The First 20 Hours Josh Kaufman, 2013-06-13 Forget the 10,000 hour rule– what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills–time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In The First 20 Hours, Josh Kaufman offers a systematic approach to rapid skill acquisition– how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, The First 20 Hours will help you pick up the basics of any skill in record time . . . and have more fun along the way.

Immortal Films Barbara Klinger,2022-11-15 Casablanca is one of the most celebrated Hollywood films of all time, its iconic romance enshrined in collective memory across generations. Drawing from archival materials, industry trade journals, and cultural commentary, Barbara Klinger explores the history of Casablanca's circulation in the United States from the early 1940s to the present by examining its exhibition via radio, repertory houses, television, and video. By resituating the film in the dynamically changing industrial, technological, and cultural circumstances that have defined its journey over eight decades, Klinger challenges our understanding of its meaning and reputation as both a Hollywood classic and a cult film. Through this single-film survey, Immortal Films proposes a new approach to the study of film history and aesthetics and, more broadly, to cinema itself as a medium in constant interface with other media as a necessary condition of its own public existence and endurance.

Six Part Harmony - Riff (The Untold Story) Dale "Skip" Van Rensalier,2019-06-25 Eastside High School in Paterson, New Jersey, a school that had transformed over the years into one of the worst high schools in the state, became the subject of a full-length Warner Brothers motion picture entitled Lean on Me. The main character of the movie was the beleaguered principal known as Crazy Joe Clark, who had been assigned by the district superintendent to come in and turn things around. He introduced what eventually became very controversial administrative methods that ultimately led to significant changes at the school. Six-Part Harmony: The Untold Story of Riff chronicles the relationship of the R&B recording artists known as Riff with their manager, mentor, and vocal arranger, Dale Skip Van Rensalier, as they, together, navigated the maze of the recorded music industry while trying to attain some significant recognition for the group. Riff parachuted to fame after appearing in one of the more recognizable scenes of Lean on Me, singing the Eastside school song in the school bathroom at the behest of Principal Clark (portrayed by actor Morgan Freeman). They were students at Eastside High School at that time. Skip, a 1966 Eastside High School graduate, had returned to his alma mater as a school social worker and met Riff after hearing them sing their rendition of the school song over the school intercom during a homeroom period. With the success of Lean on Me and the exposure that Riff achieved from their appearance in the movie, once contracts had been negotiated and signed between Riff and Skip, the entertainment business journey began. What the six of them never realized was that it would be a journey filled with twists, turns, hills, valleys, lies, ego trips, and empty promises. In other words, a reality check that blindsided all of them. This is their untold story.
