The Light Ages: The Surprising Story of Medieval Science Seb Falk,2020-11-17 Named a Best Book of 2020 by The Telegraph, The Times, and BBC History Magazine An illuminating guide to the scientific and technological achievements of the Middle Ages through the life of a crusading astronomer-monk. Falk's bubbling curiosity and strong sense of storytelling always swept me along. By the end, The Light Ages didn't just broaden my conception of science; even as I scrolled away on my Kindle, it felt like I was sitting alongside Westwyk at St. Albans abbey, leafing through dusty manuscripts by candlelight. —Alex Orlando, Discover Soaring Gothic cathedrals, violent crusades, the Black Death: these are the dramatic forces that shaped the medieval era. But the so-called Dark Ages also gave us the first universities, eyeglasses, and mechanical clocks. As medieval thinkers sought to understand the world around them, from the passing of the seasons to the stars in the sky, they came to develop a vibrant scientific culture. In The Light Ages, Cambridge science historian Seb Falk takes us on a tour of medieval science through the eyes of one fourteenth-century monk, John of Westwyk. Born in a rural manor, educated in England's grandest monastery, and then exiled to a clifftop priory, Westwyk was an intrepid crusader, inventor, and astrologer. From multiplying Roman numerals to navigating by the stars, curing disease, and telling time with an ancient astrolabe, we learn emerging science alongside Westwyk and travel with him through the length and breadth of England and beyond its shores. On our way, we encounter a remarkable cast of characters: the clock-building English abbot with leprosy, the French craftsman-turned-spy, and the Persian polymath who founded the world's most advanced observatory. The Light Ages offers a gripping story of the struggles and successes of an ordinary man in a precarious world and conjures a vivid picture of medieval life as we have never seen it before. An enlightening history that argues that these times weren't so dark after all, The Light Ages shows how medieval ideas continue to color how we see the world today.

Seb's Surrender Carol Lynne,2010-01-11 After a lifetime of abuse, Jared Grant was rescued by Brier Blackstone and taken to one of the safest places he knew, the bodyguard dormitory of the Three Partners Protection Agency. For the first time, Jared is surrounded by men whose job it is to protect, not hurt him. One of his protectors, Sebastian James, knows a little something about abuse. Once a victim of abuse before he and his brother were taken from an abusive household and put into separate foster homes, Seb learned to harden his heart as a way of survival. Now, the soft spoken and scared Jared threatens the shell Seb spent years fortifying. When Jared's tormentor threatens him from jail, it's up to Seb and the rest of the bodyguards to keep Jared safe until he can testify at his abuser's trial. However, the close contact might be more than Seb's hard shell can withstand.

Jupiter John W. McAnally,2007-12-16 With the increasing sensitivity of the equipment available to the home astronomer, and increasing interest in celestial bodies, this Springer series is a huge helping hand to skywatchers who want to hone their skills. Astronomers' observing guides provide up-to-date information for amateur astronomers who want to know all about what it is they are observing. This is the basis of the first part of the book. The second part details observation techniques for practical astronomers, working with a range of different instruments. The book reviews the latest findings and satellite observations of Jupiter, as well as presenting superb pictures of Jupiter taken by McAnally himself, who proceeds to explain to the reader how to arrive at such beautiful results.

Running My Life - The Autobiography Seb Coe,2012-11-08 One second in time may separate the great athlete from the merely good. Seb Coe has made every second count. From an early age he has been driven to be the best at everything he does. Since the moment Coe stood alongside a 'scrubby' municipal running track in Sheffield, he knew that sport could change his life. It did. Breaking an incredible twelve world records and three of them in just forty-one days, Seb became the only athlete to take gold at 1500 metres in two successive Olympic Games (Moscow 1980 and Los Angeles 1984). The same passion galvanised Coe in 2005, when he led Britain's bid to bring the Olympic and Paralympic Games to London. He knew that if we won it would regenerate an East London landscape and change the lives of thousands of young people. It has. Born in Hammersmith and coached by his engineer father, Coe went from a secondary modern school and Loughborough University to become the fastest middle-distance runner of his generation. His rivalry with Steve Ovett gripped a nation and made Britain feel successful at a time of widespread social discontent. From sport Coe transferred his ideals to politics, serving in John Major's Conservative government from 1992 to 1997 and developing 'sharp elbows' to become chief of staff to William Hague, leader of the Party from 1997 to 2001 and finally a member of the House of Lords. Running My Life is in turns exhilarating, inspiring, amusing, and extremely moving. Everyone knows where Sebastian Coe ended up. Few people realise how he got there. This is his personal journey.

