The Great Outcry for the True Gospel This Era Jango Emmanuel Fortty, 2015-08-24 Today the true gospel is lost completely. The children of God worldwide are being robbed of their money and of the truth and the knowledge of their priestly position in Christ in this era of grace (free gift) that we operate in by televangelists and prosperity preachers, who have sealed their hearts permanently from the love of God and the truth. God is in the business today of exposing this great evil and bringing back his people on the right track. He is setting aside the highly educated doctors and professors of junk for the lowly and weak to this purpose. In the great outcry, you will find God's response to key questions such as sowing of seeds, tithes, prosperity, salvation, and lot more in this era.

The Great Detectives Otto Penzler, 2012-08-28 The origins of literature's finest crime fighters, told by their creators themselves Their names ring out like gunshots in the dark of a back alley, crime fighters of a lost era whose heroic deeds will never be forgotten. They are men like Lew Archer, Pierre Chambrun, Flash Casey, and the Shadow. They are women like Mrs. North and the immortal Nancy Drew. These are detectives, and they are some of the only true heroes the twentieth century ever knew. In this classic volume, Otto Penzler presents essays written by the authors who created these famous characters. We learn how Ed McBain killed—and resurrected—the hero of the 87th Precinct, how international agent Quiller wrote his will, and how Dick Tracy first announced that “crime does not pay.” Some of these heroes may be more famous than others, but there is not one whom you wouldn't like on your side in a courtroom, a shootout, or an old-fashioned barroom brawl.

Superstar in a Masquerade William Sargent, 2021-07-27 Superstar in a Masquerade tells the story about Leon Russell, an award-winning Rock and Roll Hall of Fame inductee, who was born with cerebral palsy, and learned to master the piano. He became an in-demand session man in Hollywood, contributing to thousands of songs by hundreds of artists, during his seven-decade career. He was called the Rainbow Minister & Ringleader for the Hippie Generation, and although most people can say they never heard of him, few can say they've never heard him. After reading this book, you can play Three Degrees of Leon, just like the game Six Degrees of Kevin Bacon, linking him to anyone, from B.B. King to ZZ Top. As an emigre from Oklahoma to California, he invited David Gates and J. J. Cale to join him in the music mecca known as Tinseltown, where the Tulsa Trio made untold contributions to America's popular music. Read about over five hundred artists, and their songs that Leon, David, and J. J. helped create, as well as... When seventeen-year-old Leon replaced Jerry Lee Lewis on stage in 1959. How Frank Sinatra caused Leon to let his hair grow. How J. J. Cale played a role in the formation of the band Bread. How Leon saved Joe Cocker's career and created Willie Nelson's famous image. When Elton John was Leon's opening act on tour. Why DC Comics sued Leon's record label for \$2 million. When David Gates's band backed Chuck Berry on stage in 1961. When Leon brazenly threw the F-bomb at Phil Spector. When Leon called organized Christianity the single most harmful force in history. What Broadway song Leon borrowed from for This Masquerade.

Shadow Wars David Axe, 2013-09-03 Warfare's evolution, especially since 2001, has irrevocably changed the meaning of war. In the twentieth century humankind's bloodiest 231 million people died in armed conflicts. Battlefield deaths since then have been steadily declining, despite the wars in Iraq and Afghanistan, and by 2012 less than 1 person in a million dies in war every year. This drastic change has led some academics to label our era one of peace, recalling the erroneously named "Hundred Years' Peace" or "Pax Britannica" of the nineteenth century, which nonetheless saw many violent conflicts. But war hasn't gone extinct. It has merely evolved. In Shadow Wars, journalist David Axe tells the story of the new war era—one of insurgents and counterinsurgents, terrorists and their hunters, pirates, mercenaries, smugglers, and slavers wreaking havoc on regions where conditions are brutal, people are poor, governments are weak, and the world rarely pays attention. Axe shows us what war has become in our era of peace. The mainstream media, meanwhile, ignores it. This book profoundly challenges readers'

conceptions of war and peace in the twenty-first century.

THE ASHEN DREAM Luke William Batchelor, 2010-01-14 Arudin Lazt Knorr, born of unique racial origins, is destined to become the Omniverse's greatest hero yet. After surviving one horrific event after another, he becomes the Ashenin, a legendary class of warrior that is fated for miraculous deeds of redemption and reclaiming peace within the Sixteen Realms. A demonic creature and corrupted world leader known as the Darksaint plagues his home realm of Renalon, one of the Sixteen Realms of Ashelon. This Darksaint, once a revered leader of the realm, has altered his loyalties and is now the mightiest darkness this plane has ever seen. Thus far, and during his centurial reign as ruler of the most vicious, hellish beasts, neither able warrior nor military force has once confronted him and succeeded. The last honest leader of Renalon, the Sapphire Saint, is severely weakened by constant war and ultimately unsheathes her last line of defense, recruiting the Ashenin. He will be trained, tortured and even driven to madness before finally acquiring the strengths this world only thought a man incapable of. With this newfound, otherworldly power, he will venture alongside the most gifted adventurers, overcoming the wildest of fantastical environments and the deadliest of situations, until finally... facing the Darksaint himself.

