Roy Harris of Cut and Shoot Robin Montgomery Ph.D., Roy Harris Attorney at law, 2012-11-17 Generations of fighting Harris blood exploded through Roy Harriss veins that August night in 1958 as he stood in the boxing ring in Los Angeles. He was facing the undefeated heavyweight champion of the world, Floyd Patterson, who, at the time, had earned that crown at an earlier age than any other man in history. Roy faced a psychological handicap met by few other heavyweight challengers. How could a rustic backwoodsman turned gentleman-scholar-soldier cope with such a challenge? What strange events had conspired to create the meeting of such a contrast in pugilistic antagonists? Roy Harris of Cut and Shoot is, in part, the story of how and why Roy Harris emerged from backwoods obscurity to the pinnacle of fistic heavena heavyweight title bout. But this is also the story of the rapidly vanishing breed that spawned and nourished himthe rugged individualistic frontiersmen from the oil-rich southeast Texas thicket country. Today, Cut and Shoot is a growing community northeast of Houston. Roy has retired from illustrious careers not only in boxing, but as an attorney, real estate mogul, and the county clerk of Montgomery County, Texas, for twenty-eight years. Roys personal memories are inserted throughout Roy Harris of Cut and Shoot, adding authenticity to this dramatic saga.

Multiple Worlds of Child Writers Anne Haas Dyson, 1989 Based on a two-year study of first graders at a magnet school in the San Francisco Bay Area, Multiple Worlds of Child Writers: Friends Learning to Write provides an important missing link in the study of emergent literacy: the peer group and the classroom contexts that surround it. Using four richly detailed case studies, the author portrays the process through which Margaret, the teacher, and her children form a community, one supported by and supporting of the children's growth as writers. Dyson offers new perspectives by displaying the quality of life in the classroom through children's talk, drawings, and writing. The theoretical framework presented here for understanding children's growth moves what is usually considered background to the foreground for study. Most works on children's writing stress that children must "disembed" or "decontextualize" their written texts from dependency on other symbolic media and other people. Dyson, however, shows that to develop as writers, children's text must become progressively more embedded in the social, affective, and intellectual parts of their lives. The book also emphasizes the nature of the classroom rather than the home as a distinctive context for early literacy growth. Moreover, the classroom is an urban one that includes children from diverse social and ethnic backgrounds. The classroom and children whose lives fill this book challenge current thinking about such critical issues as the developmental links between writing and other symbol systems, sequence and variability in early writing growth, the relationship between form and function in young children's writing, and the development of literary language. This book is a must for early childhood educators, reading and language arts specialists, and scholars/researchers in the field of literacy.

Redefining School Safety and Policing Jeffrey D. Yarbrough, 2023-08-21 Redefining School Safety and Policing identifies and works to eliminate systemic issues in school policing that negatively impact students of color, LGBTQIA+ students, and other marginalized populations. Focusing on the fundamental goal of creating safe learning environments, Yarbrough lays out the unintended consequences of involving police in the administrative disciplinary process, as agents of school administrators and enforcers of zero-tolerance policies. Behavioral health support is important to students going through social, emotional, and mental health crises. True equity work brings everyone to a safe space in the middle, encouraging open discussion and courageous dialogue and aiming to create positive change. Yarbrough argues that behavioral health and racial equity are vital to transforming school policing and providing beneficial alternative solutions to school policing that do not lead students to the juvenile or criminal justice system. This book is suitable for colleges and universities, K-12 school administrators, teachers, police and school resource officers, counselors, social workers, and community activists.
