Cheddar Off Dead Korina Moss,2022-03-29 The Agatha Award Winner for Best First Novel In Korina Moss's cozy series debut, Cheddar Off Dead, cheesemonger Willa Bauer discovers that her new home in a small Sonoma Valley town is ripe for murder... something here stinks to high heaven, and Willa knows it's not the cheese. Cheesemonger Willa Bauer is proving that sweet dreams are made of cheese. She's opened her very own French-inspired cheese shop, Curds & Whey, in the heart of the Sonoma Valley. The small town of Yarrow Glen is Willa's fresh start, and she's determined to make it a success - starting with a visit from the local food critic. What Willa didn't know is that this guy never gives a good review, and when he shows up nothing goes according to plan. She doesn't think the night can get any worse... until she finds the critic's dead body, stabbed with one of her shop's cheese knives. Now a prime suspect, Willa has always believed life's problems can be solved with cheese, but she's never tried to apply it to murder...

Dark Ecology Timothy Morton,2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only

one side. Deckard travels this oedipal path in *Blade Runner* (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

Karl Mannheim and the Crisis of Liberalism David Kettler, 2018-01-16 To reflect on Karl Mannheim is to address fundamental issues of political enlightenment Mannheim's driving determination was to learn as a sociologist by close observation the secret (even if it is infernal) of these new times. Mannheim's aim was to carry liberal values forward. His problem remains irresistible to reflective people at the end of the twentieth century. Mannheim attempted to link social thinking to political emancipation despite overwhelming evidence against the connection. *Karl Mannheim and the Crisis of Liberalism* is a sympathetic biography of Mannheim's paradoxical and paradigmatic project. The book covers a wide range of European and American thought, including Mannheim's dealings with Georg Lukacs and Oscar Jzsi in Budapest; with Alfred Weber, Leopold von

Wiese, Franz Neumann, Paul Tillich, Adolph Loewe, and his students in Weimar Germany; with Louis Wirth, Edward Shils, and other major figures in American sociology; and with social analysts and religious thinkers in England. The analysis is informed by dilemmas of history and theory, science and rhetoric, freedom and technical control the themes of liberalism. Kettler and Meja carefully depict each stage of Mannheim's life as a sociologist and explore his influence on leading social thinkers. *Karl Mannheim and the Crisis of Liberalism* combines significant biographical information with insightful sociological theory. It will be a vital resource for historians, sociologists, and political theorists.

The Vegan 8 Brandi Doming, 2018-10-16 Five years ago, popular blogger Brandi Doming of The Vegan 8 became a vegan, overhauling the way she and her family ate after a health diagnosis for her husband. The effects have been life-changing. Her recipes rely on refreshingly short ingredient lists that are ideal for anyone new to plant-based cooking or seeking simplified, wholesome, family-friendly options for weeknight dinners. All of the recipes are dairy-free and most are oil-free, gluten-free, and nut-free (if not, Brandi offers suitable alternatives), and ideally tailored to meet the needs of an array of health conditions. Each of the 100 recipes uses just 8 or fewer ingredients (not including salt, pepper, or water) to create satisfying, comforting meals from breakfast to dessert that your family--even the non-vegans--will love. Try Bakery-Style Blueberry Muffins, Fool 'Em Cream Cheese Spinach-Artichoke Dip, Cajun Veggie and Potato Chowder, Skillet Baked Mac n' Cheese, and No-Bake Chocolate Espresso Fudge Cake.

A New Orleans Voodoo Priestess Carolyn Morrow Long, 2007-10-07 Against the backdrop of eighteenth- and nineteenth-century New Orleans, *A New Orleans Voodoo Priestess: The Legend and Reality of Marie Laveau* disentangles the complex threads of the legend surrounding the famous Voodoo priestess. According to mysterious, oft-told tales, Laveau was an extraordinary celebrity whose sorcery-fueled influence extended widely from slaves to upper-class whites. Some accounts claim that she led the orgiastic Voodoo dances in Congo Square and on the shores of Lake Pontchartrain, kept a gigantic snake named Zombi, and was the proprietress of an infamous house of assignation. Though legendary for an unusual combination of spiritual power, beauty, charisma, showmanship, intimidation, and shrewd business sense, she also was known for her kindness and charity, nursing yellow fever victims and ministering to condemned prisoners, and her devotion to the Roman Catholic Church. The true story of Marie Laveau, though considerably less flamboyant than the legend, is equally compelling. In separating verifiable fact from semi-truths and complete fabrication, Long explores the unique social, political, and legal setting in which the lives of Marie Laveau's African and European ancestors became intertwined. Changes in New Orleans engendered by French and Spanish rule, the Louisiana Purchase, the Civil War, Reconstruction, and Jim Crow segregation affected seven generations of Laveau's family, from enslaved great-grandparents of pure African blood to great-grandchildren who were legally classified as white. Simultaneously, Long examines the evolution of New Orleans Voodoo, which until recently has been ignored by scholars.

Sublime Historical Experience F. R. Ankersmit, 2005 Why are we interested in history at all? Why do we feel the need to distinguish between past and present? This book investigates how the notion of sublime historical experience complicates and challenges existing conceptions of language, truth, and knowledge.

