The book covers the planning and political struggles that began Wake Island's transformation into a naval air station and submarine base, the U.S. Navy's eleventh-hour efforts to garrison and fortify Wake, and the various air, sea, and land attacks that resulted in the atoll's capture by the Imperial Japanese Navy. This study attempts to correct the myths that shroud what happened on the atoll. - from preface.

Eagle Against the Sun Ronald H. Spector, 2020-11-03 “The best book by far on the Pacific War” (The New York Times Book Review), this classic one-volume history of World War II in the Pacific draws on declassified intelligence files; British, American, and Japanese archival material; and military memoirs to provide a stunning and complete history of the conflict. This “superbly readable, insightful, gripping” (Washington Post Book World) contribution to WWII history combines impeccable research with electrifying detail and offers provocative interpretations of this brutal forty-four-month struggle. Author and historian Ronald H. Spector reassesses US and Japanese strategy and shows that the dual advance across the Pacific by MacArthur and Nimitz was more a pragmatic solution to bureaucratic, doctrinal, and public relations problems facing the Army and Navy than a strategic calculation. He also argues that Japan made its fatal error not in the Midway campaign but in abandoning its offensive strategy after that defeat and allowing itself to be drawn into a war of attrition. Spector skillfully takes us from top-secret strategy meetings in Washington, London, and Tokyo to distant beaches and remote Asian jungles with battle-weary GIs. He reveals that the US had secret plans to wage unrestricted submarine warfare against Japan months before Pearl Harbor and shows that MacArthur and his commanders ignored important intercepts of Japanese messages that would have saved thousands of lives in Papua and Leyte. Throughout, Spector contends that American decisions in the Pacific War were shaped more often by the struggles between the British and the Americans, and between the Army and the Navy, than by strategic considerations. Spector vividly recreates the major battles, little-known campaigns, and unfamiliar events leading up to the deadliest air raid ever, adding a new dimension to our understanding of the American war in the Pacific and the people and forces that determined its outcome.

A Special Valor Richard Wheeler, 2013-11-15 If the U.S. Marines gave birth to a legend in the halls of Montezuma in the nineteenth century, they added glorious luster to it with their heroism and victories against the Japanese in World War II. For this vivid, foxhole view of the Marines' war, Richard Wheeler draws extensively on frontline eyewitness accounts of Marines and combat journalists and backs up their stories with official U.S. action reports and captured Japanese materials. First published in 1983, the book has earned praise as a popular, one-volume history of all the battles fought by the Marine Corps in the Pacific campaign. The book describes in fascinating and exciting detail the heroic defense of Wake Island against an overwhelming enemy assault force. It traces the long bloody battle for Guadalcanal that brought the Marines their first victory and gave America and its allies control of the strategically important Soloman Islands. It follows the painful, island-by-island counterattack toward the Japanese homeland when the Marines created new legends at such places as Bougainville, Saipan, Tarawa, Guam, Iwo Jima, and Okinawa. Here are the remarkable exploits of the Marines holding off Japanese assault waves at Heartbreak Ridge, storming across coral reefs, and struggling up the slopes of Mount Suribachi to raise the Stars and Stripes. Some sixty-five photographs enhance the book, which is now available in paperback for the first time.

B-29 Hunters of the JAAF Koji Takaki, Henry Sakaida, 2012-10-20 B-29!' No other term struck such terror in the hearts of the Japanese public during World War 2 than this single, most-hated name. It was then only natural that the pilots who attempted to shoot these high-flying Boeing bombers out of the skies over Tokyo, Nagasaki, Hiroshima and Kobe should become known as the elite of the Japanese Army Air Force. This book details the exploits of the 'Dragon Slayers' who, flying the very latest single and twin-engined fighters, exacted a heavy toll on the AAF Boeing bombers using a range of tactics including ramming.
