypochondriacs and melancholics, whose lives are run by debilitating compulsions that may become powerful weapons against the tyranny of everyday life. In van Zuylen's view, there is a productive tension between disabling fixations and their curative powers; she argues that the *idée fixe* has acted as a corrective for the multiple disorders of modernity. The authors she studies—Charles Baudelaire, Sophie Calle, Elias Canetti, George Eliot, Gustave Flaubert, and Thomas Mann among them—embody or set in motion different manifestations of this monomaniacal imperative. Their protagonists or alter egos live more intensely, more meaningfully, because of the compulsive pressures they set up for themselves. *Monomania* shows that transforming life into art, or at least into the artful, drives out the anxiety of the void and puts in its place something so orderly and meaningful that it can take on the aura of a religion.

The Bronx Nobody Knows William B. Helmreich, 2023-08-08 A neighborhood-by-

neighborhood guide to New York City's northern borough, from the award-winning author of *The New York Nobody Knows* Bill Helmreich walked every block of New York City—some six thousand miles—to write the award-winning *The New York Nobody Knows*. Later, he re-walked most of the Bronx to create this one-of-a-kind walking guide to the city's northern borough, from Mott Haven to City Island. Drawing on hundreds of conversations he had with residents during his block-by-block journey through this fascinating, diverse, and underappreciated borough, Helmreich highlights hundreds of facts and points of interest that you won't find in any other guide. In the West Bronx, you'll discover the spot where DJ Cool Herc is believed to have given birth to hip hop in 1973, at a party on Sedgwick Avenue overlooking the Harlem River. In Concourse East, once home to a vibrant Jewish community, you will learn about a beautiful, perfectly preserved, hidden synagogue. In Allerton, you will visit a family-run Italian bakery where the third-generation owner still makes his own cannoli and uses the original recipe for their famous rainbow cookies. In Pelham Parkway/Pelham Gardens, you will explore the city's largest park, the stunning 2,700-acre Pelham Bay Park. And much, much more. An unforgettably vivid chronicle of today's Bronx, the book can be enjoyed without ever leaving home—but it's almost guaranteed to inspire you to get out and explore this captivating borough. Covers every one of the Bronx's neighborhoods, providing a colorful portrait of their most interesting, unusual, and unfamiliar people,

places, and things Each neighborhood section features a brief overview and history; a detailed, user-friendly map keyed to the text; photographs; and a lively guided walking tour Draws on the author's walk through every Bronx neighborhood Includes insights from conversations with hundreds of residents

Never Home Alone Rob Dunn, 2018-11-06 A natural history of the wilderness in our homes, from the microbes in our showers to the crickets in our basements Even when the floors are sparkling clean and the house seems silent, our domestic domain is wild beyond imagination. In *Never Home Alone*, biologist Rob Dunn introduces us to the nearly 200,000 species living with us in our own homes, from the Egyptian meal moths in our cupboards and camel crickets in our basements to the lactobacillus lounging on our kitchen counters. You are not alone. Yet, as we obsess over sterilizing our homes and separating our spaces from nature, we are unwittingly cultivating an entirely new playground for evolution. These changes are reshaping the organisms that live with us -- prompting some to become more dangerous, while undermining those species that benefit our bodies or help us keep more threatening organisms at bay. No one who reads this engrossing, revelatory book will look at their homes in the same way again.