Free Innovation Eric Von Hippel, 2024-04-30 A leading innovation scholar explains the growing phenomenon and impact of free innovation, in which innovations developed by consumers and given away “for free.” In this book, Eric von Hippel, author of the influential *Democratizing Innovation*, integrates new theory and research findings into the framework of a “free innovation paradigm.” Free innovation, as he defines it, involves innovations developed by consumers who are self-rewarded for their efforts, and who give their designs away “for free.” It is an inherently simple grassroots innovation process, unencumbered by compensated transactions and intellectual property rights. Free innovation is already widespread in national economies and is steadily increasing in both scale and scope. Today, tens of millions of consumers are collectively spending tens of billions of dollars annually on innovation development. However, because free innovations are developed during consumers' unpaid, discretionary time and are given away rather than sold, their collective impact and value have until very recently been hidden from view. This has caused researchers, governments, and firms to focus too much on the Schumpeterian idea of innovation as a producer-dominated activity. Free innovation has both advantages and drawbacks. Because free innovators are self-rewarded by such factors as personal utility, learning, and fun, they often pioneer new areas before producers see commercial potential. At the same time, because they give away their innovations, free innovators generally have very little incentive to invest in diffusing what they create, which reduces the social value of their efforts. The best solution, von Hippel and his colleagues argue, is a division of labor between free innovators and producers, enabling each to do what they do best. The result will be both increased producer profits and increased social welfare—a gain for all.

Between Nazis and Soviets Marek Jan Chodakiewicz, 2004 Between 1939 and 1947 the county of

Janów Lubelski, an agricultural area in central Poland, experienced successive occupations by Nazi Germany (1939-1944) and the Soviet Union (1944-1947). During each period the population, including the Polish majority and the Jewish, Ukrainian, and German minorities, reacted with a combination of accommodation, collaboration, and resistance. In this remarkably detailed and revealing study, Marek Jan Chodakiewicz analyzes and describes the responses of the inhabitants of occupied Janów to the policies of the ruling powers. He provides a highly useful typology of response to occupation, defining collaboration as an active relationship with the occupiers for reasons of self-interest and to the detriment of one's neighbors; resistance as passive and active opposition; and accommodation as compliance falling between the two extremes. He focuses on the ways in which these reactions influenced relations between individuals, between social classes, and between ethnic groups. Casting new light on social dynamics within occupied Poland during and after World War II, *Between Nazis and Soviets* yields valuable insight for scholars of conflict studies.

Sweet Potato Soul Jenné Claiborne, 2018-02-06 100 vegan recipes that riff on Southern cooking in surprising and delicious ways, beautifully illustrated with full-color photography. Jenné Claiborne grew up in Atlanta eating classic Soul Food—fluffy biscuits, smoky sausage, Nana's sweet potato pie—but thought she'd have to give all that up when she went vegan. As a chef, she instead spent years tweaking and experimenting to infuse plant-based, life-giving, glow-worthy foods with the flavor and depth that feeds the soul. In *Sweet Potato Soul*, Jenné revives the long tradition of using fresh, local ingredients creatively in dishes like Coconut Collard Salad and Fried Cauliflower Chicken. She improvises new flavors in Peach Date BBQ Jackfruit Sliders and Sweet Potato-Tahini Cookies. She celebrates the plant-based roots of the cuisine in Bootylicious Gumbo and savory-sweet Georgia Watermelon & Peach Salad. And she updates classics with Jalapeño Hush Puppies, and her

favorite, Sweet Potato Cinnamon Rolls. Along the way, Jenné explores the narratives surrounding iconic and beloved soul food recipes, as well as their innate nutritional benefits—you've heard that dandelion, mustard, and turnip greens, okra, and black eyed peas are nutrition superstars, but here's how to make them super tasty, too. From decadent pound cakes and ginger-kissed fruit cobblers to smokey collard greens, amazing crabcakes and the most comforting sweet potato pie you'll ever taste, these better-than-the-original takes on crave-worthy dishes are good for your health, heart, and soul.

The Holy Trinity and the Law of Three Cynthia Bourgeault, 2013-07-09 Father, Son, and Holy Spirit. In this formula that Christians recite as though on autopilot lie the secrets for healing our world, rekindling our visionary imagination, and manifesting the Kingdom of Heaven on earth. It's an astonishing claim, but one that is supported by Cynthia Bourgeault's exploration of Trinitarian theology—and by her bold work in further articulating the deep truth it contains. She looks to the ancient concept in light of the ideas of G. I. Gurdjieff and Jacob Boehme to reveal the Trinity as the hidden driveshaft within Christianity: the compassionate expression of the Uncreated Reality in creation.

AA Gill is Away A.A. Gill,2007-11-01 A. A. Gill is one of the most feared writers in London, noted--according to the New York Times--for his rapier wit. Some even consider the mere

assignment of a subject to Gill a hostile act. But when the notice AA GILL IS AWAY runs in the Sunday Times of London, the city can rest peacefully in the knowledge that the writer is off traveling. My editor asked me what I wanted from journalism and I said the first thing that came into my head--I'd like to interview places. To treat a place as if it were a person, to go and listen to it, ask it questions, observe it the way you would interview a politician or a pop star, Gill writes. Upon his return, readers are treated to an account of his vacations to places like famine-stricken Sudan, the pornography studios of California's San Fernando Valley, the dying Aral Sea or the seedy parts of Kaliningrad. The result is one of the most fascinating, stylish and irreverent collections of travel writing.
