**John F. Richards**

*Shahryar Rakhshanda Jalil*,2018-08-25 One of the most important voices in contemporary Indian poetry, Shahryar (1936-2012) casts a mesmeric spell since the publication of his very first collection, *Ism-e Azam*, in 1965. In a career spanning five decades, it is interesting how Shahryar always managed to remain topical and his poetry could always be called 'the call of the time'. This ability to remain relevant and to always have something to say consistently over a period of time is a singular quality. This book locates Shahryar's considerable body of work in the trajectory of contemporary Indian writings and evaluates his extraordinary contribution to not merely modern Urdu poetry but, more significantly, modern Indian poetry.

**The Arabian Nights** Richard Burton, Sir,2014-05-03 AND AFTERWARD. Verily the works and words of those gone before us have become instances and examples to men of our modern day, that folk may view what admonishing chances befell other folk and may therefrom take warning; and that they may peruse the annals of antique peoples and all that hath betided them, and be thereby ruled and restrained. Praise, therefore, be to Him who hath made the histories of the past an admonition unto the present! Now of such instances are the tales called *A Thousand Nights and a Night*, together with their far-famed legends and wonders.

**The Monumental Inscriptions from Early Islamic Iran and Transoxiana** Sheila

Blair,1991-11-01 Inscriptions on buildings are a distinctive feature of Islamic architecture, and this book studies the 79 surviving monumental inscriptions in the Iranian world from the first five centuries of the Muslim era (A.D. 622-1106), the period in which all the major trends of monumental epigraphy in the area were set. These foundation, commemorative, and funerary texts come from the region between Iraq and Soviet Central Asia. Written primarily in Arabic, they embellished architectural monuments and furnishings whose nature implies the construction of major buildings. An extended introduction discusses such general topics as titulature, patronage, and stylistic development. Each text is then presented individually with photographs, drawings, transcriptions, translations and an extensive commentary, which presents the inscription in its larger palaeographic and historical contexts.

Nur Jahan, Empress of Mughal India Ellison Banks Findly,1993 Nur Jahan was one of the most powerful and influential women in Indian history, and Ellison Findly's biography is an intriguing, elegantly written account of her life and times. Findly's work not only revises the legends that portray Nur Jahan as a power-hungry and malicious woman, but also investigates the paths to power available to women in Islam and Hinduism, providing a fascinating picture of life inside the 'mahal' (harem)--Publisher's website.

Arabian Nights Neil Duffield,2017-04-05 When Sheherazad is brought to the palace to be the Sultan's new bride, her very life depends upon her skill as a storyteller. She tells him tales of lost cities and buried treasure, of slave girls and robbers, of genies in bottles and evil sorcerers. But will it be enough to save her? The stories of the Arabian Nights date back more than a thousand years and originate from Persia, India and Arabia. Neil Duffield has combined elements of many of them, keeping alive the excitement and humour to produce a show which will transport the audience into a world of myth and legend where fantasy and reality can never be separated.

*How to Enhance Morality* Vojin Rakić, 2021-04-18 This book offers an innovative approach to moral enhancement. We, as humans, have a moral duty to be as good as we can be. Hence, moral bio-enhancement (MBE), if effective and safe, is our moral duty. However, it has to be voluntary because if it is made compulsory, human freedom (of the will) would be curtailed. As freedom (of the will) is an essential component of humanness, compulsory MBE would infringe upon our humanness. An essential question is; what will motivate humans to subject themselves voluntarily to MBE? The book argues - and supports by using empirical/experimental evidence - that morality and happiness operate in a circularly supportive relationship that applies to most humans most of the time: the better they are, the happier they will be; the happier they are, the better they will be. Hence, the grounding rationale for MBE ought not to be the prevention of “ultimate harm” based on compulsory MBE (as argued by Persson and Savulescu), but human happiness based on voluntary MBE. The primary objective of the book is to provide the readers with an original view on moral enhancement, whilst proposing a novel conception of moral enhancement that is informed by new biotechnological developments.
