Jody Rake, Sea World

Death at SeaWorld David Kirby, 2012-07-17 From the New York Times bestselling author of *Evidence of Harm* and *Animal Factory*—a groundbreaking scientific thriller that exposes the dark side of SeaWorld, America's most beloved marine mammal park *Death at SeaWorld* centers on the battle with the multimillion-dollar marine park industry over the controversial and even lethal ramifications of keeping killer whales in captivity. Following the story of marine biologist and animal advocate at the Humane Society of the US, Naomi Rose, Kirby tells the gripping story of the two-decade fight against PR-savvy SeaWorld, which came to a head with the tragic death of trainer Dawn Brancheau in 2010. Kirby puts that horrific animal-on-human attack in context. Brancheau's death was the most publicized among several brutal attacks that have occurred at Sea World and other marine mammal theme parks. *Death at SeaWorld* introduces real people taking part in this debate, from former trainers turned animal rights activists to the men and women that champion SeaWorld and the captivity of whales. In section two the orcas act out. And as the story progresses and orca attacks on trainers become increasingly violent, the warnings of Naomi Rose and other scientists fall on deaf ears, only to be realized with the death of Dawn Brancheau. Finally he covers the media backlash, the eyewitnesses who come forward to challenge SeaWorld's glossy image, and the groundbreaking OSHA case that challenges the very idea of keeping killer whales in captivity and may spell the end of having trainers in the water with the ocean's

top predators.

Beneath the Surface John Hargrove, Howard Chua-Eoan, 2015-03-24 *Now a New York Times Best Seller* Over the course of two decades, John Hargrove worked with 20 different whales on two continents and at two of SeaWorld's U.S. facilities. For Hargrove, becoming an orca trainer fulfilled a childhood dream. However, as his experience with the whales deepened, Hargrove came to doubt that their needs could ever be met in captivity. When two fellow trainers were killed by orcas in marine parks, Hargrove decided that SeaWorld's wildly popular programs were both detrimental to the whales and ultimately unsafe for trainers. After leaving SeaWorld, Hargrove became one of the stars of the controversial documentary Blackfish. The outcry over the treatment of SeaWorld's orca has now expanded beyond the outlines sketched by the award-winning documentary, with Hargrove contributing his expertise to an advocacy movement that is convincing both federal and state governments to act. In **Beneath the Surface**, Hargrove paints a compelling portrait of these highly intelligent and social creatures, including his favorite whales Takara and her mother Kasatka, two of the most dominant orcas in SeaWorld. And he includes vibrant descriptions of the lives of orcas in the wild, contrasting their freedom in the ocean with their lives in SeaWorld. Hargrove's journey is one that humanity has just begun to take-toward the realization that the relationship between the human and animal worlds must be radically rethought.

To the Rescue! Donna Parham, 2001-02 Since the

SeaWorld/Busch Gardens Animal Rescue and Rehabilitation Program began in 1965, SeaWorld and Busch Gardens have rescued more than 12,000 animals representing more than 140 species. This full-color book tells how and why.

Spectacular Nature Susan G. Davis, 2023-09-01

This is the story of Sea World, a theme park where the wonders of nature are performed, marketed, and sold. With its trademark star, Shamu the killer whale—as well as performing dolphins, pettable sting rays, and reproductions of pristine natural worlds—the park represents a careful coordination of shows, dioramas, rides, and concessions built around the theme of ocean life. Susan Davis analyzes the Sea World experience and the forces that produce it: the theme park industry; Southern California tourism; the privatization of urban space; and the increasing integration of advertising, entertainment, and education. The result is an engaging exploration of the role played by images of nature and animals in contemporary commercial culture, and a precise account of how Sea World and its parent corporation, Anheuser-Busch, succeed. Davis argues that Sea World builds its vision of nature around customers' worries and concerns about the environment, family relations, and education. While Davis shows the many ways that Sea World monitors its audience and manipulates animals and landscapes to manufacture pleasure, she also explains the contradictions facing the enterprise in its campaign for a positive public identity. Shifting popular attitudes, animal rights activists, and environmental laws all pose

practical and public relations challenges to the theme park. Davis confronts the park's vast operations with impressive insight and originality, revealing Sea World as both an industrial product and a phenomenon typical of contemporary American culture. Spectacular Nature opens an intriguing field of inquiry: the role of commercial entertainment in shaping public understandings of the environment and environmental problems.

SeaWorld Absolved Corine Sutherland, 2016-01-21
The theory presented in this writing, SeaWorld

Absolved, about the death of SeaWorld trainer, Dawn Brancheau, is in contrast to the theory presented in the film, Blackfish, which states that the reason for the attack on Mrs. Brancheau by the orca, Tilikum, was due to Tilikum's hard, long, life in captivity that turned him into a killer whale. Instead, the theory of this writing holds that the attack on Dawn Brancheau was due to a behavior unknown at the time of the attack, a behavior to be called teeth baring, that orcas use as a call for their territorial privacy, a warning that they are being pushed to a point that they are demanding their privacy. It is this teeth baring behavior that Tilikum does at Mrs. Brancheau just prior to his attack on her, and Mrs. Brancheau accidentally aggravating this otherwise behavior of warning, due to her absence of knowledge about this display, into the next level of aggression for the whale, which resulted in Mrs. Brancheau's death. As this behavior was unknown until the time of this writing, then this lack of knowledge not only explains how the death of Mrs. Brancheau occurred, but this same lack of knowledge about this behavior also, necessarily, absolves SeaWorld, releases SeaWorld, from any condemnation related to this whale's attack on their trainer, Dawn Brancheau.

Ruby's Trip to Seaworld Lily Rutherford, Addison Rutherford, 2017-11-13 Ruby is at it once again, turning her summer into an adventure she will never forget.