Seb and the Sun Jami Gigot,2021-06-22 Nominee, Ezra Jack Keats Award Seb is determined to find some light for his sleepy coastal town. It is so far north, the sun does not shine in winter and the days are cold, dreary, and dark as night. So Seb embarks on a mission to find the sun. Along with his friend Walrus, he makes a plan, collects supplies, and rows far out to sea. Will Seb be able to find the sun and bring its light and warmth back to his town?

A Dredging in Swann Tim Garvin,2020-01-28 Two investigations start at the same time in Swann County, North Carolina, one by the FBI, the other by the sheriff. The feds want to know who stole three Stinger missiles during a helicopter crash. The sheriff wants to know who hanged a black ex-con in a well. Seb Creek, a sheriff's detective, gets involved in both investigations and fights through lies, secrets, and murder to find the killer. The trail involves a long-ago axe murder, the ravages of combat, an outdoor gas chamber, a mystery at the bottom of a well, and finally a last killing and an ancient testament. A Dredging in Swann is a tale that deals powerfully with themes of war, race, justice, and, in the end, with healing. Sometimes justice has to wait. Sometimes it won't.

How to Be a Better Person Seb Hunter,2010-02-01 Why is it so difficult to find the time to help others? When Seb Hunter became aware of a nagging ache in the place where his soul ought to be, he embarked on a two year odyssey of volunteering &- with hilarious results. He collects litter, teaches pensioners how to use the internet, works at Oxfam (where he meets Gladys, his septuagenarian nemesis), mans a steam train line, becomes a star DJ on hospital radio, visits prisoners, and runs a very long way for charity... But will his quest for self-improvement be successful? How to Be a Better Person is the tale of a cynic's attempt to become a better person by helping others. For nothing. It's a volunteering call-to-arms! Oh no it's not! Well it is, sort of...

Tipping the Balance Seb Tucknott,2019-09-16 In 2008 Seb was hours away from losing his colon due to an ulcerative colitis (UC) flare. He'd lost 10kg in 2 weeks and was going to the toilet every half an hour. Fast

