**Photography in Social Work and Social Change** Matthias J. Naleppa, Kristina M. Hash, Anissa T. Rogers, 2022 Photography has become omnipresent in our lives. At the same time, photos are much more than just depictions of everyday life. **Reset** Ronald J. Deibert, 2020-09-29 In the 2020 CBC Massey Lectures, bestselling author and renowned technology and security expert Ronald J. Deibert exposes the disturbing influence and impact of the internet on politics, the economy, the environment, and humanity. Digital technologies have given rise to a new machine-based civilization that is increasingly linked to a growing number of social and political maladies. Accountability is weak and insecurity is endemic, creating disturbing opportunities for exploitation. Drawing from the cutting-edge research of the Citizen Lab, the world-renowned digital security research group which he founded and directs, Ronald J. Deibert exposes the impacts of this communications ecosystem on civil society. He tracks a mostly unregulated surveillance industry, innovations in technologies of remote control, superpower policing practices, dark PR firms, and highly profitable hack-for-hire services feeding off rivers of poorly secured personal data. Deibert also unearths how dependence on social media and its expanding universe of consumer electronics creates immense pressure on the natural environment. In order to combat authoritarian practices, environmental degradation, and rampant electronic consumerism, he urges restraints on tech platforms and governments to reclaim the internet for civil society.

Disruption—the brutal roiling of markets, the decline of long-established brands and products, and the rise of new upstarts—drives business failure and success. Most people think technology causes disruption, but technology merely enables it. Changing customer needs cause disruptions, and too many businesses get caught unaware. Suman Sarkar offers proven strategies that will enable any business to stay radically close to its customers and address their evolving needs. He argues that businesses need to focus on existing customers first—research shows they're likely to spend more and are more profitable than new customers. Personalization is becoming important for the newer generations in both developed and developing markets, so Sarkar describes approaches to make them cost-effective. In our era of instant gratification, customers want what they want now—Sarkar explains how you can develop and deliver products and services faster than ever. And since a few bad Yelp reviews, social media posts, or angry tweets from customers can ruin you, Sarkar shows how to proactively make sure the quality of your products and services stays better than that of your competitors. The key to survival in this era of changing customer needs is to focus on and address them quickly so customers don't switch to the competition. Drawing on his experiences with leading companies worldwide, Sarkar offers five strategies and techniques that will keep you ahead of the curve.
