Code Cracking for Kids Jean Daigneau, 2019-10-01 People throughout history have written messages in code and ciphers to guard and pass along closely held secret information. Today, countries around the world enlist cryptanalysts to intercept and crack messages to keep our world

safe. Code Cracking for Kids explores many aspects of cryptology, including famous people who used and invented codes and ciphers, such as Julius Caesar and Thomas Jefferson; codes used during wars, including the Enigma machine, whose cracking helped the Allies gather critical information on German intelligence in World War II; and work currently being done by the government, such as in the National Security Agency. Readers also will learn about unsolved codes and ciphers throughout history, codes used throughout the world today, though not often recognized, and devices used over the years by governments and their spies to conceal information. Code Cracking for Kids includes hands-on activities that allow kids to replicate early code devices, learn several different codes and ciphers to encode and decode messages and hide a secret message inside a hollow egg.

Gluten-Free Baking for the Holidays Jeanne Sauvage, 2012-10-10 The holidays are a time to celebrate and indulge in baked goods warm from the oven. Unfortunately for the gluten-sensitive, seasonal pleasures such as sugar cookies and mincemeat tarts have been off-limits. Not anymore! Jeanne Sauvage, author of the popular blog Art of Gluten-Free Baking, has perfected 60 gluten-free recipes with all the flavors of their wheat-filled counterparts. Also included are tips on how wheat-free

ingredients work and Jeanne's own gluten-free flour mix. With favorites like apple pie, plum pudding, rugelach, brioche de Noel - even a gingerbread house - everyone can pull up a chair to the holiday table with comfort and joy.

Radio Mystery and Adventure and Its Appearances in Film, Television and Other Media Jim Harmon,2011-01-14 From the 1920s to the 1950s, radio was the entertainment source for millions. Two of the primary themes of radio serials were mysteries and adventure. This is a detailed analysis of the important programs in these genres--Jack Armstrong, The Green Hornet, Sergeant Preston, Tom Mix, and more. Each entry includes type of series, broadcast days, air dates, sponsors, network, cast and production credits, and a comprehensive essay. When, as often happened, the series landed in other media, that is examined as well.

Run Like a Champion Alan Culpepper,2015-03-05 In *Run Like a Champion*, one of America's most versatile and accomplished runners, Alan Culpepper, reveals the best practices of the best runners. Over his 25-year racing career, Culpepper won national titles from 5K to marathon, a span of race distances so wide that just a few runners can claim the same impressive versatility. Culpepper sets out his approach--and the lessons he learned from his competitors--so that all runners can fully realize their potential. As a two-time Olympic competitor, Culpepper has a unique understanding of what it takes to compete at the highest level. His running career has put him on the start line alongside the world's best runners, and he has found that despite their many differences, talents, and approaches to training, among them they share a common understanding: the best athletes know that the secret to success in running lies in understanding a bigger picture of training. Not everyone has the physiology to run at the highest level, but everyone can benefit from implementing an Olympic approach to training. *Run Like a Champion* shares a big-picture view of running, looking at not only the

essential training elements but also other key pieces of the puzzle: identifying motivation; finding a proper work/life/family balance; and understanding complementary aspects of training such as stretching, how much to drink, diet, and how to avoid and treat injuries. *Run Like a Champion* reveals all the guidelines, tips and tricks, workouts, mental training, and nutritional practices that Olympic runners use. By making this Olympic approach part of their running, runners of all levels will make their goals achievable from 5K to marathon.
