Stalefish Sean Mortimer, 2008-04-30 How is being a professional skateboarder different from being, say, a professional golfer? More scabs, for one. Veteran skate journalist Sean Mortimer has interviewed the top skaters of all time to answer that question in meaningful and often humorous ways. Tony Hawk, Stacy Peralta, Lance Mountain, and Rodney Mullen are a handful of the skaters who opine on sacking yourself, skate-induced ulcers, and the various ways in which skating ruins your love life. Including compelling photographs, *Stalefish* documents the gritty oral history of professional skating like no other book.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today.

For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Squash James Zug,2007-11-01 The first comprehensive history of squash in the United States, Squash incorporates every aspect of this increasingly popular sport: men's and women's play, juniors and intercollegiates, singles and doubles, hardball and softball, amateurs and professionals. Invented by English schoolboys in the 1850s, squash first came to the United States in 1884 when St. Paul's School in New Hampshire built four open-air courts. The game took hold in Philadelphia, where players founded the U.S. Squash Racquets Association in 1904, and became one of the primary pastimes of the nation's elite. Squash launched a U.S. Open in 1954, but its present boom started in the 1970s when commercial squash clubs took the sport public. In the 1980s a pro tour sprung up to offer tournaments on portable glass courts in dramatic locales such as the Winter Garden at the World Trade Center. James Zug, with access to private archives and interviews with hundreds of players, describes the riveting moments and sweeping historical trends that have shaped the game. He focuses on the biographies of legendary squash personalities: Eleo Sears, the Boston Brahmin who

swam in the cold Atlantic before matches; Hashim Khan, the impish founder of the Khan dynasty; Victor Niederhoffer, the son of a Brooklyn cop; and Mark Talbott, a Grateful Dead groupie who traveled the pro circuit sleeping in the back of his pickup. A gripping cultural history, *Squash* is the book for which all aficionados of this fast-paced, exciting game have been waiting.

Impossible Country Brian Hall,2011-04-30 'Here is art which conceals art, and intellect which conceals intellect, so that by the end of the book one feels that one understands something one had not understood before. Mr Hall is witty and amusing, but not snide; he has a lightness of touch which allows him to write of extremely serious matters without solemnity; he knows how to convey a great deal in a few words' Sunday Telegraph 'He is an observant and witty writer...you believe implicitly that he has met the people he writes about, and that they said what he quotes them as saying' Sunday Times

The Midnight Bargain C. L. Polk,2020-10-13 From the beloved World Fantasy Award-winning author of *Witchmark* comes a sweeping, romantic new fantasy set in a world reminiscent of Regency England, where women's magic is taken from them when they marry. A sorceress must balance her desire to become the first great female magician against her duty to her family. Beatrice Clayborn is a sorceress who practices magic in secret, terrified of the day she will be locked into a marital collar that will cut off her powers to protect her unborn children. She dreams of becoming a full-fledged Magus and pursuing magic as her calling as men do, but her family has staked everything to equip her for Bargaining Season, when young men and women of means descend upon the city to negotiate the best marriages. The Clayborns are in severe debt, and only she can save them, by securing an advantageous match before their creditors come calling. In a stroke of luck, Beatrice finds a grimoire

that contains the key to becoming a Magus, but before she can purchase it, a rival sorceress swindles the book right out of her hands. Beatrice summons a spirit to help her get it back, but her new ally exacts a price: Beatrice's first kiss . . . with her adversary's brother, the handsome, compassionate, and fabulously wealthy Ianthe Lavan. The more Beatrice is entangled with the Lavan siblings, the harder her decision becomes: If she casts the spell to become a Magus, she will devastate her family and lose the only man to ever see her for who she is; but if she marries—even for love—she will sacrifice her magic, her identity, and her dreams. But how can she choose just one, knowing she will forever regret the path not taken?

Explosive Experiments Stephanie Bearce, 2017 Two thousand years ago, Chinese scientists were looking for a medicine that would make them live forever. Instead, they blew up their lab and discovered gunpowder. Alfred Nobel blew up his laboratory twice before he discovered the formula for dynamite. Learn about the Apollo 13 and Challenger explosions and the strange space explosions caused by top secret Starfish Prime. These stories may sound twisted, but they're all true tales from science! Ages 9-12

The Aleph Extraction Dan Moren, 2020-05-12 Aboard a notorious criminal syndicate's luxurious starliner, Commonwealth operative Simon Kovalic and his crew race to steal a mysterious artifact that could shift the balance of war... Still reeling from a former teammate's betrayal, Commonwealth operative Simon Kovalic and his band of misfit spies have no time to catch their breath before being sent on another impossible mission: to pull off the daring heist of a quasi-mythical alien artifact, right out from under the nose of the galaxy's most ruthless crime lord. But their cold war rivals, the Illyrican Empire, want the artifact for themselves. And Kovalic's newest recruit, Specialist Addy Sayers, is a volatile ex-con with a mean hair-trigger who might put the whole mission at risk. Can Kovalic hold it

all together, or will the team tear themselves apart before they can finish the job? File Under: Science Fiction [Simon Saves | 2.7 Kelvin | Spy-Fi | Kovalic's Five]

The Fat Kitchen Andrea Chesman,2018-11-13 Animal fats are being welcomed back into the kitchen! Chefs and home cooks alike are rediscovering how fats create amazing texture — from the flakiest lard pie crust to the crispiest fried chicken — and define the flavor of a dish like authentic clam chowder with salt pork or duck fat French fries. The Fat Kitchen is the comprehensive guide to rendering and using whole animal fats, including lard, tallow, and poultry fat. Cooks will learn the distinctive qualities and best uses of each fat along with methods for curing and storing them. In addition, 100 scrumptious recipes highlight traditional cultural favorites like matzoh ball soup, pasta carbonara, pork tamales, roast beef with Yorkshire pudding, Southern-style collards, confit chicken, New England baked beans, and jelly doughnuts.

Heaven is a Playground Rick Telander,1995-01-01 In 1974, Rick Telander intended to spend a few days doing a magazine piece on the court wizards of Brooklyn's Bedford-Stuyvesant. He ended up staying the entire summer, becoming part of the players' lives and eventually the coach of a loose aggregation known as the Subway Stars. Telander tells of everything he saw: the on-court flash, the off-court jargon, the late-night graffiti raids, the tireless efforts of one promoter-hustler-benefactor to get these kids a chance at a college education. He lets the kids speak for themselves, revealing their grand dreams and ambitions. But he never flinches from showing us how far their dreams are from reality. The roots of today's inner-city basketball can be traced to the world Telander presents in *Heaven is a Playground*, the first book of its kind. Rick Telander is a senior writer for *Sports Illustrated*

and the winner of the 1987 Notre Dame Club Award for Excellence in Sports Journalism.
