I Hear America Singing Walt Whitman,2001 Walt Whitman (1819-92) is the authentic voice of democratic America. After a childhood in Brooklyn, he spent many years in and around Manhattan and Washington, where he witnessed troops returning from the Civil War and tended wounded soldiers in the camp hospitals. Whitman's broad humanity, his love of cities (especially Manhattan), his sympathy with all conditions of people, and his visionary - even prophetic - sense of the reality of the American dream make him as much a poet for our time as he was for the time of the American Civil War and its aftermath. This selection of courageous and consoling poems focuses on Whitman's vision of democracy, his love of Manhattan, his sense of the future - and of the community of peoples of this earth.

Ten on the Sled Kim Norman,2011-06-28 Author Kim Norman (Crocodaddy) and illustrator Liza Woodruff have whipped up a rollicking, jolly, snow-filled adventure! In the land of the midnight sun, all the animals are having fun speeding down the hill on Caribous sled. But as they go faster and faster, Seal, Hare, Walrus, and the others all fall off...until just Caribous left, only and lonely. Now, a reindeer likes flying-but never alone, so...one through ten, all leap on again! An ideal picture book for reading-and singing along with-over and over.

Funds of Knowledge Norma Gonzalez,Luis C. Moll,Cathy Amanti,2006-04-21 The concept of funds of knowledge is based on a simple premise: people are competent and have knowledge, and their life experiences have given them that knowledge. The claim in this book is that first-hand research experiences with families allow one to document this competence and knowledge, and that such engagement provides many possibilities for positive pedagogical actions. Drawing from both Vygotskian and neo-sociocultural perspectives in designing a methodology that views the everyday practices of language and action as constructing knowledge, the funds of knowledge approach facilitates a systematic and powerful way to represent communities in terms of the resources they possess and how to harness them for classroom teaching. This book accomplishes three objectives: It gives readers the basic methodology and techniques followed in the contributors' funds of knowledge research; it extends the boundaries of what these researchers have done; and it explores the applications to classroom practice that can result from teachers knowing the

communities in which they work. In a time when national educational discourses focus on system reform and wholesale replicability across school sites, this book offers a counter-perspective stating that instruction must be linked to students' lives, and that details of effective pedagogy should be linked to local histories and community contexts. This approach should not be confused with parent participation programs, although that is often a fortuitous consequence of the work described. It is also not an attempt to teach parents how to do school although that could certainly be an outcome if the parents so desired. Instead, the funds of knowledge approach attempts to accomplish something that may be even more challenging: to alter the perceptions of working-class or poor communities by viewing their households primarily in terms of their strengths and resources, their defining pedagogical characteristics. Funds of Knowledge: Theorizing Practices in Households, Communities, and Classrooms is a critically important volume for all teachers and teachers-to-be, and for researchers and graduate students of language, culture, and education.
