*iPad for Photographers* Jeff Carlson, 2013-03-30 Apple's latest iPad tablet has been an incredible success and generated a lot of interest from photographers soon after it was released. Instead of hauling a laptop along on vacation or to a photo shoot, a photographer can bring the lightweight iPad and take advantage of its large screen, third-party software, and online access. The iPad is great for reviewing photos on-site using something other than a camera's small LCD, editing photos, presenting a photographer's portfolio, and more. This fully updated 2nd edition of the iPad for Photographers will help novice, intermediate, and pro shooters to:

- Get photos onto the iPad. Import using the camera connection kit.
- Take photos with the iPad.
- Back up photos. Copying photos from memory cards; using iCloud Photo
- Stream as online backup; uploading files to Dropbox; and so on.
- Organize your photos.
- Rate photos and assign tags in the field-- instead of waiting until you get home!
- Edit photos on the iPad.
- Share photos with others: iCloud Photo Stream, play on an Apple TV, and more.
- Create your portfolio. Use portfolio software to give impressive presentations to prospective clients. Great for wedding photographers meeting people face to face, for example.
- Video. Edit clips in iMovie, create slideshows, rough cuts, and more. In addition, photographers will learn other clever uses for their iPad, such as triggering the shutter using an iPad; using the screen as a fill flash; storing PDFs of camera manuals, books, etc.; and much more!

**Icicles** Dale Chihuly, 1998 The creative process and energy of Dale Chihuly is vividly documented in this book. It chronicles the remarkable story of how in the time from Thanksgiving to Christmas 1996, Chihuly's most startling and challenging outdoor installation took form. It started with a 45-minute telephone call to Harriet Bullitt, the guiding force behind the development of the eco-friendly Sleeping Lady Retreat and Conference Center in Leavenworth, Washington. After numerous discussions about a special installation for the Sleeping Lady Chapel, Chihuly had awoken the day after Thanksgiving inspired to drive from Seattle, over the Cascade Mountains, to share his extraordinary vision. Chihuly's team of glassblowers created the Icicle Creek Chandelier of 1200 parts. With the help of engineers, welders, drillers, a lighting designer, a solar consultant, a geologist, a forester, and Chihuly's own installation specialists, it was installed in 20 degree below zero weather and snow. Bullitt concludes her foreword by writing, Seeing how the Icicle Creek Chandelier was made only heightens the sense of wonder one feels at viewing this startling piece. It is a permanent reminder of how a human-made creation can be framed in nature and find harmony within it. The book is a photographic record of the creative process narrated by Chihuly's own words drawn from the myriad voice mail messages that shaped it. This book offers the most intimate and revealing account of Chihuly's creativity and working methods to date.