forward 11 years and Seb is now living symptom and medication free and in clinical remission (and with his colon fully in tact). Tipping the balance is a detailed look at the lifestyle changes Seb took to help him get, and stay, in remission. The book includes Seb's own inflammatory bowel disease (IBD) story, what he does to stay in remission and stop flares fast, his daily routines and a look at the research behind why focusing on the mind, sleep, diet, movement and his environment have helped. Who is this book for? Crohn's disease and ulcerative colitis patients new and old who want to understand more about how lifestyle changes have impacted a fellow patient's health Healthcare professionals who want to understand more about their patients' journeys Parents and carers of IBD patients who want to learn more about living with IBD People interested in finding out about how lifestyle changes have helped someone with an autoimmune disease Overview By focusing on improving his general wellbeing and making small, everyday changes Seb has been able to rebuild his health to the point that he is in clinical remission from ulcerative colitis. The change he has experienced has been remarkable and in this book he shares his journey in detail. The book spans more than 190 pages and is broken down into three main parts: 1. Seb's story Seb's first hand account of his journey with ulcerative colitis from first symptoms through to today. He shares the worries, milestones and turning points he encountered along the way. 2. Seb's balance theory Detailed focus on the theory Seb has developed which he uses on a daily basis to keep his general health and inflammatory bowel disease in balance. 3. Practical living Putting the theory into practice. Seb explains what he does on a daily basis, and why, across five health elements of mind/stress, sleep, diet/nutrition, movement/exercise and environment to keep his health balanced. Includes referenced research and Seb's daily routines. FAQs How long is the book? The book is 190+ pages Will this book get me into remission? This is not a self-help book and none of the information included should be interpreted as medical advice for you to follow. The book is simply the story of Seb's own ulcerative colitis journey to get into remission. He is passionate about sharing his positive experience of living with IBD and has released this book to share that with others. What do you do with the money made from the book? All the money made from the book is put back into IBDrelief to create more free resources for patients living with inflammatory bowel disease. About Seb Seb is a patient entrepreneur and health advocate. He was diagnosed with ulcerative colitis (UC), a form of inflammatory bowel disease (IBD), in April 2008. He has spent the past seven years researching and exploring changes in his lifestyle which helped him achieve better health and improved UC symptoms. Seb is passionate about improving patients' quality of life and access to information. In 2016 he launched IBDrelief, a website providing information to inflammatory bowel disease patients. Alongside this Seb speaks internationally at health conferences and events, to both patients and clinicians, about improving care and outcomes for patients living with chronic disease. He sits as a patient representative on clinical research and advises pharmaceutical companies on campaigns to IBD patients. He also mentors healthcare professionals.

Seb Jarnot 3 X 7 Seb Jarnot,2004 Seb Jarnot creates stunningly fresh illustrations that are simultaneously contemporary and timeless. While his style is minimal, a few well-placed lines radiate dynamism and movement. To best capture the personal and almost intimate quality of his art, dgv has created a small size book to showcase Jarnot's work. Spanning 192 pages, this hardcover contains an impressive range of illustrations while its lower price makes it a perfect way for those yet unfamiliar with Seb Jarnot to discover him. The book's appealing size also makes it easy to take along - to give as a gift or for readers to find inspiration wherever they happen to be. Seb Jarnot's talent has already been recognized in acclaimed projects such as the international advertising campaign that he did for Nike. In addition to creating various covers for French electronica label F Communication (Laurent Garnier, Llorca, The Youngsters, etc.), Jarnot is also featured in Romantik and Übersee 1.

Silence Is White Chris Kelso,2017-10-19 Seb Doubinsky was born in Paris and spent part of his childhood in the USA, an experience that indelibly marked him for life. He currently lives in Denmark with his wife and children. He writes fluently in both French and English and has published more than a dozen novels that blur the boundaries between literary fiction, science fiction and crime fiction, and a volume of short stories. His poetry has been published around the world to great acclaim and has been collected in at least nine stand-alone volumes. He edits the bi-lingual on-line literary magazine Le Zaporogue, publishes books under his Les Editions du Zaporogue imprint and is at work on at least one new novel. This unique anthology is a testament to a unique individual. Scottish writer and editor Chris Kelso has commissioned contributions from nineteen writers and artists, all of them admirers, friends and colleagues of Seb Doubinsky, who have each paid tribute to him in their own way for the pleasure his work, friendship and encouragement have given them.

