Victor H. Green

Through Green-colored Glasses Wilfred Beckerman,1996 In *Through Green-Colored Glasses: Environmentalism Reconsidered*, Beckerman provides a clear-eyed examination of the central tenets of environmental theory - sustainable development, the precautionary principle, and environmental crises - and concludes that the environmentalist worldview is cluttered with meaningless slogans and dangerously wrongheaded assessments of the state of humanity and the planet.

**Through a Green Lens** Robert Michael Pyle,2016 Robert Michael Pyle is the author of twenty books and hundreds of essays, stories, papers, and poems, but it is the occasional prose--the deeply personal essays that explored and indulged his immediate fascinations--that make up this selection of never-before-collected testimonies. Beginning with a 1965 cri de coeur written on mountain motel stationery, *Through a Green Lens* ranges across broad territory of topic, vehicle, geography, populace, and politics, concluding with powerful forewords for two 2015 books. Pyle's half-century long view, acute and uncommonly attuned to the physical world, gives readers a remarkable window on the natural setting of our life and times.

*Clear Green in Dade County* Richard Milone,2003-07 An older brother seeks a new life with his younger brother in Miami. On his journey down to start a new life he is unaware his brother's home has suffered a home invasion by a nefarious duo hiding out from the local police. Also unaware that one of the hostage takers is an acquaintance from his troubled past. Meanwhile the head of an Elite Police Unit has a stake in the outcome of the hostage situation, the killers have ended the life of his mentor. A man who would have retired in a short while but was still on the job teaching a young rookie policemen. It all reaches a boiling point when the older brother and his wife arrive at the house just before the elite 'Clear Green Police Unit' sets up shop to take out the hostage takers.

**Goethe and the Sciences: A Reappraisal** F.R. Amrine,Francis J. Zucker,H. Wheeler,2012-12-06 of him in like measure within myself, that is my highest wish. This noble individual was not conscious of the fact that at that very moment the divine within him and the divine of the universe were most intimately united. So, for Goethe, the resonance with a natural rationality seems part of the genius of modern science. Einstein's 'cosmic religion', which reflects Spinoza, also echoes Goethe's remark (Ibid. , Item 575 from 1829): Man must cling to the belief that the incomprehensible is comprehensible. Else he would give up investigating. But how far will Goethe share the devotion of these cosmic rationalists to the beautiful harmonies of mathematics,

so distant from any pure and 'direct observation'? Kepler, Spinoza, Einstein need not, and would not, rest with discovery of a pattern within, behind, as a source of, the phenomenal world, and they would not let even the most profound of descriptive generalities satisfy scientific curiosity. For his part, Goethe sought fundamental archetypes, as in his intuition of a Urpflanze, basic to all plants, infinitely plastic. When such would be found, Goethe would be content, for (as he said to Eckermann, Feb. 18, 1829): . . . to seek something behind (the Urphänomenon) is futile. Here is the limit. But as a rule men are not satisfied to behold an Urphänomenon. They think there must be something beyond. They are like children who, having looked into a mirror, turn it around to see what is on the other side.

*Through Green Eyes* Diana Joya, 2016-12-15 Do you look at your pets and wonder what they are thinking about? Do you wonder what it must be like to live in their worlds? And what do they do all day, anyway? Author Diana Joya's *Through Green Eyes* takes you inside the lives of a neighborhood of pets. Kitty is full of personality. She and her friends go on adventures, including a treasure hunt with a real treasure map. Kitty also teaches the value of everlasting friendships. *Through Green Eyes* encourages your imagination with a little help from magic and the power of love for others, self, animals, and nature. You'll be entertained and might even learn something, too.

