Secret Vault Filip Coppens, Andre Douzet, 2006 In this brilliant work of investigative research, the authors uncover new secrets in the basilica of Notre-Dame-de-Marcelle. On the surface, this church is like any other, but it has a hidden dimension, which has been successfully kept secret. Underneath the church lies an underground complex, hidden for over 500 years, where there was a monetary treasure and a pagan religious site once under the control of the Templars. Both the Compagnie de St. Sacrement, a 17th century secret society, and Saunière, the priest at the centre of the enigma of Rennes-le-Château tried to get hold of this underground complex, and its monetary and religious treasure -- and of the secret. Here is the full shocking story!

The Secret Vault André Douzet, 2021-02-16 Was Berenger Saunière, the priest at the centre of the enigma of Rennes-le-Château, controlled by a secret society? Yes is the answer, but which one? Freemasonry? The Rosicrucians? None of the above; the group was known as the A.A., said to be the successors of the Compagnie de St Sacrement, a 17th century secret society that was prohibited by the French king Louis XIV. Both were said to protect the secret, of such gigantic proportions that its nature has never been revealed; no member was able to divulge membership or what the secret was - and that is exactly what Saunière did when his superiors questioned him late in life: he remained silent. In this brilliant example of investigative research, the authors have been able to uncover a hidden dimension to what at first seems to be a non-enigmatic location: the basilica of Notre Dame de Marcelle. There, from the 17th century onwards, the same people who were involved with the Compagnie (the Fouquet brothers, Nicolas Pavillon, Vincent de Paul, Jean-Jacques Olier, etc.), were involved in trying to lay their hands on this property. Why? On the surface, the church is like any other, but it has a

hidden dimension, which has been successfully kept hidden for more than 500 years: underneath the church lies a secret underground complex, in which not only a monetary treasure was located, but which was also a pagan religious site, which was directly related to the secret - and which was once placed under the control of the Templars. After their demise, both the Compagnie and Saunière and his handlers tried to get hold of this underground complex, and its monetary and religious treasure - and of the secret.

Inside The Black Vault Greenewald Jr., 2019-04-08 The evidence in this book may not ultimately give you the "smoking gun" you are looking for on your journey, but I guarantee it will give you a box of bullets when you find it. In 1996, John Greenewald, Jr. began researching the secret inner workings of the U.S. Government at the age of fifteen. He targeted such agencies as the CIA, FBI, Pentagon, Air Force, Army, Navy, NSA, DIA, and countless others. Greenewald utilized the Freedom of Information Act (FOIA) to gain access to more than two million pages of documents. This archive includes information relating to UFOs, the JFK Assassination, chemical, biological, and nuclear weapons, and top secret aircraft. He took the millions of pages, and over the course of more than two decades, has built an archive known around the world, as The Black Vault. Inside The Black Vault: The Government's UFO Secrets Revealed takes you on a journey within the secret world of unidentified aerial phenomenon that has plagued the military since at least the 1940s. Declassified records prove that the UFO topic is one of the most highly classified and most elusive subjects the U.S. Government has ever dealt with. Each chapter explores various agencies and their documents, and Greenewald breaks down the meaning of why some of the most important documents are relevant to proving a massive cover-up. Along with declassified documents, Greenewald outlines the struggle it took him to get them. No other topic has proven so difficult, in more than 8,000 FOIA requests that he has filed. He explores why that might be and meets skeptics and debunkers head on,

outlining why some of their more prominent rebuttals for it all cannot be true.

Secrets from the Black Vault John Greenewald, Jr.,2020-04-15 What happens when the history books are wrong? The United States Government wants you to not question the narrative that, in some cases, has been written by them for more than a century. But sometimes, real facts emerge from declassified documents that challenge what you thought you knew. This book dissects some of the most amazing declassified documents that have changed the history of the world and our perception of it. With each turn of the page, Secrets from The Black Vault reveals declassified programs and formerly top secret illustrations that detail an Air Force's secret plan to build a Mach 4 flying saucer; the Department of Defense's plan to detonate a nuclear bomb on the surface of the moon; the use of psychic spies within the CIA; how an unidentified object almost sparked World War III; and much more. Declassified documents within The Black Vault play a crucial role in understanding the inner workings of America's top secret agendas.
