Shark Attacks of New York Patricia Heyer,Robert Heyer,2021-08-02 New York's crowded beaches can come to halt with the shout of a single word: shark! The shores of Long Island and Staten Island and the waters surrounding Manhattan have had more than thirty shark attacks recorded since the days of New Amsterdam. Legend has it that Antony Van Corlear, Peter Stuyvesant's trusted deputy, was killed by a shark crossing Spuyten Duyvil Creek while blowing his famed trumpet. In the summer of 1916, after a series of bloody encounters along the Jersey Shore, sharks terrorized beachgoers of Sheepshead Bay, frightening the entire region. Two incidents on Fire Island in 2018 within mere hours and miles of each other involved a twelve-year-old and a thirteen-year-old, striking fear in the hearts of parents. Authors Patricia and Robert Heyer chart the history of New York's shark attacks.

Market Shark MR Christopher V Flett,2014-05-30 Parents warn kids to avoid being a 'big fish in a small pond'. Bad advice mom and dad! Rather than focusing on stardom and trying to be everything to everyone, resources are better spent identifying, researching, entering, and dominating smaller niche markets. In other words, becoming a Market Shark. If you would rather be famous than rich, don't read this book. This book is your tour guide to becoming a Market Shark: the top of the food chain in niche markets where your most valuable clients live. Becoming a Market Shark is a process where you can determine the markets you want to own, ascend to the position of 'top choice' in that niche, and take methodical steps and establish the business development habits to keep your position and profitability at the front of the pack. Eat or be eaten. . .

Close to Shore Mike Capuzzo,2001 Describes how, in the summer of 1916, a lone great white shark headed for the New Jersey shoreline and a farming community eleven miles inland, attacking five people and igniting the most extensive shark hunt in history.

Summer of the Sharks Sally Streib,1916-08-30 Twelve-year-old twins Eric and Susan are off on wild another adventure with Aunt Sally and Uncle Merle in Summer of the Sharks, Volume 2 of the Treasures by the Sea series by author Sally Streib. When Aunt Sally is asked to conduct a reef study on the remote island of Eleuthera, Bahamas, she invites the twins to join her. Susan is excited. She can't wait to discover new creatures under the sea. Eric, her twin brother, must overcome his fears of the deep and learn to trust God to take care of him. Will Eric and Susan be able to meet the challenges on Eleuthera? Will a new friend help Eric overcome his fear? Jump into the sea with the twins and their new family. Discover new lessons from nature and the Bible. Discover how Spotted Eagle Rays help Eric overcome his fear of the deep. Learn what happens when Susan and Aunt Sally encounter a shark in the fish pond channel. Like Eric and Susan, you can learn how to overcome fear and trust in God's plans for your life.

The Case of the Loose-Toothed Shark (Jack Gets a Clue #4) Nancy Krulik,2012-02-01 Another

funny mystery from bestselling author Nancy Krulik! When a giant shark tooth fossil went missing during my little sister Mia's birthday party at the aquarium, I found myself in really deep water -- the aquarium staff accused me of stealing it! No way would I steal something, even if it was a cool fossil. What I could do, though, was talk to the animals at the aquarium to find out who the real thief was. My brainiac detective partner Elizabeth and I would have to work fast to clear my name before the end of the day!

Would You Rather Be a Pollywog Bonnie Worth, 2010-04-27 Cats normally don't like water, but the Cat in the Hat is no normal puss! He's fond of ponds, and in this latest Cat in the Hat's Learning Library book, he takes Sally and Dick on a trip to show them how ponds are fascinating places teeming with life. From algae to snails, leeches, insects, fish, frogs, newts, turtles, ducks, swans, and more, the Cat explains how all different kinds of plants and animals make their home in and around ponds, as well as examining the difference between complete and incomplete metamorphosis and the various stages of frog development. Ideal for spring and summer reading, this is a beginning reader that will inspire kids to get outside and explore!

Berserker The Ultimate Enemy Fred Saberhagen, 2013-01-11 Long ago, in a distant part of the galaxy, two alien races met—and fought a war of mutual extinction. The sole legacy of that war was the weapon that ended it: the death machines, the BERSERKERS. Guided by self-aware computers more intelligent than any human, these world-sized battle craft carved a swath of death through the galaxy—until they arrived at the outskirts of the fledgling Empire of Man. These are the stories of the frail creatures who must meet this monstrous and implacable enemy—and who, by fighting it to a standstill, become the saviors of all living things. With help from wherever they can find it, including World War I fighters and stomatopods, earth descended humans face the ultimate enemy of all life. A Saberhagen classic book length collection of the nine Berserker stories: The Smile, Pressure, The Annihilation Of Angkor Apeiron, Inhuman Error, Some Events At The Templar Radiant, Starsong, Smasher, The Game, Wings Out Of Shadow.

Swimming with Sharks Heather Lang, 2018-08-01 Before Eugenie Clark's groundbreaking research, most people thought sharks were vicious, blood-thirsty killers. From the first time she saw a shark in an aquarium, Japanese-American Eugenie was enthralled. Instead of frightening and ferocious eating machines, she saw sleek, graceful fish gliding through the water. After she became a scientist—an

unexpected career path for a woman in the 1940s—she began taking research dives and training sharks, earning her the nickname The Shark Lady.