The Negro Motorist Green Book Victor H. Green, The idea of The Green Book is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

*Experiencing Environment and Place through Children's Literature* Amy Cutter-Mackenzie, Phillip Payne, Alan Reid, 2014-06-11 Recent scholarship on children's literature displays a wide variety of interests in classic and contemporary children's books. While environmental and ecological concerns have led to an interest in 'ecocriticism', as yet there is little on the significance of the ecological imagination and experience to both the authors and readers – young and old – of these texts. This edited collection brings together a set of original international research-based chapters to explore the role of

children's literature in learning about environments and places, with a focus on how children's literature may inform and enrich our imagination, experiences and responses to environmental challenges and injustice. Contributions from Australia, Canada, USA and UK explore the diverse ways in which children's literature can provide what are arguably some of the first and possibly most formative engagements that some children might have with 'nature'. Chapters examine classic and new storybooks, mythic tales, and image-based and/or written texts read at home, in school and in the field. Contributors focus on exploring how children's literature mediates and informs our imagination and understandings of diverse environments and places, and how it might open our eyes and lives to other presences, understandings and priorities through stories, their telling and re-telling, and their analysis. This book was originally published as a special issue of Environmental Education Research.

**365 Life-Changing Scriptures Day by Date** Katheryn Maddox Haddad, 2015-08-22 We all want our life to change for the better. These 366 inspirational daily devotionals were written for that purpose. You will notice that the date coincides with the chosen scripture. For example, the scripture for February 7 (2/7) is Proverbs 2:7. The Scripture for February 8 (2/8) is Genesis 2:8. They were written to be a guide for the rest of the day. If you prefer to read them at night, just read the devotional for the next day. These inspirational messages have endured the test of time. They have been sent on a daily basis for some ten years to around 30,000 people worldwide over the internet. While the author plans to continue this practice, some people prefer to have them all together in book format since the internet is not always available or convenient. God bless you and God bless us all on our journey day by date to arrive some day in the future at our Glory Home.

**Bemerkungen Über Die Farben** Ludwig Wittgenstein, 2007-03-21 This book comprises material on colour which was written by Wittgenstein in the last eighteen months of his life. It is one of the few documents which shows him concentratedly at work on a single philosophical issue. The principal theme is the features of different colours, of different kinds of colour (metallic colour, the colours of flames, etc.) and of luminosity—a theme which Wittgenstein treats in such a way as to destroy the traditional idea that colour is a simple and logically uniform kind of thing. This edition consists of Wittgenstein's basic German text, together with an English translation.

*Dictionary of Gems and Gemology* Mohsen Manutchehr-Danai, 2013-03-09 The rapid growth of gemological sciences and mineralogy demands a

dictionary such as this for gemologists, mineralogists, geologists, jewel dealers, industry and hobbyists. With some 16,000 comprehensive definitions, supplemented by more than 250 diagrams and figures, this is a one-stop reference to any matter dealing with gems and gemology.

**Semantics : Primes and Universals** Anna Wierzbicka,1996-03-28 This book provides a synthesis of Wierzbicka's theory of meaning, which is based on conceptual primitives and semantic universals, using empirical findings from a wide range of languages. While addressed primarily to linguists, the book deals with highly topical and controversial issues of central importance to several disciplines, including anthropology, psychology, and philosophy. - ;Conceptual primitives and semantic universals are the cornerstones of a semantic theory which Anna Wierzbicka has been developing for many years. Semantics: Primes and Universals is a major synthesis of her work, presenting a full and systematic exposition of that theory in a non-technical and readable way. It delineates a full set of universal concepts, as they have emerged from large-scale investigations across a wide range of languages undertaken by the author and her colleagues. On the basis of empirical cross-linguistic studies it vindicates the old notion of the 'psychic unity of mankind', while at the same time offering a framework for the rigorous description of different languages and cultures. - ;A major synthesis of Anna Wierzbicka's work -

*The Riddle* Alison Croggon,2010-12-07 Maerad's tale continues, luminous, desperate, and bold. . . . Brimming with archetypal motifs but freshly splendid in its own right. – Kirkus Reviews (starred review) Maerad is a girl with a tragic past, but her powers grow stronger by the day. Now she and her mentor, Cadvan, hunted by both the Light and the Dark, must unravel the Riddle of the Treesong before their kingdom erupts in chaos. The quest leads Maerad over terrifying seas and glacial wilderness, until she is trapped in the icy realm of the seductive Winterking. There, Maerad must

confront what she has suspected all along: that she is the greatest riddle of all.
