Applications of Synchrotron Radiation in Low-Temperature Geochemistry and Environmental Science Paul A. Fenter, Mark L. Rivers, Neil Sturchio, Stephen R. Sutton, 2018-12-17 Volume 49 of Reviews in Mineralogy and Geochemistry reviews the state of the art of synchrotron radiation applications in low temperature geochemistry and environmental science, and offer speculations on future developments. The reader of this volume will acquire an appreciation of the theory and applications of synchrotron radiation in low temperature geochemistry and environmental science, as well as the significant advances that have been made in this area in the past two decades. It gives a fairly comprehensive overview of synchrotron radiation applications in low temperature geochemistry and environmental science, describes the ways that synchrotron radiation is generated, including a history of synchrotrons and a discussion of aspects of synchrotron radiation that are important to the experimentalist, describes specific synchrotron methods that are most useful for single-crystal surface and mineral-fluid interface studies as well as methods that can be used more generally for investigating complex polyphase fine-grained or amorphous materials, including soils, rocks, and organic matter.

**Business Model Shifts** Patrick van der Pijl,Justin Lokitz,Roland Wijnen,2020-11-24 Shift your business model and transform your organization in the face of disruption Business Model Shifts is co-authored by Patrick van Der Pijl, producer of the global bestseller Business Model Generation, and offers a groundbreaking look at the challenging times in which we live, and the real-world solutions needed to conquer the obstacles organizations must now face. Business Model Shifts is a visually stunning guide that examines six fundamental disruptions happening now and spotlights the opportunities that they present: The Services Shift: the move from products to services The Stakeholder Shift: the move from an exclusive shareholder orientation to creating value for all stakeholders, including employees and society The Digital Shift: the move from traditional business operations to 24/7 connection to customers and their needs The Platform Shift: the move from trying to serve everyone, to connecting people who can exchange value on a proprietary platform The Exponential Shift: the move from seeking incremental growth to an exponential mindset that seeks 10x growth The Circular Shift: the move from take-make-dispose towards restorative, regenerative,

and circular value creation Filled with case studies, stories, and in-depth analysis based on the work of hundreds of the world's largest and most intriguing organizations, Business Model Shifts details how these organizations created their own business model shifts in order to create more customer value, and ultimately, a stronger, more competitive business. Whether you're looking for ways to redesign your business due to the latest needs of the marketplace, launching a new product or service, or simply creating more lasting value for your customers, Business Model Shifts is the essential book that will change the way you think about your business and its future.

**After Effects On the Spot** Richard Harrington,2012-10-02 'After Effects 6 On the Spot' delivers immediate solutions! Packed with over 350 techniques, this book gets motion graphics and visual effects artists up to speed efficiently in After Effects by letting them learn what they need to know, when they need to know it. All of the essential methods that professionals use to get the job done are clearly and concisely detailed and illustrated. Experienced editors will find the book sufficiently comprehensive to orient themselves to After Effects version 6 and novices will find an invaluable reference filled with techniques to improve their efficiency and creativity.

**Shifting Shadows (LP)** Hadley Hoover,2017-11-04 In 1944, Muriel discarded her friendship with Sanna and concocted a self-centered plot, which gave her what she wanted: Derek VanHousen. That Sanna and Derek were all but publicly engaged didn't deter Muriel. Blindly she plunged into the murky waters of self-gratification, latching on to everything but a clean conscience and peace of mind. Now it is 1964 and Sanna is returning to Dutchville. With his first-love walking the same

streets again, will Derek remain true to his wife? Muriel has a tough row ahead if she's going to make what she knows to be fiction (a happy VanHousen marriage) seem real enough to fool Sanna. Muriel has a two-pronged problem: 1) keeping face in a town that remembers her deviousness, and 2) resurrecting the vivacious Young Muriel who snagged her best friend's true love. Life is in disarray for the VanHousen family-while Sanna is as enticing as ever. Sometimes you just can't escape shadows, even shifting shadows . . .