Regret No More Seb Kirby,2014-07-09 From international bestselling author Seb Kirby, REGRET NO MORE continues the intriguing story of crime, corruption and duplicity begun in TAKE NO MORE. It is a must-read for fans of Harlan Coben, Daniel Silva and all who enjoy a thought provoking and exciting thriller. No one is safe from the past James Blake and his family were safe - until he received the phone call that meant they knew where he was. A stolen Picasso lies at the root of an international conspiracy that reaches into the life of a prominent US politician with devastating consequences not just for him but for so many of those caught up in the crime. Wolfgang Heller, a ruthless assassin, is seeking to eliminate those who have any knowledge of the theft. James Blake must come out of hiding and face the threats to himself and his family by putting himself and his brother on the line. Reader reviews at amazon.com for REGRET NO MORE: 'A tense and exciting thriller.....If you enjoyed Take No More you really have to read this one!' 'A Stellar Mystery Thriller....gripping, intense, and captivates the reader to the end. Author Seb Kirby is an outstanding author who knows how to write what I think of as a classic action-packed thriller.' 'Excellent read...an intriguing story that will keep you turning the page after page.' 'This was a wonderful read and I really enjoyed the characters. This book had a nice even flow that kept me interested from beginning to end. I would recommend to anyone who enjoys a good read that keeps you interested.' 'This is the first book I have read in a long time that captured my interest from the first page and held it to the end.' 'Best part is the fast pace and short book. Wish more books would follow such a style to make reading a pleasure. Congrats to Seb Kirby for an excellent book.'

The Digitally Disposed Seb Franklin,2021-06-22 Locates the deep history of digitality in the development of racial capitalism Seb Franklin sets out a media theory of racial capitalism to examine digitality's racial-capitalist foundations. The Digitally Disposed shows how the promises of boundless connection, flexibility, and prosperity that are often associated with digital technologies are grounded in racialized histories of dispossession and exploitation. Reading archival and published material from the cybernetic sciences alongside nineteenth-century accounts of intellectual labor, twentieth-century sociometric experiments, and a range of literary and visual works, The Digitally Disposed locates the deep history of digitality in the development of racial capitalism. Franklin makes the groundbreaking argument that capital's apparently spontaneous synthesis of so-called free individuals into productive circuits represents an "informatics of value." On the one hand, understanding value as an informatic relation helps to explain why capital was able to graft so seamlessly with digitality at a moment in which it required more granular and distributed control over labor—the moment that is often glossed as the age of logistics. On the other hand, because the informatics of value sort populations into positions of higher and lower capacity, value, and status, understanding their relationship to digitality requires that we see the digital as racialized and gendered in pervasive ways. Ultimately, The Digitally Disposed questions the universalizing assumptions that are maintained, remade, and intensified by today's dominant digital technologies. Vital and far-reaching, The Digitally Disposed reshapes such fundamental concepts as cybernetics, informatics, and digitality.

Monoclonal Antibodies Against Bacteria Alberto J. L. Macario,Everyly Conway de Macario,2014-05-10 Monoclonal Antibodies Against Bacteria, Volume II provides the basis for understanding new developments of practical importance in the health sciences within the area of microbiology and infectious diseases, focusing on advances made possible by monoclonal antibodies. This 12-chapter volume starts with the analysis of streptococcal antigens implicated in the causation of rheumatic fever and heart disease to find ways of inducing protective immunity. The next chapters deal with the detection of staphylococcal enterotoxins in foods

and treatment of staphylococcal food poisoning, the classification of meningococcal isolates associated with meningitis and related disorders, and the immunology of brucellosis with emphasis on the problem of distinguishing antibrucella antibodies elicited by vaccination of cattle from antibodies elicited by infection. These topics are followed by discussions of the diagnostic and epidemiologic studies of legionellosis; the identification of antigens in gram-negative bacteria; and the development of means to study and control infections by Pseudomonas in cystic fibrosis and other pathologic conditions. Other chapters explore the analysis of toxigenicity and neutralization of botulinum toxin, the pathogenetic role of Escherichia coli's pili, and study of its antigens to understand regulatory networks of the immune system involving antiidiotypic antibodies. The remaining chapters consider the elucidation of antigenic mosaics of archaebacteria and identification of their molecular signatures in their ecological niches and other life forms. These chapters also look into the combination of bacterial genetics with hybridoma technology for elucidating structure-function relationships in membrane molecules, as well as the strategies, methods, quality control, and other practical aspects connected with industrial production of monoclonal antibodies against bacteria. This book will prove useful to internists, pediatricians, surgeons, dentists, veterinarians, clinical pathologists, and laboratory technologists.
