Famine in North Korea Stephan Haggard,Marcus Noland,2009-06-22 In the mid-1990s, as many

as one million North Koreans died in one of the worst famines of the twentieth century. Stephan Haggard and Marcus Noland present the most comprehensive and penetrating account of the famine to date, examining not only the origins and aftermath of the crisis but also the regime's response to outside aid and the effect of its current policies on the country's economic future. North Korea's famine exemplified the depredations that can arise from tyrannical rule and the dilemmas such regimes pose for the humanitarian community. To reveal the state's culpability is a vital project of historical recovery, especially in light of our current engagement with the North Korean question.

Made in Korea Richard M. Steers, 2013-08-21 American business folklore is awash with the adventures of successful entrepreneurs. Still, most of these stories are about Americans, neglecting important and courageous entrepreneurs from other countries. *Made in Korea* recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building

empires - Hyundai - through a combination of creative thinking, tenacity, timing, political skills, and a business strategy that few competitors ever understood. Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail, and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEO's of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity and a capacity to never give up - this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed, regardless of the obstacles, and he worked tirelessly to instil this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North

Korea in 1998, *Made in Korea* takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.

Korea Vision Alessandra Valletti, 2019-08-05 This book does not aim to be an International travel guide of what you can do and can find in South Korea, but it solely represents my vision of it. I was fascinated by the culture and the lifestyle Korean people look to have, and I wanted to put my thoughts on it. There are little written parts in Italian, but it is accessible to every one, since it is mostly centered on the photos I took there.
