Shark Attacks of New York Patricia Heyer,Robert Heyer,2021-08-02 New York's crowded beaches can come to halt with the shout of a single word: shark! The shores of Long Island and Staten Island and the waters surrounding Manhattan have had more than thirty shark attacks recorded since the days of New Amsterdam. Legend has it that Antony Van Corlear, Peter Stuyvesant's trusted deputy, was killed by a shark crossing Spuyten Duyvil Creek while blowing his famed trumpet. In the summer of 1916, after a series of bloody encounters along the Jersey Shore, sharks terrorized beachgoers of Sheepshead Bay, frightening the entire region. Two incidents on Fire Island in 2018 within mere hours and miles of each other involved a twelve-year-old and a thirteen-year-old, striking fear in the hearts of parents. Authors Patricia and Robert Heyer chart the history of New York's shark attacks.

Market Shark MR Christopher V Flett,2014-05-30 Parents warn kids to avoid being a 'big fish in a small pond'. Bad advice mom and dad! Rather than focusing on stardom and trying to be everything to everyone, resources are better spent identifying, researching, entering, and dominating smaller

This book is your tour guide to becoming a Market Shark: the top of the food chain in niche markets where your most valuable clients live. Becoming a Market Shark is a process where you can determine the markets you want to own, ascend to the position of 'top choice' in that niche, and take methodical steps and establish the business development habits to keep your position and profitability at the front of the pack. Eat or be eaten. . .

Berserker The Ultimate Enemy Fred Saberhagen, 2013-01-11 Long ago, in a distant part of the galaxy, two alien races met—and fought a war of mutual extinction. The sole legacy of that war was the weapon that ended it: the death machines, the BERSERKERS. Guided by self-aware computers more intelligent than any human, these world-sized battle craft carved a swath of death through the galaxy—until they arrived at the outskirts of the fledgling Empire of Man. These are the stories of the frail creatures who must meet this monstrous and implacable enemy—and who, by fighting it to a standstill, become the saviors of all living things. With help from wherever they can find it, including World War I fighters and stomatopods, earth descended humans face the ultimate enemy of all life. A Saberhagen classic book length collection of the nine Berserker stories: The Smile, Pressure, The Annihilation Of Angkor Apeiron, Inhuman Error, Some Events At The Templar Radiant, Starsong, Smasher, The Game, Wings Out Of Shadow.

Swimming with Sharks Heather Lang, 2018-08-01
Before Eugenie Clark's groundbreaking research, most people thought sharks were vicious, blood-thirsty killers. From the first time she saw a shark in an aquarium, Japanese-American Eugenie was enthralled. Instead of frightening and ferocious eating machines, she saw sleek, graceful fish gliding through the water. After she became a scientist—an unexpected career path for a woman in the 1940s—she began taking research dives and training sharks, earning her the nickname The Shark Lady.