Database Systems for Advanced Applications '97 Rodney Topor,Katsumi Tanaka,1997 This volume contains the proceedings of the Fifth International Conference on Database Systems for Advanced Applications (DASFAA '97). DASFAA '97 focused on advanced database technologies and their applications. The 55 papers in this volume cover a wide range of areas in the field of database systems and applications ? including the rapidly emerging areas of the Internet, multimedia, and document database systems ? and should be of great interest to all database system researchers and developers, and practitioners.

*Exploring the World with the Laser* Dieter Meschede,Thomas Udem,Tilman Esslinger,2018-01-02 This edition contains carefully selected contributions by leading scientists in high-resolution laser spectroscopy, quantum optics and laser physics. Emphasis is given to ultrafast laser phenomena, implementations of frequency combs, precision spectroscopy and high resolution metrology. Furthermore, applications of the fundamentals of quantum mechanics are widely covered. This book is dedicated to Nobel prize winner Theodor W. Hänsch on the occasion of his 75th birthday. The contributions are reprinted from a topical collection published in Applied Physics B, 2016. Selected contributions are available open access under a CC BY 4.0 license via [link.springer.com](https://link.springer.com). Please see

the copyright page for further details.

**Global Shift** Edmund J. Bourne, 2009-01-02 A remarkable change is taking place that will profoundly influence the way we see ourselves and our world. The dominant materialistic, separatist worldview—a perspective that leads individuals to value their own needs over the good of the whole—is giving way to a humanitarian-spiritual orientation. This shift will revolutionize both the way humanity interacts on a global scale and how we live on a day-to-day basis. *Global Shift*, co-published with the Institute of Noetic Sciences (IONS), explores the roots of such current planetary crises as climate change, diminishing resources, poverty, and disease, and explains how a new convergence of scientific research and spiritual insight is propelling us toward a more enlightened future. It also presents a call to actions we can implement now, such as voluntary simplicity, nonviolent communication, caring for our bodies, and inclusive global thinking, that can foster personal healing and bring our lives into alignment with the needs of the planet and a conscious universe.

**Proceedings of the 8th International Conference on Sciences of Electronics, Technologies of Information and Telecommunications (SETIT'18), Vol.1** Med Salim Bouhlel, Stefano Rovetta, 2019-07-10 This two-volume book presents an unusually diverse selection of research papers, covering all major topics in the fields of information and communication technologies and related sciences. It provides a wide-angle snapshot of current themes in information and power engineering, pursuing a cross-disciplinary approach to do so. The book gathers revised contributions that were presented at the 2018 International Conference: Sciences of Electronics, Technologies of Information and Telecommunication (SETIT'18), held on 20-22 December 2018 in Hammamet, Tunisia. This eighth installment of the event attracted a wealth of

submissions, and the papers presented here were selected by a committee of experts and underwent additional, painstaking revision. Topics covered include: · Information Processing · Human-Machine Interaction · Computer Science · Telecommunications and Networks · Signal Processing · Electronics · Image and Video This broad-scoped approach is becoming increasingly popular in scientific publishing. Its aim is to encourage scholars and professionals to overcome disciplinary barriers, as demanded by current trends in the industry and in the consumer market, which are rapidly leading toward a convergence of data-driven applications, computation, telecommunication, and energy awareness. Given its coverage, the book will benefit graduate students, researchers and practitioners who need to keep up with the latest technological advances.

Popular Electronics ,1981

Free Space Optical Communication A. Arockia Bazil Raj,2016-01-01 The book focuses on experimental modeling of atmospheric turbulence effects and mitigation of beam wandering and wavefront distortions in terrestrial free space optical communication (FSOC). This means, developing a reliable FSOC system with a necessary optoelectronic assembly to compensate the atmospheric turbulence effects, so as to practically attain the acceptable BER under any real-world open atmospheric turbulence conditions.