No Future Without War Trevor Lionel Thurlow, 2015-08-14 The world is at an endless war but there is no future without war. The dead walk again in robotic bodies killing all in their path. So a Time Meddler has decided to go back into time to stop the future from being written, but at the result of the world being invaded by an alien faction.

Crucible of Time Jeffrey A. Carver, 2019-09-10 A galaxy in peril . . . The story begun in *The Reefs of Time* continues. The time-tides caused by Karellia's defenses have brought the malicious Mindaru AI out of the deep past into the present, threatening Bandicut and Li-Jared, who have arrived at the backwater planet-Li-Jared's homeworld-to find it on the brink of interplanetary war. Somehow they must forge a peace between Karellia and its neighboring world if the Mindaru threat is to be broken. Back on Shipworld, Ik and Julie Stone risk their lives a second time to stop the Mindaru at their source: a planet near the galactic core, a billion years in the past. Can Antares, the beautiful humanoid who also loves Bandicut, help them? What of Bria the gokat? And Amaduse, the most influential librarian in Shipworld? And in the deep time of the galaxy's early history, by the light of a million suns, the Mindaru do hideous things to an innocent species. The Mindaru plan for the altered creatures bears momentous possibilities even the deadly AI cannot predict. Time is critical. Time is elastic. And time is running out. Conclusion of the unmissable two-part "Out of Time" sequence begun in *The Reefs of Time*, from Jeffrey A. Carver, Nebula-nominated author of *Eternity's End*. PRAISE FOR THE REEFS OF TIME / CRUCIBLE OF TIME: "Classic science fiction with engaging characters and richly imagined worlds!" -Greg Bear; author of *The Unfinished Land* and *The War Dogs Trilogy* "Jeffrey A. Carver's remarkable long-awaited duology *The Reefs of Time / Crucible of Time* is a welcome addition to *The Chaos Chronicles*, certifying his continuing mastery of action and adventure at the boundaries of space opera and hard SF." -Steve Miller, co-author of *The Liaden Universe* PRAISE FOR THE CHAOS CHRONICLES: "Carver does his usual outstanding job of juggling multiple viewpoints and plot threads while casting his protagonists' adventures against a sweeping, intergalactic backdrop. Yet Bandicut's story is ultimately a very human one about determination, seat-of-the-pants ingenuity, and courage in the face of overwhelming danger." -Booklist "Another splendid adventure, with intriguing puzzles, first-rate problem-solving, and an impressive array of alien characters, motives, and methods." -Kirkus (starred review) "Reveals an alien encounter brushing hard against a soul, and takes us from there to the far reaches of the cosmos, all with the sure touch of a writer who knows his science. Jeff Carver has done it again!" -David Brin "Remarkably expansive vision." -Analog "A dazzling, thrilling, innovative space opera." -Kirkus "Fertile imagination and... a host of engagingly sympathetic characters." -Library Journal

Shadow Libraries Joe Karaganis, 2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks. From the top down, *Shadow Libraries* explores the institutions that shape the provision of educational materials, from the formal sector of universities and publishers to the broadly informal ones organized by faculty, copy shops, student unions, and students themselves. It looks at the history of policy battles over access to education in the post-World War II era and at the narrower versions that have played out in relation to research and textbooks, from library policies to book subsidies to, more recently, the several "open" publication models that have emerged in the higher education sector. From the bottom up, *Shadow Libraries* explores how, simply, students get the materials they need. It maps the ubiquitous practice of photocopying and what are-in many cases-the more marginal ones of buying books, visiting libraries, and downloading from unauthorized sources. It looks at the informal networks that emerge in many contexts to share materials, from face-to-face student networks to Facebook groups, and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online- the shadow libraries of the title. If Alexandra Elbakyan's Sci-Hub is the largest of these efforts to date, the more characteristic part of her story is the prologue: the personal struggle to participate in global scientific and educational communities, and the recourse to a wide array of ad hoc strategies and networks when formal, authorized means are lacking. If Elbakyan's story has struck a chord, it is in part because it brings this contradiction in the academic project into sharp relief-universalist in principle and unequal in practice. *Shadow Libraries* is a study of that tension in the digital era. But with the world hurtling toward its prophesized end, Anton’s haunting vision reveals the dangerous beginnings of a plan to stop the Age of Darkness. As Jude, Keeper of the Order of the Last Light, returns home in disgrace, his quest to aid the Prophet is complicated by his growing feelings for Anton. Meanwhile, the assassin known as the Pale Hand will stop at nothing to find her undead sister before she dies for good, even if it means letting the world burn. And in Nazirah, Hassan, the kingdom-less Prince, forms a risky pact to try to regain his throne. The Age of Darkness trilogy is perfect for fans of *Throne of Glass*, *Children of Blood and Bone*, and *An Ember in the Ashes*. * Adventurous relic-hunting, mind-blowing twists, budding love, and terrible betrayals feature in this multiple-narrator, character-driven study of power, agency, and identity. –Kirkus Reviews, starred review
